MARRIED BY TELEGRAPH.

Chicago Times.

A marriage by telegraph took place in Chicago Fort Worth a day or two ago. There seems to be something rather cold and unsatisfactory in these marriages by wire. The bride and groom are too far apart to realize, except by a champion effort of imagination, that they were married at all. How does the groom know how many objectionable fellows are kissing the bride, and does the bride know that her bran new husband doesn't go off to visit some other girl an hour after his marriage? Heartless and mercenary marriages might be well enough by telegraph, but where the marriage is one of affection people about to marry might reasonably prefer to have the ceremony performed while they are in proximity with each other. Moreover, a honeymoon by telegraph can hardly be compared, it is said, with a honeymoon in the old fashion way. Altogether it is probable that the prejudice in favor of marriages on old times principles will never permit the telegraph companies to realize much revenue from marriages by wire.

DEATH FROM PASSION.

Cases in which death results from the physical excitement consequent on mental passion are, according to *The Lancet*, not uncommon. A recent instance has again called attention to the matter. Unfortunately those persons who are prone to sudden and over-whelming outbursts of ill temper do not, as a rule, recognize their propensity or realize the perils to which the express them, while the stupid idea that such deaths as occur in passion, and which are directly caused by it ought to be ascribed to "the visitation of God," tends to divert attention from the common sense lesson which such deaths should teach. It is most unwise to allow the mind to excite the heart at least to such extent as to endanger life itself. We do not sufficiently appreciate the need and value of mental discipline as a preventive of disturbances by which happiness and life itself are too often jeopardized.

Exchange.

"In my time, miss," said a stern aunt, "the men looked at the women's faces instead of their ankles!" "Ah, but my dear aunt," retorted the pretty young lady, "you see that the world has improved, and is more civilized than it used to be—it looks now to the understanding."

The LEADING MAGAZINE for BOYS and GIRLS

ST. NICHOLAS,

EDITED BY

Mrs. Mary Mapes Dodge.

The New York Tribune once said: "In the available of juvenile literature that threatens the children, some strong, healthy influence, and really attractive magazine is required for them, and St. Nicholas has reached a higher platform, and commands for this service wider resources in art and letters than any of its predecessors or contemporaries." The reference to the wide resources in art and letters commanded by St Nicholas was never more fully illustrated than by the extraordinary list of attractions which that magazine announces for 1884. The following will be some of the leading contributors:

Louisa M. Alcott, J. T. Trowbridge, Captain Mayne Reid, Hjalmar Hjorth Boyesen, Maurice Thompson, Frank R. Stockton, Charles Dudley Warner, Joaquin Miller, Elizabeth Stuart Phelps, Mrs A. D. T. Whitn y, Julian Hawthorne, Celia Thaxter, Mary Mapes Dodge, Lieut. Frederick Schwatka Rose Hawthorne Lathrop, E. S. Brooks, George W. Cable, Chas. G. Leland, Susan Fenimore Cooper, John G. Whittier, "H. H.", W. O. Stoddard, C. P. Cranch, and seven of other distinguished writers. The text art. is and engravers illustrate the magazine. It has been truly said that the reading of St. Nicholas is

"A LIBERAL EDUCATION"

for the boys and girls who are fortunate enough to have it. In no other book or periodical is instruction so happily blended with recreation and amusement.

The price is $3.00 a year, or 25 cent a number. Book-sellers, news-dealers, and postmasters receive subscriptions, or remit once may be made direct to the publishers, by money or (safe) order, bank check, draft, or in registered letter

THE CENTURY CO., New York, N. Y.

The Sun.

NEW YORK, 1884.

About sixty million copies of THE SUN have gone out of our establishment during the past twelve months.

If you were to paste end to end all the columns of all THE SUNS printed and sold last year you would get a continuous strip of interesting information, common sense wisdom, sound doctrine, and sane wit long enough to reach from Printing House square to the top of Mount Copernicus in the moon, then back to Printing House square, and then three-quarters of the way back to the moon again.

But THE SUN is written for the inhabitants of the earth; this same strip of intelligence would girdle the globe twenty-seven or twenty-eight times.

If every buyer of a copy of THE SUN during the past year has spent only one hour over it, and if his wife or his grandfather has spent another hour, this newspaper in 1883 has afforded the human race thirteen thousand years of steady reading, night and day.

It is only by little calculations like these that you can form any idea of the circulation of the most popular of American newspapers, or of its influence on the opinions and actions of American men and women.

THE SUN is, and will continue to be, a newspaper which tells the truth without fear of consequences, which gets at the facts no matter how much the process costs, which presents the news of all the world without waste of words and in the most readable shape, which is working with all its heart for the cause of honest government, and which therefore believes that the Republican party must go, and must go in this coming year of our Lord, 1884.

If you know THE SUN, you like it already, and you will read it with accustomed diligence and profit during what is sure to be the most interesting year in its history. If you do not yet know THE SUN, it is high time to get in the sunshine.

Terms to Mail Subscribers.

The several editions of THE SUN are sent by mail, postpaid, as follows:

DAILY—50 cents a month, $6 a year; with Sunday edition, $7.

SUNDAY—Eight pages. This edition furnishes the current news of the world, special articles of exceptional interest to everybody; and literary reviews of new books of the highest merit. One Dollar a year.

WEEKLY—One Dollar a year. Eight pages of the best matter of the daily issues; an Agricultural Department of unequalled value, special market reports, and literary, scientific, and domestic intelligence make THE WEEKLY SUN the newspaper for the farmer's household. To clubs of ten with $10, an extra copy free.

THE KNOXVILLE BUSINESS COLLEGE

CLOSING, LEAVES ITS GOOD WILL TO

GOODMAN'S BUSINESS COLLEGE.

For several years past we have successfully conducted our Business College at Knoxville, Tenn., but having selected another field of labor, we will close our College in Knoxville, permanently on June 16, 1883, and resign our position as Principal and Teachers of the Commercial Department of the University of Tennessee.

In retiring from our field of labor, we leave a worthy successor, Prof. Frank Goodman, from whom we have received many favors, and to whom we cheerfully recommend all our friends and acquaintances.

Especially do we advise all young men and women of the South and West, who had anticipated entering our College, to attend Goodman's Knoxville or Nashville Business College, for having been identified with business education for more than twenty years, we feel we are capable of appreciating the merits of these first-class Colleges.

Prof. Goodman has been eminently successful in preparing young men for business, and demonstrating to the business world that Business Colleges can teach people how to keep books correctly, and transact business generally, for we have reliable information that within the past four months the following named firms have applied to him for his students to fill commercial positions.

Gibson, Lee & Co., Chattanooga.
Cowan, McClung & Co., Knoxville.
Haynes, Henson & Wright, Knoxville.
Burr & Terry, Knoxville.
Hill & Waters, Lebanon.
Southern Moulding Co., Detroit, Mich.
J. F. Smedley & Co., (formerly Ada, Ohio, now of Nashville)
C. E. Smedley & Co., Nashville.
Bradford & Co., Nashville.
Tennessee Journal of Education, Nashville.
W. R. McFarland & Co., Nashville.
Fostreich & Co., Nashville.
A. Crone & Co., Nashville.
Prewitt, Spurr & Co., Nashville.
Tax Collector & Assessor's office, Nashville.

Unquestionably the great present want of the South is a thorough and practical business training for her young men, and in leaving our present field of operation, we feel it our duty to tender our warmest thanks to the people of the South in general, and to the citizens of Knoxville in particular, for the liberal support we have received at their hands, and we would at the same time, in this public manner, express our sincere desire, that the generous patronage heretofore bestowed upon us, may now be transferred in full measure to our successor.

We remain with kind remembrances,

The Public's Obedient Servants,

JONES & SONS.

PATENTS

obtained for new inventions, or for improvements on old ones, for medical or other compounds, trade-marks and labels. Caveats, Assignments, Interferences, Appeals, Suits for Infringements, and all cases arising under the PATENT LAWS, promptly attended to. ——INVENTIONS THAT HAVE BEEN REJECTED by the Patent Office may still, in most cases, be prosecuted by us. Being opposite the U. S. Patent Department, and engaged in Patent business exclusively, we can make closer searches, and secure Patents more promptly, and with broader claims, than those who are remote from Washington.

INVENTORS send us a model or sketch of your device; we make examinations and advise as to patentability, FREE OF CHARGE. All correspondence strictly confidential. Prices low, and NO CHARGE UNLESS PATENT IS SECURED.

We refer to Hon. Postmaster-General D. M. Key, Rev. E. D. Power, The German-American National Bank, to officials in the U. S. Patent Office, and to Senators and Representatives in Congress; and especially to our clients in every State in the Union and in Canada.
