N. Y. WHOLESALE PRICES OF COUNTRY PRODUCE.

FOR THE WEEK ENDING OCT. 17, 1871.

(Expressly for THE N. Y. TRIBUNE by our own Reporter.)

The following are the current rates of articles in good condition, as sold by commission houses by wholesale. Shippers receive 5 to 10 per cent less deducted for commissions, beside freight and other charges. Boxes or packages should be carefully marked with paint, and the initials or private mark of the sender should also be painted upon one end, with marks plainly indicating the contents. Nail an invoice or list of the articles upon the under side of the cover, and send letter by mail containing an invoice and directions, also stating how and when sent. Clean packages and care in putting up will add much to the value of the produce.

BEANS AND PEAS.

Receipts for the week, 1,544 bbls. beans, or 421 bbls. more than last week; corresponding week last year, 1,045 bbls. This increase in arrivals, together with a hold up back on the part of buyers in expectation of lower prices, causes a dullness in the market, and sales are only effected by reducing the rates. While some receivers of extra beans, having a regular local trade, keep the jobbing rates nearly where they were one week ago, important concessions have to be made to work off car-loads, and the general feeling is that it is not prudent to hold them. While we note 50 bbls. very fine medium at $2 75, it is probably the highest price of any of several other lots. Marrows have declined more than medium. After 50 bbls., egg size, extras are sold at $3 50, and a lot of fine marrows at $3 40. 16 bbls. were just sold at $3 35. A lot of 10 bbls. kidney beans went at $3 25; 20 bbls. indifferent red kidney, $2 50; 23 bbls. do., $2 62½; and 17 bbls. fine do., $3 50. Of peas, 200 bags Southern blackeye sold at $2 28; 50 bags green peas, $1 50; 25 bbls. do., $3; 440 bush. new Canada peas, $1 37½, and 1,000 bush. old do., from warehouse, at $1 25@ $1 28. We quote:

BUTTER.

Receipts for the week, 16,615 pkgs., or 3,781 less than last week. Corresponding week last year, 10,564 pkgs. Exports the past week, 3,334 pkgs. These are the largest shipments of the season, but there are indications that shippers are now inclined to hold off. They are also stopping their purchases in Canada as the English markets are being filled up. The general tone of the market here is weak and dull, with a sort of apprehension that State dairies may be forced on sale at any time in quantities sufficient to carry prices several cents lower. We notice many good fair State dairies selling at 30c.—three small dairies sound Chenango County just sold at that price. Shippers have been taking more State butter during the past week, but, instead of meeting the views of holders, the receivers went over to them, selling among others, 60 firkins at 31c., and 300 Welsh tubs at same price. Of fine half tubs 100 from selected dairies, were just sold to home trade at 35c., with 40 fine firkins and a lot of pails at same price. Shippers took of Western 100 firkins, low grade, at 17c.; 100 Illinois firkins and tubs fair, at 18c., and 68 fresh and good firkins at 19c. Select lots of fresh Ohio occasionally realize 31, and even 32c., when just as good as State butter. While we do not materially reduce quotations, the general tone of the market is equivalent to a decline. We quote:

CHEESE.

Receipts for the week, 29,730 boxes, or 6,396 less than last week. Corresponding week last year, 37,526 boxes. Exports the past week, 19,556. Corresponding week last year, 19,000 boxes. The Cable stands at 54s. good at 1½d. Soon after the close one week ago the decline abroad was received, but the market here did not respond, nor did shippers seem any more inclined to increase their orders. On the contrary they held back, sending little more than half the shipments of the previous week, and even offered some of their purchases on this market. Trade is decidedly dull at the present moment, and shippers want the finest factories at 12c. They did pay 12½c. for 352 boxes strictly fancy, the home trade taking a lot of 95 boxes at same price, and paying 12½c. for one lot of 300 boxes and the same price for 200 boxes. We show the state of the markets south, we note the return of quite a lot of cheese from New-Orleans, sent here for sale, and some factories ordered here from the mining districts of Pennsylvania. The country markets were firm, with light transactions, yesterday. Some 5,000 boxes were offered at Utica, realizing 13@13½c., but none were taken. About 5,000 were sold at Little Falls at 13c. For Plain at 13@13½c., the bulk at 13½c. Where the position to come in does not appear. It would seem that nearly all these country purchases are predicated upon an expected advance abroad. The decline in gold and some stringency in the money market operate against the cheese trade. We quote:

EGGS.

Receipts for the week, 6,523 pkgs., or 636 pkgs. less than the previous week; corresponding week last year, 4,160 pkgs. The demand scarcely keeps pace with the diminished receipts, and the market is easy. Limed move slowly, with quite a good mark offering. We quote:

FRUITS AND BERRIES.

With scarcely an exception the Fruit markets are glutted and prices easy. As though we were not getting as many Pears as could be used from near home, Mr. Reed of Sacramento, Cal., continues to send in a car-load. Vicars, Easter Beurré and W. Neis arriving to-day, consigned to Burle & Sutton. Among them were sample cases en route to M. P. Willcox of Massachusetts some specimens weighing 1½ lb. Our pear market goes from bad to worse. Duchesse being so abundant that sales have just been made as follows, viz.: 60 bbls., nearly worthless, at $1 per bbl.; 75 bbls. at $1 50@$2 50 with numerous lots to peddler now at $3@$4. Good cooking pears sell nearly as high as eating pears, viz.: $3@$5 for Virgin. A few bbls. extra Seckles have reached $12; Vivalens, $10; Le Bonne, $8, rarely over $6; Bourré d'Anjou, $8@ $9; B. Claireau, $4@$6. Apples are also a glut on the market, coming freely from Michigan and Indiana—four car-loads from the latter state arriving to-day, and selling at $2 25@$2 50. A car Mich. apples was sold at $1 75. Fine Northern Pippins begin to be in demand for shipping. They are worth $4@$5 per bbl., when picked over and put in new fair bbls. all ready to ship, holders talk of $8@$7. Grapes continue to come forward freely, one receiver getting five tons and selling four tons yesterday. Concords are nearly done, closing at 6@8c. Delawares are through, and no one wants Hunts, dealers complaining that they cannot sell them again. Few Catawbas are coming from Ohio. We notice somewhat free sales of Cranberries at $2 75@$3 for crates, and $8 50@$9 75 for bbls. Quinces are very dull and sower. We quote:

DRIED FRUITS AND NUTS.

Receipts for the week, 3,819 pkgs. dried fruits, or 234 less than last week; corresponding week last year, 1,153 pkgs. Apples are rather gaining strength, with somewhat free transactions. A few Western have been received. We only note, as samples, 4 bbls. new Western qrs., fine, at 8c.; 2,000 ℔ Southern qrs. and slices, a good lot, at 10½c.; 11,000 ℔ Southern sliced, nice, at 12c.; 40 bags and 2 bbls. 13c., and 100 bbls. choice at 13½c. There has been quite an advance in unpeeled peaches, several lots changing hands. Large stocks are still holding. We note 300 bags, qrs. at 6@6½c.; 100 pkgs., not prime, at 7c.; 8,700 ℔ good at 8c.; 500 bbls. halves, at 9@9½c.; 25 bbls. halves, peeled at 13c., and 6,000 ℔ fancy at 15c. A lot of 50 bbls. blackberries was sold at 18c. The tone of the blackberry market is scarcely as strong, and the future has an uncertain look. Nuts are much lower and are not selling. We quote:

HOPS.

Receipts of the week, 3,558 bales. With free arrivals the market is firm but quiet, no large lots selling. Late accounts from London state that, without receiving some the Americans of 1871 prices must materially advance there. All the foreign markets are gaining strength. Among late sales here are 15 bales California, to arrive, at 60c.; 37 bales '69s at 19@21c.; 21 of '69s, prime, at 18c.; 20 of '70s, 22c.; 13 do. 20c.; 70 do., mixed growth, 23½; 10 bales mixed '70s and '71s at 50c. MEATS.

Receipts of provisions—Pork, 667 bbls.; beef, 249 bbls. and tcs.; cut meats, 899 pkgs.; lard, 5,141 pkgs. Shipments—Pork, 44 bbls.; beef, 218 bbls. and tcs.; bacon, 2,508 boxes; lard, 4,155 pkgs. It will be seen that the transactions have been much larger. Prices have uniformly advanced, and the markets close firm. POULTRY AND GAME.

We introduce, at the opening of the season, a carefully prepared Poultry and Game Circular, issued by French & Co., as follows:

"This important interest came to unprecedented "grief" during the latter part of last season. The Summer of 1870 had been remarkably dry, and consequently favorable to the hatching and maturing of both domestic and wild birds. Grain was abundant, and Winter weather set in quite late, giving every facility for healthful growth and heavy weight. Low prices prevailed for poultry until past mid-winter, which tended to the keeping back and feeding a larger proportion than usual for the Spring market, when prices generally advance, so as to give a better margin of profit. The quantity packed and frozen at the West and in Vermont to be held for the Spring market was also unusually large. The Spring weather was mild beyond precedent. Winter ended in February, and March was warmer than an ordinary April. A flood of unfrozen poultry came upon the market in the latter part of February and through March, in damaged condition. The protection heretofore fairly successful, did not prevent the frozen poultry from softening, and what could not be got promptly into cold storage (below freezing) sold very low or went to manure. Quail became cheap early in the season, large lots were brought and sent to the country to be frozen or placed under cold storage, to await an advance, but abundant fresh arrivals and declining prices continued through the winter. Grouse sold readily at liberal prices (about $1 per pair,) until mid-winter, and advices from the West constantly indicated a limited supply until after the middle of February. It then became apparent that a number of speculators held large lots, and each supposed that he held about all the grouse in the country. Those holding most attempted to improve the situation by buying out all others at low figures both here and in Boston, expecting some, cold storing some, and holding on for a better market. But the current of bad luck could not be withstood. The New-York Law prohibited the sale of quail and grouse after the last day of February, and, unlike previous years, the law was enforced so rigidly that the demand was almost wholly cut off. Boston was overloaded, and the losses on poultry and game were fearful. Venison was in ample supply, and prices averaged lower than the previous year, but it was closed out prior to the legal prohibition with fair success. We do not question the need of efficient Game laws, but when game has been taken during the legal season it seems absurd and oppressive to limit the period of its sale. Cold storage new gives opportunity to hold game and poultry under frost in perfect condition indefinitely, and the season for its consumption is thus practically doubled. But our laws, inspired by the Sportsman's Club, dictate the sale and consumption of the entire game product of species herewith mentioned, prior to March 1. Last Spring large amounts of grouse were held, frozen, until June 1, and finally sold to a preserving house for canning at 25c. per pair. The purchaser found them choice birds in perfect order. The last modification of New-York Law gives the lowest grade of magistrates power to issue search warrants for the examination of suspected packages or premises. The game trade should therefore take notice that the sorts referred to cannot be sold or stored in this City or State after the last of February. A fair supply, and so limited a season, of course indicates low prices, and game buyers should govern themselves accordingly."

Most of the venison so far received has been in indifferent condition, owing to warm weather; in the absence of a demand quite a quantity has been stored here. Game birds have arrived in poor condition, and sales have been made very low—25c. ℔ pair for grouse and partridges, one lot selling at $5 ℔ bbl. We quote:
