R. W. CARPENTER'S

"IMPROVED VOX HUMANA,"

(Patented June 1st, 1867.)

THE greatest improvement ever introduced into reed instruments, will hereafter be incorporated in the BURDETT ORGANS.

The improved VOX HUMANA is a simple device, which cannot get out of repair, is entirely noiseless, requires no extra pressure nor mechanism, is easily operated by a stop, and is pronounced by a stop by the world as the most exquisitely perfect imitation of the human voice.

It is the greatest improvement in the improvement of Mr. Carpenter's.

"THE HARMONIC CELESTE,"

is now for the first time applied to these instruments. The "HARMONIC CELESTE" is a third set of reeds, which by their position on the patent sound board, and peculiar manner of coupling, produce that pure, ethereal quality of tone so beautiful and delicious that its charming effects cannot be described, but must be heard to be appreciated.

In addition to the foregoing, the valuable combination of recent improvements which have so essentially contributed to the great success of the BURDETT ORGAN, will continue to be used in their manufacture.

HAIR VIGOR,

For the Renovation of the Hair.

The Great Desideratum of the Age!

A DRESSING which is at once agreeable, healthy and effectual for preserving the hair. Faded or gray hair is soon restored to its original color and the gloss and freshness of youth. This hair is thickened, falling hair checked, and baldness often. Though not a WASH, cured by its use. Nothing can restore the hair where the follicles are destroyed or the glands atrophied and decayed, but such as remain can be saved for usefulness by this application. Instead of fouling the hair with a pasty sediment, it will keep it clean and vigorous. Its occasional use will prevent the hair from turning gray or falling off and consequently prevent baldness. Free from those deleterious substances which make some preparations dangerous and injurious to the hair, the Vigor can only benefit but not harm it. If wanted merely for a

HAIR DRESSING,

Nothing else can be found so desirable. Containing neither oil nor dye, it does not soil white cambric, and yet lasts longer on the hair, giving it a rich, glossy lustre and a grateful perfume.

Scrofula, or King's Evil,

is a constitutional disease, a corruption of the blood, by which this fluid becomes vitiated, weak, and poor. Being in the circulation, it pervades the whole body, and may burst out in disease on any part of it. No organ is free from its attacks, nor is there one which it may not destroy. The scrofulous taint is variously caused by mercurial disease, low living, disordered or unhealthy food, impure air, filth and filthy habits, the depressing vices, and, above all, by the venereal infection. Whatever be its origin, it is hereditary in the constitution, descending "from parents to children unto the third and fourth generation;" indeed, it seems to be the rod of Him who says, "I will visit the iniquities of the fathers upon their children."

Its effects commence by deposition from the blood of corrupt or ulcerous matter, which, in the lungs, liver, and internal organs, is termed tubercles; in the glands, swellings; and on the surface, eruptions or sores. This foul corruption, which genders in the blood, depresses the energies of life, so that scrofulous constitutions not only suffer from scrofulous complaints, but they have far less power to withstand the attacks of other diseases; consequently vast numbers perish by disorders which, although not scrofulous in their nature, are still rendered fatal by this taint in the system. Most of the consumption which decimates the human family has its origin directly in this scrofulous contamination; and many destructive diseases of the liver, kidneys, brain, and indeed, of all the organs, arise from or are aggravated by the same cause.

One quarter of all our people are scrofulous; many persons are invaded by this lurking infection, and their health is undermined by it. To cleanse it from the system we must remove the blood by an alterative medicine, and invigorate it by healthy food and exercise. Such a medicine we supply in

AYER'S

Compound Extract of Sarsaparilla,

the best medical remedy which the medical skill of our times can devise for this everywhere prevailing and fatal malady. It is combined from the most active remedials that have been discovered for the expurgation of this foul disease from the blood, and the resence of the system from its destructive consequences. It is not only to be employed for the cure of that only Scrofula, but also those other affections which arise from it, such as ERUPTIVE and SKIN DISEASES, ST. ANTHONY'S FIRE, HOLES, or ERYSIPELAS, PIMPLES, PUSTULES, BLOTCHES, BLAINS and BOILS, TUMORS, TETTER and SALT RHEUM, SCALD HEAD, RINGWORM, ULCERATION, SYPHILITIC and MERCURIAL DISEASES, DROPSY, DYSPEPSIA, DEBILITY, and, indeed, ALL COMPLAINTS ARISING FROM VITIATED or IMPURE BLOOD. The popular belief in "*impurity of the blood*" is founded in truth, for scrofula is a degeneration of the blood. The particular purpose and virtue of this Sarsaparilla is to purify and regenerate this vital fluid, without which sound health is impossible in contaminated constitutions.

AYER'S

Ague Cure,

FOR THE SPEEDY CURE OF

Intermittent Fever, or Fever and Ague, Remittent Fever, Chill Fever, Dumb Ague, Periodical Headache, or Bilious Headache, and Bilious Fevers, induced by the miasmatic class of diseases, *originating* in Miliary derangement, caused by the Malaria of Miasmatic Countries.

We are enabled here to offer the community a remedy which, while it cures the above complaints with certainty, is still perfectly harmless to any constitution. Such a remedy is invaluable in districts where these afflicting disorders prevail. This "Cure" expels the miasmatic poison of FEVER AND AGUE from the system, and prevents the development of the disease, if taken on the first appearance of its premonitory symptoms. It is not only the best remedy ever yet discovered for this class of complaints, but also the cheapest. The large quantity we supply for a dollar brings it within the reach of every body; and in fever and ague districts, where FEVER AND AGUE prevails, every body should have it and use it freely both for cure and protection. A great superiority of this remedy over any other ever discovered for the speedy and certain cure of Intermittents is that it contains no Quinine or mineral, consequently it produces no deafness or other injurious effects whatever upon the constitution. Those cured by it are left as healthy as if they had never had the disease.

Fever and Ague is not alone the consequence of the miasmatic poison. A great variety of disorders arise from its irritation, among which are *Neuralgia, Rheumatism, Gout, Headache, Blindness, Toothache, Earache, Catarrh, Asthma, Palpitation, Painful Affection of the Spleen, Hysteria, Pain in the Bowels, Colic, Paralysis and Derangement of the Stomach,* all of which, when originating in this cause, put on the intermittent type, or become paroxysmal. This "Cure" expels the poison from the blood, and consequently cures both alike. It is an invaluable protection to those and persons travelling or temporarily sojourning in the malarious districts. If taken occasionally or daily while exposed to the infection, it will be excreted from the system, and cannot accumulate in sufficient quantity to ripen into disease. Hence it is even more valuable for protection than cure, and few will ever suffer from Intermittents if they avail themselves of the protection this remedy affords.
