THE MONEY MARKET.

MONDAY, Jan. 6—P. M.

The stock speculation, while in the main tame and quiet, at times showed considerable briskness, particularly in the afternoon, when quite a heavy raid was made upon certain of the leading shares. At the beginning the market was steady, and in the early trade ruled alternately steady and heavy. By midday, however, a pretty fair buying movement began, and prices at the 1 o'clock Board were moving along briskly toward a higher range, New-York Central reaching 100¼, Erie 64, and Lake Shore 97. As money, however, began to decline to fair rates, singularly enough stocks suddenly weakened, a heavy run on Rock Island, which carried down the price from 111 to 109½, causing quite a fluttering in some of the other shares, and before the flurry had ceased Erie was back to 63¾, Lake Shore to 96¾, and Pacific Mail to 72½. Western Union Telegraph was disposed to weakness at the start, and sold down to 79½, under the theory that the severity of yesterday's storm had caused much damage to the wires of the Company that a heavy expense in the way of repairs would of necessity be involved. The Company appreciating the necessity of supporting the stock in its hour of trial, bolstered up the stock by judicious purchases, compelling an advance from 80¼, but when the general decline set in the price went off again to 79½. Erie reached 64, from 62¾, in consonance with a rise in London, and fairly maintained its firmness. Pacific Mail was quiet at 73@73¼@72½. B., H. & Erie advanced a full point to 7½, but the other speculative fancies contented themselves by revolving within the variations of ¼ to ¾ per cent. The operators who are waiting for the general public to come in and buy their wares and commodities in time to reap the advantages and profits accruing, are getting a little disgusted at the holding off of the unreasonable fellows composing the dear public, and are beginning to tire of their position. If monetary ease and low (?) prices will not encourage buyers, we suppose the owners of stocks must peddle them off as best they may. The market to-day has been without any fresh gossip. The general market closed a little steadier than was reasonably anticipated after so sharp a break-down. The opening, highest, lowest, and closing prices of stocks were as follows:

	Open'g.	Highest.	Lowest.	Closing.
N. Y. Central & Hudson	99½	100¼	99½	99½

London and the Continent send favorable reports to-day, though dispatches were delayed by the storm. Money abroad rules easy and American securities are taking firmer positions. Gold was quiet and steady at Saturday's stereotyped quotations of 111¼ and 111¾, the sales being of the most restricted nature. The rates paid for carrying were 3, 3½, 5, 6, 7, and finally 4 per cent. The Assistant Treasury paid out $40,300 in called bonds, and $575,000 in coin interest. The day's business at the Gold Exchange Bank was as follows: Gold cleared, $31,326,000; gold balances, $1,907,925; currency balances, $2,143,851.

The day's business at the U. S. Sub-Treasury covered:

Gold receipts	$1,663,659 00	Currency payments	$721,416 28
Gold payments	552,931 76	Currency balances	21,319,535 25
Gold balance	30,976,951 76	Customs	369,600 00
Currency receipts	702,100 37		

The following were the quotations:

11:00	111¼	12:30	111¼	2:00	111¼
		4:00	111¼		

Exchange was firm under a light demand, which may be accounted for in part by the fact that no new negotiations of bonds are in process abroad. Commercial bills are scarce. We annex rates:

The money market has been perceptibly easier, and call loans have been done at 7 coin as a rule, though the afternoon rate was 7 in currency. At one time this morning, exceptionally, a thirty-second and interest was paid, but we are not likely to experience any such severe weather in a monetary point, if only the Treasury can be induced to withdraw its patronage from the market, and allow it to take its own course. The yielding in call loans has induced a better demand for commercial paper, though the sales to-day were not important. We now quote prime grades at 9 to 12 per cent.

Government bonds were strong, and dealings especially in coupon and registered sixes of 1881 were on quite a brisk scale. The new 6's were also in good inquiry, 1867s selling up to 114. The general market closed strong. Fisk & Hatch report as follows at 4 p. m.:
