The Luxury of Cold Water.

The plague of winter is cold, and the plague summer is heat, but we can do a great deal to lessen the miseries of both seasons. Now that are approaching the dog-days, it may be well to point out that by means of a liberal use of water one may pass through the summer furnace without suffering any serious discomfort. Water is good for other things besides the allaying of thirst. It has a permanent determination to evaporate, and as it cannot evaporate without heat, it consequently diminishes in the process the heat of our rooms. Pans of water, the cooler the better, stationed about a bedroom will positively reduce not only the sensation of heat, but the heat itself. Should any one doubt this, let him have a tub, with its shallow depth and wide surface, filled with spring water, or water with a block of ice in it, and place in the bedroom, and mark in half an hour how many degrees the thermometer has fallen. It ought to be six degrees, at least, and this improvement in the temparture will last for hours. If the heat still remains too great, throw up the bedroom windows, fasten a blanket or traveling rug across the space, and drench that well with water. In five minutes the air in the room will be reduced to that water's temperture. Never mind the breeze.

FORTY YEARS BEFORE THE PUBLIC.

DR. C. McLANE'S CELEBRATED LIVER PILLS,

FOR THE CURE OF

Hepatitis or Liver Complaint,

DYSPEPSIA AND SICK HEADACHE.

Symptoms of a Diseased Liver.

PAIN in the right side, under the edge of the ribs, increases on pressure; sometimes the pain is in the leftside; the patient is rarely able to lie on the left side; sometimes the pain is felt under the shoulder-blade, and it frequently extends to the top of the shoulder, and is sometimes mistaken for a rheumatism in the arm. The stomach is affected with loss of appetite and sickness; the bowels in general are costive, sometimes alternative with lax; the head is troubled with pain, accompanied with a dull, heavy sensation in the back part. There is generally a considerable loss of memory, accompanied with a painful sensation of having left undone something which ought to have been done. A slight, dry cough is sometimes an attendant. The patient complains of weariness and debility; he is easily startled, his feet are cold or burning, and he complains of a prickly sensation of the skin; his spirits are low; and although he is satisfied that exercise would be beneficial to him, yet he can scarcely summon up fortitude enough to try it. In fact, he distrusts every remedy. Several of the above symptoms attend the disease, but cases have occurred where few of them existed, yet examination of the body, after death, has shown the LIVER to have been extensively deranged.

AGUE AND FEVER.

DR. C. McLANE'S LIVER PILLS, IN CASES OF AGUE AND FEVER, when taken with Quinine, are productive of the most happy results. No better cathartic can be used, preparatory to, or after taking Quinine. We would advise all who are afflicted with this disease to give them A FAIR TRIAL.

For all Bilious derangements, and as a simple purgative, they are unequaled.

BEWARE OF IMITATIONS.

The genuine DR. C. McLANE'S LIVER PILLS are never sugar coated.

Every box has a red wax seal on the lid, with the impression DR. McLANE'S LIVER PILLS.

The genuine McLANE'S LIVER PILLS bear the signatures of C. McLANE and FLEMING BROS. on the wrappers.

TUTT'S PILLS

An distinguished physician of New York

Is recommending here universally Dr. Tutt's Pills. In my daily rounds, I meet them not only among the poor, but among those who have been cured from the misuse of his ability and refined. Knowing the inventor from his long connection in the medical profession, I have great confidence in their merits, and of late have strongly recommended them with the hopeful results in cases where I desired to make a decided impression on the liver.

Dr. Tutt has been engaged in the practice of medicine forty years, and for a short time was demonstrator of anatomy in the Medical College of Georgia, hence, persons using the Pills have the guarantee that they are prepared on scientific principles, and are free from all quackery.

He has succeeded in combining in them the purgative or antagonistic qualities of a strengthening, invigorating, and yet efficient alterative.

Their beneficial effects are felt by causing the food to properly assimilate. Thus the system is nourished, strengthened, and healthy sanguification produced.

DR. As the Great Preventative

In all cases of blood poisoning whether arising from material or miasmatic exhalations, defective sewerage, or any other causes.

Its constant use prevents the contracting of contagious diseases; typhoid, scarlet and all malarial fevers. It is invaluable, and should be used in districts where fever and ague prevail, as it is the greatest known preventative to that disease. It is of immense value in the cure of all skin diseases; a trial proves it, and it also prevents contracting them. It is a special boon to school children who are constantly exposed. It is the most healthful bath soap for infants, worth its weight in gold in the nursery. It is no more expensive than other toilet soaps of good quality. It goes further and its great superiority is bringing it into universal use. It has no disagreeable odor and is absolutely pure.

Extensively used in hospitals and sick rooms by order of physicians.
