ADDRESS OF THE LOUISIANA COMMITTEE TO THE PEOPLE OF THE UNITED STATES.

They Positively Deny Being in the Interest of any Faction.

And Declare the Pinchback Representatives to be Bogus.

WASHINGTON, Dec. 23.—The Louisiana committee have issued an address to the people of the United States, who they believe are not unconcerned spectators of the events now transpiring within the limits of that State, and of which it is probable no parallel can be found in history. The committee repel as utterly false the insinuation that they are mere allies and agents of Gov. Warmoth. They are not representatives of any personal or party interest whatever. So far as Warmoth's past conduct is concerned, few if any of them have not been among his most pronounced opponents, while in those measures for which he has been most loudly denounced, he had for advisers, associates, and coadjutors the very men who now assail him, including especially Pinchback, Antoine, and others, whose names figure most conspicuously in these proceedings.

The committee declare in reply to another insinuation that they are no parties to and have no knowledge of any politicians trickery intended to defeat the true will of the people; that they do not believe any such existed, and that they would not be here unless they could proclaim conscientiously their conviction that the men who have been foisted into the offices of the State have been not only irregularly and unlawfully installed, but were not elected by the people, and were not and are not the choice of a majority of the voting population of Louisiana. The committee add that all they have asked of the Government is to make a candid and impartial investigation of the facts, and then proceed to give a detailed statement of all the facts connected with the election, including the various injunctions by the courts, and the organization of the partial Legislature which impeached Gov. Warmoth and placed Pinchback in his stead. Steps having been taken, say the committee, by Gov. Warmoth to secure a reversion by the Supreme Court of the United States of the chancery orders of the United States Circuit Court, this body forthwith adopted resolutions to dismiss these proceedings. Militia was placed under the command of Gen. Longstreet and the arsenals taken possession of by aid of the United States army. A civil revolution was accomplished within a month under the orders of a chancery court in suits over which the court had no jurisdiction at all. The Circuit Court of the United States is a court of limited jurisdiction, and without any authority to enter into civil suits between citizens of the same State unless the case arises directly under the Constitution and laws of the United States, and the jurisdiction is vested by act of Congress. Congress has no power to confer jurisdiction in any other case between such citizens. It has no authority to give jurisdiction of a suit of a citizen of the State under the act of Congress of 1870. Upon a single condition of facts a citizen of a State may maintain a suit for an office of a State within the courts of the United States, but the State Legislature is specially excepted from the operation of this act in the same clause that excepts members of Congress and Presidential Electors. The organization of the Legislature is by chancery order. Had there been resistance to the execution of their orders, and riot and bloodshed has followed, upon whom would have fallen the responsibility? By whose forbearance was it that a bloody catastrophe has not been exhibited as a scandal to the land? It sometimes happens that the executive department is liberated, excused, or justified in acts of administration which exceed their legal power. The arguments derived from the terms of State necessity, public welfare, or convenience have here a soothing influence, but judiciary action is not entitled to any benefit from such arrangements. The damage which ensues from the employment of the judiciary power to accomplish other than judicial acts of administration cannot be calculated, and it is impossible to justify a court in determining that to be legal which is merely desirable, or that to be right which is only profitable. The order in the Kellogg case was *ex parte*. It was placed in the hands of the marshal without notice to the parties. It proceeds for an alleged contempt, by no legal procedure usual in matters of the sort and we are not aware of any imminence or danger to the public peace which justifies the seizure of the State Capitol in a chancery cause in a suit between Kellogg and a canvassing board—a suit professedly brought to perpetuate testimony. The case of Auterne displays with more distinctness than that of Kellogg the use that has been made of judicial orders to accomplish results of which the judiciary had no cognizance. Autern was a candidate for lieutenant governer, and was entitled to his office in January next, had he been elected. With a disputed title, a month in advance he filed this bill, and obtained the order we have cited, placing under interdict the governor, secretary of state, the members elect of both branches of the general assembly, all the board and officers and men of the police, the members of the two canvassing boards, and upon this *ex parte* order the organization of the general assembly at a time when he had no share in any outselling was regulated and directed. Since the meeting in New Orleans, under which the committee was appointed, we have been met with a suggestion that these orders and acts are facts accomplished, and that their revocation or recession would not restore the status quo, and that our complaints, therefore, are unreasonable. If the opinion we have be correct, such a condition ought not to affect our action or conduct. When the King of Great Britain established arbitrarily a government in one of the colonies, the remaining colonies took alarm lest it might serve as a precedent as well as an instrument to establish such government elsewhere. Besides, men are less patient under wrongful orders and acts of a judiciary tribunal than even of violence from other sources of authority. A government which rests for its organization upon a legal judicial order, executed by a marshal with companies of soldiers, does not command as much respect or authority as the judicial appendages had been disposed with and the army had set up a government with a strong and usurping hand.

The committee take liberty to say that they have had no connection with these suits as parties or attorneys. Neither do they claim any of the offices in dispute. They have not heretofore been confined in controversies among the political classes which have endangered the peace of, and brought scandal upon the State. They affirm that during the last six years there has not been a good government in Louisiana. There has been extravagance, prodigality, dishonesty, and waste in the public expenditures. The public debt has been enormously increased, with but little corresponding benefit. The credit of the State has been given to speculating corporations for personal aims; the taxes on property have assumed such proportions that they might be called rents paid by proprietors to the State for its occupation and use; the taxes upon business oppresses the commercial and laboring classes; the laws to control elections, corporations and public institutions stimulate these excesses of officeholders, and the consequence is depression and discontent. The state needs an honest, faithful and responsible government, constituted to attain public objects, and not to enrich its members or to perpetuate their power. There was an earnest effort to obtain such a government at the last election.

We affirm without fear of contradiction that the foregoing statement exhibits on the part of the United States court the most unparalleled and baseless usurpation of jurisdiction and authority of which the annals of jurisprudence afford an example. The action of the returning board, recognized and vested with all its power by this court, has been equally unprecedented. Without any official returns before them; without any of the official data on which alone their action could have been rightfully based, they have presumed to proclaim the results of the elections. The declaration by them of the votes cast in the different parishes is as purely fanciful as if no election whatever had been held. They have arbitrarily reduced and increased the votes on one side or the other in different parishes to suit their purposes. In several parishes while returning or even adding to votes cast for their candidates, they have simply annihilated or stricken out entirely the votes cast for their opponents. They have not pretended to furnish the public with any statement or the basis on which they proceeded or the theory on which acted. Their whole conduct is without any kind of reasonable explanation. We submit to the people of the United States that such proceedings reach a point at which the whole theory of popular government is reversed and overthrown. The means by which such results have been reached are enough to startle the public mind, but the results themselves are not less appalling. Aside from the general affairs of the State, we find the legislature of the State delivered over into the hands of men who were not elected, and who are utterly unfit for positions of such responsibility. As originally composed at its organization, it comprised 65 persons of color, most of them totally uneducated, with a very small minority of whites. Since that time they have expelled members whose seats were uncontested; they have unseated members returned elected by their own board, and seated their defeated opponents on the simple ground that the former had not appeared to claim their seats. The result is that originally bad as the legislature was, it makes itself worse day by day, and the prospect is that soon the conservative element of the State will have no representation whatever. To those who flatter themselves with the hope that Mr. Kellogg would not willingly abet any scheme of outrageous government, it is now apparent that even supposing this to be true, the power of restraining has passed entirely beyond his control, and that should he attempt to thwart the schemes of this legislature, his own impeachment would be a probable event of the future.

In conclusion we would state that we have attempted to perform the duties of our mission in the purest non-partisan spirit; that we have not sought to furish capital to any political party, or to excite popular clamor in the interests of any faction. We have laid our case before the President and his Attorney General, and we willingly testify that we have been courteously received and patiently listened to. While they have refused the specific measures of relief for which we applied, they have given reasons for such refusal in no manner implying their indisposition to see justice done. They have referred us to Congress, and we feel assured that we shall have the immediate sanction of the President, so far as we invite an impartial investigation of the facts of our case, and that we shall have his cooperation in any measures of relief which Congress may adopt after just investigation. The people of Louisiana, ignoring party, are conscious of an honorable effort to place in office men of tried probity. They seek justice, not gratuitously. They ask for a calm, impartial examination of the recent extraordinary events within their borders, and that there may be a speedy correction of the dangerous evils now threatening the very life of their State.

SPECIAL NOTICES.

"FOR WAYS THAT ARE DARK AND TRICKS THAT ARE VAIN," it is said that the "heathen Chinee" is peculiar. This is doubtless true. But these features are also apparent within the ranks of the American people. We would suggest to those unfortunate persons who have been in the "ways that are dark, or who have injudiciously practiced "tricks that are vain," that there is help for them. Dr. E. J. Reynolds, of Rochester, the great friend to erring humanity, is the person to furnish the proper and speedy relief and cure. The advertisement of Dr. Reynolds will be found in this paper, and from his great success in the branches of the profession to which he has devoted so many years of his life, he is very generally confided in.

Testimonial for Epilepsy!

BOWATTOR, Conn., Feb. 2 1872.

DR. O. PHELPS BROWN, No. 21 Grand St., Jersey City N. J.

Dear Sir:—My brother who is now in his 14th year, has been subject to Epilepsy or fits from childhood. The spasms would invariably occur during the night, and our local physicians here could do nothing to help him save prescribing Bromide or Potassium, which would afford only a temporary relief. He was gradually but surely becoming insane, and in this condition we procured your restorative skin oil, herbal ointment and pills, and used as directed, and but a short time elapsed before the spasms entirely ceased, his intellect grew brighter, and in short, was entirely restored to perfect health. You may use this testimonial as you may deem proper, as what I have said are facts.

Respectfully yours,

6dd&wly CHARLES RAYMOND.

SPECIAL NOTICES.

Schenck's Pulmonic Syrup

Sea Weed Tonic,

AND

Mandrake Pills

Will Cure

CONSUMPTION

Liver Complaint,

AND

DYSPEPSIA,

IF TAKEN ACCORDING TO DIRECTIONS.

They act all three to be taken at the same time. They cleanse the stomach, rouse the liver and put it to work; then the spongioles become good; the food digests and makes good blood; the patient begins to grow in flesh; the diseased matter ripens in the lungs, and the patient outgrows the disease and gets well. This is the only way to cure Consumption.

To these three medicines Dr. J. H. Schenck of Philadelphia, owes his unrivalled success in the treatment of Pulmonary Consumption. The Pulmonic Syrup ripens the morbid matter in the lungs, nature throws it off by an easy expectoration, for when the phlegm or matter is ripe a slight cough will throw it off, and the patient has rest, and the lungs begin to heal.

To do this, the Seaweed Tonic and Mandrake Pills must be freely used to cleanse the stomach and liver so that the Pulmonic Syrup and the food will make good blood.

Schenck's Mandrake Pills act upon the liver, removing all obstructions, relax the cords of the gall bladder, the bile starts freely, and the liver is soon relieved; the stools will show when the Pills can do nothing more. Some have been induced to take calomel in doses of from 10 to 20 grains, a dose sufficient to salivate a dozen men, and yet this calomel has been given to cleanse the liver, when the Mandrake Pills would have done the work more easily and without danger.

Liver Complaint is one of the most prominent causes of Consumption.

Schenck's Seaweed Tonic is a gentle stimulant and alterative, and the alkali in the Seaweed, which this preparation is made of, assists the stomach to throw out the gastric juice to dissolve the food with the Pulmonic Syrup, and it is made into good blood without fermentation or souring in the stomach.

The great reason why physicians do not cure Consumption is, they try to do too much; they give medicine to stop the cough, to stop the chills, to stop night sweats, hectic fever, and by so doing they derange the whole digestive powers, locking up the secretions, and eventually the patient sinks and dies.

Dr. Schenck in his treatment does not try to stop a cough, night sweats, chills or fever. Remove the cause and they will all stop of their own accord. No one can be cured of Consumption, Liver Complaint, Dyspepsia, Catarrh, Canker, Ulcerated Throat, unless the liver and stomach are made healthy.

If a person has Consumption, of course the lungs in some way are diseased, either tubercles, abscesses, bronchial irritations, pleura adhesion exist, or the lungs are a mass of inflamation and fast decaying. In such cases what must be done? It is not only the lungs that are wasting but it is the whole body. The stomach and liver have lost their power to make blood out of food. Now, the only chance is to take Dr. Schenck's three medicines, which will bring up a tone to the stomach, the patient will begin to want food, it will digest easily and make good blood; then the patient begins to gain in flesh, and as soon as the body begins to grow the lungs commence to heal up, and the patient gets healthy and well. This is the only way to cure Consumption.

When there is no lung disease, and only Liver Complaint and Dyspepsia, Schenck's Seaweed Tonic and Mandrake Pills are sufficient, without the Pulmonic Syrup. Take the Mandrake Pills freely in all bilious complaints, as they are perfectly harmless.

Dr. Schenck, who has enjoyed uninterrupted health for many years past, and now weighs 225 pounds, was wasted away to a mere skeleton, in the very last stage of Pulmonary Consumption, his physicians having pronounced his case hopeless, and abandoned him to his fate. He was cured by the aforesaid medicines, and since his recovery many thousands similarly afflicted have used his preparations with the same remarkable success. Full directions accompany each, making it not absolutely necessary to personally see Dr. Schenck, unless patients wish their lungs examined.

Dr. Schenck and his son, J. H. Schenck, Jr., M. D., are professionally at their store, Northeast corner of Sixth and Arch streets, Philadelphia, every Saturday. All advice given free of charge, but for a thorough examination by the Respirometer the price is $5. This instrument will detect the slightest movement of the respiratory organs; by it can be readily determined whether the disease is tubercular, bronchial, or only a sympathetic affection of the bronchial tubes, which is often mistaken for Pulmonary Consumption, but which is caused by a torpid liver.

CATARRH REMEDY.

Catarrh of 25 Years' Standing.

With droppings in throat almos to Choking, Headache, Pains in Lhoulders, Back and kidneys, and entire Breaking Down of the System, cured by Constitutional Catarrh Remedy.

To Messrs. LITTLEFIELD & HAYES, Proprietors of Constitutional Catarrh Remedy, Manchester, N. H.:

I reside at Manchester, N. H., and previously resided at Henniker, and am a native of Wears, this State. I have had Catarrh 25 years, ever since I was 19 years old; had it bad all the time. It run all that period, and nights it would fill up and drop down in my throat, causing a feeling of choking, so that I would spring up in bed to save myself from strangulation. It affected my head so that I felt confused, and was troubled with severe headache at intervals for a week at a time. I also had pains in the shoulders, back and kidneys, from which I suffered immensely. So bad were they, that a year ago last summer I was obliged to lie in bed most of the time for three months. I have tried all kinds of snuff and Catarrh remedies with no particular benefit, and consulted physicians. I began to take the Constitutional Catarrh Remedy last August. I began to grow better before finishing the first bottle. My catarrh is cured; my health is restored. I have no pains, aches or cough. My whole system is made over new. I know it is this medicine that has rescued me from intense suffering and almost the grave. I am now able to do the hardes work and bear the greatest exposure, and feel that I cannot say too much in favor of the Constitutional Catarrh Remedy.

MRS. E. J. FLANDERS.

Manchester, N. H., Feb. 1, 1871.

Why Have Catarrh?

I have had Catarrh for two years, and have had all troubles arising from it, such as dropping from the head, sore throat, etc. It troubled more in the morning than at any time, as it would be some half hour before I could breath freely. The dropping from my head has ceased, and in the morning I have no trouble about breathing, which is a great relief to me, and I feel as free from it as ever I did. I have taken two bottles. Yours respectfully,

MRS. H. J. TIRRELL.

It requires the aid of an intelligent physician to restore health and tone up the system, which circumstances forbid exist in every case.

For females, single or married, or single at the time of womanhood or at the turn of life, Henderson's Buchu has no equal in diseases peculiar to females, as in painful or suppressed menstruation, Chronic inflammation of the Uterus, falling of the Womb, Leucorrhœa or Whites, Sterility or Barrenness and all complaints incident to the sex, whether arising from constitution, habits of dissipation, or in the decline or change of life. ROSADALIS

THE GREAT SOUTHERN remedy for the cure of Scrofula, Scrofulous Taint, Rheumatism, White Swelling, Gout, Goitre, Consumption, Bronchitis, Nervous Debility and all diseases arising from an impure condition of the Blood.

The merits of this valuable preparation are so well known that a passing notice is but necessary to remind the readers of this journal of the necessity of always having a bottle of this medicine among their stock of family necessities.

Certificates can be presented from many leading Physicians, Ministers, and heads of families throughout the South, endorsing in the highest terms *The Fluid Extract of Rosadalis.*

Dr. R. Wilson Carr of Baltimore says "he has used it in cases of Scrofula and other diseases with much satisfaction.

Dr. T. C. Pugh of Baltimore, recommends it to all persons suffering with diseased Blood, saying it is superior to any preparation he has ever used.

Rev Dabney Hall of the Baltimore M. E. Conference South says he has been so much benefitted by its use that he cheerfully recommends it to all his friends and acquaintances.

Craven & Co., Druggists, at Gordonsville, Va., say it never has failed to give satisfaction.

Sam'l G. McFadden, Murfreesboro, Tennessee, says it cured him of rheumatism when all else failed.

Rosadalis is not a secret quack preparation; its ingredients are published on every package. Show it to your Physician and he will tell you it is composed of the strongest alteratives that exist, and is an excellent Blood Purifier. Did our space admit we could give you testimonials from every State in the South and from persons known to every man, woman and child either personally or by reputation.

Rosadalis is sold by all Druggists.
