

### GIVES \$1,000,000 TO WAR VICTIMS

#### Rockefeller Foundation Sets Aside Hugo Sum.

### FOOD FOR THE POPULATION

#### Neutral Commission to Be Organized and Fund Spent in Relieving Sufferers in Poland, Servia, Montenegro and Albania—Allies and Teutons to Aid.

The Rockefeller foundation has announced that it has appropriated \$1,000,000 for war relief work in Poland, Servia, Montenegro and Albania.

This gift is made, according to the announcement, as an effort to hasten an agreement between the allies and the central powers whereby adequate provision can be made for feeding the millions of noncombatants of the countries which it is intended that this donation shall aid.

In a statement which accompanies the announcement of the gift the Rockefeller foundation tells of its efforts to relieve the situation in Poland. After stating that its original scheme, whereby it agreed to guarantee the administration expenses of a neutral commission for the distribution of food-stuffs to the extent of \$120,000, fell through because of the impracticability of importing the food the foundation says:

A few months ago the German government invited one of the members of the war relief commission of the Rockefeller foundation, Frederic C. Walcott, to go to Poland with a representative of the commission for relief in Belgium in order that fresh and accurate information might be obtained as to conditions of destitution and that new measures of relief might be devised. The result of this trip was that a scheme was again drawn up containing certain arrangements and guarantees whereby food might be imported into Germany from abroad, transported to Poland and distributed among the civil population under the protection, supervision and active management of a neutral commission directed by Herbert C. Hoover.

Terms of Scheme. The terms of this scheme may be summarized as follows:

A neutral commission to be organized under the direction of Herbert C. Hoover, the head of the commission for relief in Belgium, and to carry on its operations according to the methods now obtaining in Belgium and northern France.

Germany to contribute \$2,000,000 marks a month for the purchase and importation of food supplies.

Suitable guarantees to be furnished regarding the inviolability of food supplies while in transit through Germany into Poland, where the distribution is to be made through the Polish local committees under the supervision of the American representatives.

Importation of food by the neutral commission to be confined to the provinces of Warsaw, Lodz, Schenarow, Vilna, Kovno, Biala and Estap (from 3,500,000 to 4,000,000 persons in and about these cities); Germany to provide a partial ration for these populations, as well as to supply the needs of all other parts of the occupied territory.

Railroad transportation from Danzig, the port of importation, to the German-Polish frontier, at half rate, and thence without charge to the points of destination in Poland.

Ocean transportation of supplies to be provided by German ships flying a neutral flag and manned and controlled by neutrals.

With this tentative agreement in his possession Mr. Walcott proceeded to London and made every effort, through the good offices of Ambassador Page and in co-operation with Mr. Hoover, to commend the plan to the favorable consideration of the British government and its allies. As a result of these efforts the British government delivered to the American ambassador on May 11 a memorandum setting forth the terms and conditions upon which the blockade of German ports would be relaxed to the extent of permitting imports of relief supplies through a German port.

This memorandum stated that the consent of the British government to the proposed scheme of relief would be given only upon certain additional conditions, among which the most significant were the following:

The system of relief in Poland to be applied to the occupied territory as a whole. Any surplus of local food products in southern Poland to be employed exclusively for the provisions of northern Poland.

The consularly in the occupied territory not to be permitted to requisition or purchase food imported by the commission.

No food supplies to be exported from Poland under the most stringent conditions, and above the needs of the entire occupied territory, as certified by the neutral commission.

The German and Austro-Hungarian governments to undertake as part of the present agreement to supply and care for the populations of Servia, Albania and Montenegro.

The next step to be taken was to ascertain whether the central powers would agree to the additional conditions imposed by Great Britain as a part of the allied governments, and a resolution in this and are now going on.

The appropriation of a million dollars by the Rockefeller foundation to conduct this campaign is one of the most important steps which have been taken for the relief of the population of the countries mentioned above.

The Rockefeller foundation has announced that it has appropriated \$1,000,000 for war relief work in Poland, Servia, Montenegro and Albania.

This gift is made, according to the announcement, as an effort to hasten an agreement between the allies and the central powers whereby adequate provision can be made for feeding the millions of noncombatants of the countries which it is intended that this donation shall aid.

In a statement which accompanies the announcement of the gift the Rockefeller foundation tells of its efforts to relieve the situation in Poland. Hoover.

### YOUNGEST ORDAINED PREACHER IS IN CITY

#### CHARLES R. TURNER IS ONLY EIGHT YEARS OF AGE

### TWO SERVICES

#### Will Be Held Today, First At Oakwood Baptist and Second Orr Mill Baptist

Many people of Anderson have often heard of the Rev. Charles Turner, the boy preacher, and have longed for an opportunity to hear him preach. This opportunity will come today when he preaches at Oakwood Baptist church at 11 o'clock a. m. and at Orr Mill Baptist church this evening at 7:45.

Charles is just eight years old, his birthday having come the 15th of last November, and he has the record of being the youngest ordained preacher in the world. It is said he has over 25,000 conversions to his credit and that he has preached to over 400,000 people. In addition to the services mentioned above, he will also preach at Orr Mill Methodist church next Wednesday night. While in the city

he and his father are stopping at 411 North Main street. The following is an account of his experiences as told by his father: "Seventy-five miles north of New Orleans, La. in an evangelist meeting I was conducting, I made a proposition for those that wanted to be prayed for to come to the altar, and Charles came forward and fifty others. He got up after a few minutes shouting and praising God. The next day he demanded Baptism and was baptized. The next day he came to me and said God had called him to preach, and I was requested by hundreds to let him try; and the next day he was given an appointment at 3 o'clock. He preached, "God is Love," and a great many were converted. He could not read a word up to this time. Now he preaches any doctrine in the Bible. He was ordained October 20th, 1914. He is a Baptist.

"Charles has just finished conducting meetings in six different churches in Augusta, Ga. where he had a large number of conversions. He will preach at all of the churches in the city before he leaves."

Mr. Turner and his father are stopping at 411 North Main street, and will be glad to receive callers.

### PLANNING EVENTS FOURTH AT PELZER

#### CUSTOM OF MANY YEARS HAS BEEN TO CELEBRATE THAT DAY

### MANY FEATURES

#### Which Will Include Motorcycle, Races, Horse and Stock Exhibit, Barbecue, Etc.

It is a custom long established that Pelzer could be depended upon to furnish attractions on the fourth of July. In fact this sentiment is so strong that people naturally connect Pelzer with the fourth. Many reasons may be assigned for this among which may be mentioned as the chief, the general good feeling prevailing here. The return year after year of the same friends, with new ones added each time, attest the fact of this congenial air dominating our vicinity. Here each one loves the other and all lend a willing and helpful hand in these entertainments which make for them easy accomplishments.

Nineteen hundred and sixteen holds no disappointment nor digression from this time honored custom unless it is the fact that they are making more extensive preparations for a successful fourth than ever before.

Interest and enthusiasm which passes our most sanguine expectations is already assured. The motor cyclists are anxious for this day to come and the owners of good horses have already planned to give an exhibition of their horsemanship which is always of the very highest class. The other contestants are just as enthusiastic. The boy scouts, the Smyth rifles and the Smyth concert band are making special arrangements for this entertainment and altogether we safely predict the most pleasant day you have ever spent here.

The interest of the inner man has not been allowed to go by unnoticed but has been amply provided for by arrangements on the fourth for a huge barbecue.

The mills will close at noon on the first day of July and resume work again on the morning of the fifth.

July 3rd holds no small entertainment for the pleasure seeker. At night at the Dixie theatre will be exhibited special features. The committee has the program about ready for the printer and it will appear the early part of next week full and complete. All may be assured of a good time on this occasion. Come. We will make the day pleasant.
