

THE INTELLIGENCER ESTABLISHED 1869

Published every morning except Monday by The Anderson Intelligencer at 140 West Whitner Street, Anderson, S. C.

SEMI-WEEKLY INTELLIGENCE Published Tuesdays and Fridays

L. M. GLENN, Editor and Manager.

Entered as second-class matter April 23, 1914, at the post office at Anderson, South Carolina, under the Act of March 3, 1879.

ASSOCIATED PRESS DISPATCHES Telephone... ..321

Subscription Rates Table with columns for One Year, Six Months, Three Months, One Month, One Week and Semi-Weekly rates.

The Intelligencer is delivered by carrier in the city. Look at the printed label on your paper. The date there shows when the subscription expires.

ADVERTISING Rates will be furnished on application. No advertising discontinued except on written order.

The Intelligencer will publish brief and rational letters on subjects of general interest when they are accompanied by the names and addresses of the authors and are not of a defamatory nature.

MONDAY, JUNE 19, 1916.

That Russian drive is developing into a gallop.

It's about time to take that snake down, don't you think?

That Russian drive isn't a drive, it's a tornado.

Very often "lack of inspiration" is mistaken for fear of perspiration.

Sometimes a martyr to rheumatism is most agile in tax dodging.

"Buttermilk" Fairbanks should keep cool on the Hughes "Ice Wagon."

It is not always the man with the most ginger who can gulp down the most ale.

Maybe they call it the "political pot" because you are likely to be blackened if you get into it.

When it comes to attempting to discredit the Wilson administration Hughes outwinked Carranza.

The state campaign broke upon us this week, and we are reminded that Egypt, too, was visited by plagues.

The Crown Prince, having set a day for taking Verdun, should cease fighting and wait until that day arrives.

The old-fashioned man who used to boast about the way he could carry his liquor is now unable to carry himself.

"Unfaded Americanism" will doubtless appeal to the devotees of undiluted beer, sugar bread and weakies.

With Hughes and Fairbanks in the race, there will be no need of the G. O. P. storage place in a cold storage plant.

In the first issue of this paper after the opening of the Press Association, Walter Ray wrote like a man with a hammer.

His anybody heard anything from that editor in the lower section of the state who tried to tell the first thing he saw?

What a miracle, and what a feat, that a man who has been in the state for so long should not know the name of the first thing he saw.

THE CALL TO ARMS

The long expected has come at last—the state militia of the nation have been ordered to mobilize for Mexican border duty. What the end will be, we dare not attempt to forecast, but whatever may come the people of the United States stand back of the President in the course he has taken.

CAPT. GOSSETT'S IDEA

Elsewhere in this Intelligencer this morning is printed a communication from Capt. B. B. Gossett suggesting a plan whereby our militia might be strengthened and by which the men who are already enlisted might be made more eager to respond to the call to arms.

THE BALANCE OF POWER

One of the elements of the present presidential campaign that has not been given the attention it merits is the feminine vote. Women suffrage has now become much more than an airy abstraction.

There is already in the field a "Woman's Party." What that party stands for has been made known plainly by its Chicago convention, held simultaneously with the Republican and Progressive conventions.

Whether that self-styled party can control as large a proportion of feminine votes as it professes, or whether there is going to be any real, coherent "feminine vote" at all, remains to be seen.

The surest thing about women in politics or elsewhere is that you never can tell. And so to the other engaging features of this spectacular campaign is added the problem of which may the suffrage act (meaning no disrespect) will pass.

Undertakers of Atlanta are buying quantities of space in the newspaper for the display advertising. No wonder Atlanta gets the name of a "graveyard town."

After sending several thousand dollars to Europe in the purchase of munitions, the United States is now buying a few million dollars worth of public time.

EMPLOYERS TO PROVIDE FAMILIES OF ENLISTED

CAPT. R. B. GOSSETT HAS ADVOCATED PLAN TO THIS EFFECT

ENCOURAGEMENT TO VOLUNTEERS

Will Work Hardships on Some to Have to Go and Assistance Would Relieve Situation.

Not more than one hour before news reached Anderson last night that the militia of all the states had been called by the President for Mexican border duty, Capt. B. B. Gossett sat down to his typewriter and addressed a communication to The Intelligencer in which he advocates a plan by which men who are members of the National Guard might be encouraged in reporting for duty in the event they are called out for service in Mexico.

Mr. Gossett's communication is most timely in view of the fact that the local militia have been ordered to the border along with the other militiamen of the United States.

June 18, 1916.

Editor Intelligencer: A call for the South Carolina National Guard for service in Mexico appears to be imminent.

The duty of every officer and enlisted man to respond promptly and cheerfully to such a call. I do not doubt but that they will do so. I certainly will not hesitate. But the fact that it will be a great hardship for some to go under existing conditions cannot be denied.

The members of St. John's Methodist church and many other people of the city were glad of the opportunity yesterday of hearing Dr. James F. Moffett of Due West who preached at both the morning and evening services.

Mr. Blanche T. Justice, foreman for Jamison & Morris of Greenville, who have the contract for the building of the C. & W. C. freight depot, is captain of the militia company in Spartanburg, known as the Hampton Guards.

Greenville June 17.—Farker Cotton Mill stock, which after the sale of the Hampton group of mills, collapsed greatly in price, is now at a standstill as a result of the suits brought to restrain the sale of this group of mills.

imum of ten men. The cost would not be great. The good accomplished would be large. I suggest that this plan be adopted not only by the cotton mills of the state, but by every business man of whatever nature employing young men.

B. B. Gossett, Captain-1st. S C Infantry.

LINE O' DOPE

"I have just returned from White Plains where I attended an all day singing," stated Sheriff Joe Ashley last night. "There were at least 2,500 or 3,000 people there and the most orderly crowd I have ever seen."

Fire yesterday afternoon about 2:30 completely destroyed the home of Jake Trayman, a negro, living just this side of the P. & N. railway track where it crosses North Main street.

Mr. E. J. Edge, secretary of Anderson college, and Mr. Jno. T. Miller, dean, have returned from a canvass for students made in the eastern counties of the state.

A number of the people of Anderson went out to Eureka church yesterday afternoon to attend a singing there. There was a splendid attendance and the singing was good.

"If the people keep on buying automobiles, it will seriously affect the country churches," stated a well known gentleman yesterday. "It is a fact that many people from the country are coming to Anderson in their automobiles to church every Sunday and this means that the rural churches are losing them."

Stack at a Standstill. Greenville June 17.—Farker Cotton Mill stock, which after the sale of the Hampton group of mills, collapsed greatly in price, is now at a standstill as a result of the suits brought to restrain the sale of this group of mills.

Greenville June 17.—Farker Cotton Mill stock, which after the sale of the Hampton group of mills, collapsed greatly in price, is now at a standstill as a result of the suits brought to restrain the sale of this group of mills.

A house of introductions

Late Saturday we opened a few suits of most attractive cool crashes. One is a good clear gray with a dash of green, the other is a color all its own—we can't name it but we know you'll like it.

They're \$8.50. And with this or any other good kind of summer suits you will want our Palm Beach Ox-fords. In such quality as ours nothing adds quite so much to your natural appearance as these cool, bright shoes.

There are all widths to give you a perfect fit. The price is \$3.50.

Special summer neckwear in silks and wash fabrics. For the tub test there's nothing to compare with our Imported Russian Cord. Unusual values indeed at 25c to 50c.

We're continually introducing the new things in men's and boys' clothes. After a season has started there's very apt to be a newer idea developed from experience with the popular designs.

Security and Service

In establishing banking connections, a business man looks primarily for two things, viz: Security and Service. This bank offers absolute security to its depositors and endeavors at all times to render prompt and polite service to its customers.

THE WAY TO BETTER LIGHT

Electrical News

NATIONAL MAZDA THE QUALITY LAMP

VOL. 11. ANDERSON, S. C., MONDAY, JUNE 19, 1916. NUMBER 23.

Electric Irons

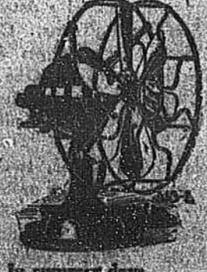

Having made an extra large purchase of these Irons we are in position to sell them at the lowest price ever named here for a really good Iron.

By using an ELECTRIC IRON, it will do away with the hot stove and changing of irons on a hot day.

KEEP COOL! This Summer

In summer days how flies do swarm! How tired you get when you are warm! The Electric Fan puts flies to flight. Makes you cooler day and night.

If you do it yourself it will be right

Standing over a hot fire is uncomfortable and inefficient.

Electric Boiling

There is no heat except where it is needed. The Electric Boiler enables you to do your own boiling.

Chafing Dishes

With An Alcohol Lamp you must fill the lamp, adjust the wick, strike a match, and be very careful not to spill alcohol on the table top.

With Electricity you insert the plug and turn the switch. When this is done you are served all your attention to the recipe.

At a very small expense we can serve your electric chafing dishes. There is about this.
