Attention is called to the advertisement of Controller Green, who asks for proposals for $3,821,000 consolidated stocks of the City and County of New-York. This stock bears interest at the rate of 7 per cent per annum, payable semi-annually, the principal maturing in December, 1896. This certainly ought to be regarded as a desirable investment. Proposals for the whole or any part of the amount will be received up to Tuesday, 27th inst., at 2 p. m. The coupons of the International and Great Northern Railroad maturing Feb. 1 will be paid on and after that date at the National City Bank, No. 52 Wall-st.

The Philadelphia stock market is dull; Pennsylvania 68, 107; Philadelphia and Erie Railroad, 22½; Reading Railroad, 56½; Pennsylvania Railroad, 48½; Gold, 111¼.

FLOUR AND MEAL—The Flour market for the past week has been a comparatively quiet one, the business largely confined to grades under $7. The receipts have been quite large, especially of Medium Spring Wheat Extras, under less favorable new freights, and in moderate home demand; buyers of the Medium Winter Wheat brands, and Medium and Choice Spring Wheat Extras have a decided advantage. All grades above $7 have been purchased at lower rates, and in Winter Wheat brands we have to note much irregularity in prices, this change and the tone and spirit of the market has been quite a disappointment to all parties, and is due chiefly to the character of the advices from Europe; this change in the London markets could seem to be unwarranted, as their imports for the past six weeks have been by no means large, and their stock on the 1st inst., it was well known, was moderate, and assuming that their actual wants have not been magnified this change could not have reasonably been expected. We have had a material increase in our stock of Medium Spring Wheat Extras, and have a better supply of Medium Winter Wheat brands; the former could only be sold by making a large concession. Fancy brands of Minnesota have been offered more freely, and, with a limited local demand, have declined, and close dull at our quotations. Choice Family Extras have ruled quiet, but in view of the light stock here and high prices of Wheat in the interior, most holders have declined to make concessions to sell freely. There has been a more active demand for Corn Meal and for Rye Flour, and prices have ruled firm. Buckwheat Flour is unsalable; State of Rye Flour, at $4 70@$5 40, and a fair business has been done in the low grades for the London market at $3 90@$3 97. Good No. 2 has been in active demand, and, with light offerings, has ruled very firm. Good Superfine has been in fair demand at the concession, and since Wednesday has ruled comparatively firm. Good lines of shipping State have been in fair request for export; being comparatively scarce, prices have been well sustained; of this description some 28,000 bbls. have been taken for export at $6 80@$7. The demand for the future has been very light, and there has been very little hesitation to press sales for forward delivery. The exports of the week are 69,463 bbls., against 31,427 bbls. for the corresponding week last year. To-day the inquiry for Flour is limited, more especially for the medium grades; these are lower to sell freely. Good No. 2 and Superfine not plenty and in steady demand. Shipping Extras quite firm and in request. At the close the market is strong and fairly active for the low grades; heavy and irregular for the medium and high grades. Sales of 21,500 bbls. including 7,000 bbls. Shipping Extras, chiefly City Brands, at $6 85@$7, and 1,000 bbls. Fancy Patent, to arrive, at $9 40@$9 60. We quote:

GRAIN—We left our Wheat market this day week quite dull, and easier under liberal offerings and reduced limits to shippers' orders. Since then the tone has been more noticeable,
