Ayer's *Hair Vigor,*

FOR RESTORING GRAY HAIR TO ITS NATURAL VITALITY AND COLOR.

It is a most agreeable dressing, which is at once harmless and effectual, for preserving the hair. It restores, with the gloss and freshness of youth, faded or gray, light, and red hair, to a rich brown, or deep black, as may be desired. By its use thin hair is thickened, and baldness often though not always cured. It checks falling of the hair immediately, and causes a new growth in all cases where the glands are not decayed; while to brashy, weak, or otherwise diseased hair, it imparts vitality and strength, and renders it pliable.

The Vigor cleanses the scalp, cures and prevents the formation of dandruff; and, by its cooling, stimulating, and soothing properties, it heals most if not all of the humors and diseases peculiar to the scalp, keeping it cool, clean, and soft, under which conditions diseases of the scalp and hair are impossible.

As a Dressing for Ladies' Hair

The Vigor is incomparable. It is colorless, contains neither oil nor dye, and will not soil white cambric. It imparts an agreeable and lasting perfume, and as an article for the toilet it is economical and unsurpassed in its excellence.

How Watch Cases are Made.

In buying a silver watch case great care should be taken to secure one that is solid silver throughout. The cap of most cheap silver cases is made of a composition known as albata, which is a very poor substitute for silver, as it turns black in a short time. The backs of such cases are made much thinner than those of an all silver case, being robbed in order to make the cap thicker and get in as much as possible of the cheap metal. Another important point in a silver case is the joints or hinges, which should be made of gold. Those of most cheap cases are made of silver, which is not a suitable metal for that purpose. In a brief period it warps, bends and spreads apart, allowing the backs to become loose upon the case and admitting the dust and dirt that accumulate in the pocket. The Keystone Silver Watch Cases are only made with silver caps and gold joints.

Dr. Lewis, Mo., Feb. 8, 1883.

In our long and varied experience in watches, we cannot but acknowledge and give our testimony that the Keystone Solid Silver Watch Cases are the best made to our knowledge. Having no soldering that can ever become loosened, harder and stiffer than they would be were they basted for soldering, and have much resisting power against pressure than any other case in the market. A CRY FOR HELP ANSWERED.

DR. HAINES' GOLDEN SPECIFIC,

A POSITIVE AND RADICAL CURE FOR

DRUNKENNESS.

To the Wives, Mothers, and Sisters of Drinking Men:—

It lies in your own hands to save the husband, son, or brother from the awful disease of drunkenness. The Golden Specific can be administered without the knowledge of the patient. *Its effects are so astonishing, so far-reaching in its influence, that the drunkard will not be detected either by taste or smell, and after a few days*

TAKING A DRINK OF LIQUOR IS A PHYSICAL IMPOSSIBILITY.

Drunkenness is a disease, not a weakness. Primarily the appetite for alcoholic drinks must be cultivated, but when the appetite is once formed, it is as much a disease as any other affliction for which medicine is administered. Every nerve, tissue and fibre of the body is a famished wolf with a malignant craving for the system and craving for alcohol. Pledges, temperance lectures, "dreadful warnings," prayers, resolutions—all are futile. *Not one man in a thousand can withstand the battle; not because he has not the desire, but because he is physically sick.* He could as easily abstain from eating food after a famine with a banquet at his hand, as to stop his hungry system in its awful craving for liquor.

THE SPECIFIC AND LIQUOR CAN NOT EXIST IN THE SYSTEM TOGETHER.

It would be sacrilege, were it not stilled, to watch the man to whom the Specific has been given without his knowledge. At first, out of habit, and not realizing that the good work has begun, he pours out his drink. He raises it *near his wondering lips.* The next attempt, he raises the liquor to his lips, gets the odor, the taste, the smell, and finally with the remark that "somehow, I am not whisky hungry." From this moment he is saved. No physical prostration, no "blue jaws," no lingering will appear—the man is no more a drunkard than the child who never knew the taste or flavor. *The Love of Liquor is Removed.*

WIVES, MOTHERS, SISTERS,

Can you afford to neglect this means of saving the husband, son, or brother? As certain as that you love and desire to save the erring one, so certain do we offer you the means to accomplish such a result. Instead of sitting despairingly at home, praying for the help that does not come, instead of putting on a sad face in the presence of friends, or retiring to your room to sob out your grief, why not do something to save the object of your affections from a drunkard's grave? Why not, when you can do so without the knowledge of the patient, place in his coffee or tea the Golden Specific, and be assured that you have done something that will in all probability be the means of saving your husband, son, or brother from a drunkard's grave? Why not, when you can do so without the knowledge of the patient, place in his coffee or tea the Golden Specific, and be assured that you have done something that will in all probability be the means of saving your husband, son, or brother from a drunkard's grave?
