Strained Rosin was in limited request and values somewhat uncertain; about 400 bbls., in lots, sold at $2 50, but for cargoes a concession of 10@15c. from this price would be necessary in order to sell; in the better grades sales were reported of 250 bbls. N. Y. WHOLESALE PRICES OF COUNTRY PRODUCE

FOR THE WEEK ENDING JUNE 16, 1874.

[REPRINTED FOR THE N. Y. TRIBUNE by our own Reporter.]

General Directions.

Send only good articles. The freight and other expenses eat up poor goods. Put everything in good order. An attractive look secures examination, and often makes a sale where a dirty package or a slovenly appearance fails. Pack securely, so that the molten will not allow the contents to change about. Use plenty of clean dry fine cut straw with eggs. Mark plainly with pencil—a stencil-plate is best—and note contents on the box or bbl., stating the amount, also. Send a letter at the same time stating what is sent, the route, time, &c. An invoice or list should also be inclosed in bbl. or box. Always state the number of packages. Secure for yourself a reputation for fine goods, put in best shape, so that your mark is in demand.

BEANS AND PEAS.

Receipts of beans for the week, 999 bbls.; do. last week, 1,393 bbls.; same week last year, 552 bbls. Exports of beans, 420 bbls. Exports of peas, 19,800 bush. There has been a fair jobbing trade, but the receipts are very heavy for the season, and prices for mediums are weaker. There is a fair export demand for marrows, but the extreme rate cannot be realized for parcels at the stations. On the other hand, some prime hard parcels are held above our quotations. We note sales of 100 bbls. for Cuba at $2 70, free on board. Kidneys of all kinds are scarce and firm; a few fancy red may be quoted at $3 25. Canadian peas have a good movement at improved prices. Green peas firm and not plenty. We quote:

BUTTER.

Receipts for the week, 26,256 pkgs.; do. last week, 22,108; do. same week last year, 21,663 do. Exports past week, 560 firkins. There has been a very quiet market for butter, and the tendency of to-day promises no early improvement in the demand. The supply of State is not excessive, and dealers can conveniently handle about all that comes in good order. Of Western there is a heavy supply, and the accumulation is of low quality stock, that will be apt to strike a lower figure before it can be worked off. A good feature of the past week and the present demand is the export inquiry. In addition to what has been taken, about 800 pkgs. more will go to foreign shippers. The stock they want and get is of good straight color, showing body at quotations of 18@20c. In most cases these are very favorable figures for buyers, but it is a grade that is neglected now by the local trade, and holders are fortunate to have an outlet even at the cheap sounding prices. The market trade is taking all of the fine dairy packed Western reserve at better figures than general quotations. For that class and some equally good Northern Illinois, 23@24c. was quoted to us several times to-day. Very good small lines, sound enough to rate good, are obtainable at 19@20c. Firkins of all sections are slow. Western factory packed is running poor and rarely brings 22c. It seems that about just enough poor is carelessly mixed with late shipments to spoil good useful table stock. State Welsh is in good demand at the moderated rates. Pails are still quoted at 30c. They are chiefly from near points; the price is too low for some interior creameries to ship. We quote:

Orange Co. pails, prime	30@ —	State firkins	20@30
River pails, do.	28@30	State Welsh tubs, prime	27@28

CHEESE.

Receipts for the week, 65,754 boxes: do. last week, 42,153 do.; same week last year, 56,283 do. Exports past week, 52,005 boxes; do. last week, 34,208 boxes; same week last year, 48,745 do. Gold closes at 111¼. Liverpool Cable, 71s.; London Cable, 72s. The market is as unpleasant, but dealers are free sellers at the prices. Present quotations can be hardly expected to stand in the face of the crop to come forward. To-day and for the past few days the buying has been active, in order to avail of all the room on Wednesday's steamer. Saturday's boat will be higher and dealers look for a sudden marking down after the departure of the low-priced vessel. We hear fewer complaints about the condition of stock this week. The receipts include large parcels of Western, for which shippers have paid 11½@12½c.; sales in lots, 750 boxes; Fancy Ohio sells in a small way at 13½c.; for State Factory, at the close, 14½c. is an extreme rate; large sales have been made at 14¼@14½c., the latter for elegant lots; we note sales of 1,300 boxes to-day at that range; at Little Falls the market was fairly active at 14@14½c. for Factory, and 12@14c. for Dairy made; sales, 5,000 boxes. At Utica, with sales of 4,000 boxes, 13@14½c. was made, or 13@14½c. with one or two Factories at 15c. We quote:

DRIED FRUITS.

Receipts for the week, 277 packages; do. last week, none; same week last year, 683 packages. Apples are extremely dull, and further arrivals of both Californian and returned stock from Germany help to depress the market. Quotations at the moment are unsettled, and even with the reduced figures there are sellers at the inside rates. The recent lots of Californian arrived in half barrels, which are not desirable packages for New-York trade. Cheap berries materially check the local trade for dried fruit of any kind. Prime peeled peaches are out of market, and the highest quotations are nominal. New Wilmington peaunts are quoted at $2 50 ℔ bush.; a few extra, $2 75. We quote:

EGGS.

Receipts for the week, 12,593 bbls.; do. last week, 12,352 do.; same week last year, 13,879. The market is low, and sales are generally at loss off. Canadian stock is showing better quality than Western, and are about the only sort in stock that is firm. Prices may be called steadier at the close. FRUITS.

Strawberries have arrived irregularly since the glut alluded to last week. To-day we have an overstock of different quality. Dealers are crowded with fine New-Jersey and Staten Island stock, and were unable to unload the surplus even at the cheap closing quotations. Old market men say they never knew fancy near point berries to sell as low as they are offered this afternoon. Fortunately some of the stock will hold up for to-morrow, but low prices will be the ruling one. Near the S. I. cherries have brought 15@20c.
