WOOL—The market moderately active and prices are firmly maintained; the supply of Western Fleeces is being fast reduced; there are a large number of manufacturers in the market, and we look for an active trade; California Wools are moving freely, and prices are a trifle off. Foreign Wools are arriving more freely, but there is no excessive supply of any one kind. Carpet Wools are dull, and without any change in prices. The visible stands from foreign countries, to arrive, is as follows:

From the Cape of Good Hope—The Trio had sailed with 821 bales of wool and 216 bales of sheepskins. The J. A. Brown was loading and would bring about 1,350 bales to Boston, 650 bales of which is for Canadian account. There was also loading at date of last information at Port Elizabeth, the George F. Von Vlieck for Montreal, 283 tons; the Weser for New-York, there to await orders, 217 tons; and at Cape Town there were loading the Adolph and Laura, 179 tons, which would bring mostly skins, and the Juno and Stella, which had just been laid on, the former for Boston and the latter for Montreal. Information of what is to arrive from Buenos Ayres and Montevideo is not so definite, probably not more than 1,000 bales fine wool, as it is out of the season. A part of the purchase of about 1,000 bales English Combing Wool, (to take the place of Canadian) bought in England, is included in our statement of wools to arrive; considerable of it, however, is yet to come forward. We are advised by cable and letters that there have been some small purchases made at the London sales for Colonial Wool of New-Zealand for the United States. The quantity so far bought is not large, and is not likely to be without further stimulus from the market here. In Carpet Wool there had lately been sold at London for the United States, as follows: Russian, 5 bales, at 10½d.; P. P., 9 bales, at 10½d., and J. R. R., 100 bales White Russian, at 10d.; 250 bales White, at 9½d., f. o. b. at Taganrog; also C. F., 176 bales Crimean Fleece, at 8d.; 100 bales Taganrog at 10½d., for the United States, and 400 bales, at 9½d. ℔ lb; also 250 bales, at 11½d.; S. & Co., 250 bales, at 10½d.

RICE—There continued a small jobbing trade only, and prices remain about the same; sales of 35 casks Carolina and 200 bags Rangoon within our range quoted below; we quote Carolina at 7@7¼c. for Fair; 7½@7⅝c. for Good; 7¾c. for Prime; Rangoon at 6@6¼c., currency, and Patna at 7@7¼c.

STEARIN is more active and steady; sales of 15,000 lb at 16½c.

N. Y. WHOLESALE PRICES OF COUNTRY PRODUCE

FOR THE WEEK ENDING SEPT. 15, 1874.

[EXPRESSLY FOR THE N. Y. TRIBUNE by our own Reporter.]

General Directions.

Send only good articles. The freight and other expenses eat up poor goods. Put everything in good order. An attractive look secures examination, and often makes a sale where a dirty package or a slovenly appearance fails. Pack securely, so that the motion will not allow the contents to change about. Use plenty of clean dry fine cut straw with eggs. Mark plainly with paint—a stencil-plate is best—and note contents on the box or bbl., stating the amount, and send a letter at the same time stating what is sent, the route, time, &c. An invoice or list should also be inclosed in bbl. or box. Always state the number of packages. Secure for yourself a reputation for fine goods, put in best shape, so that your mark is in demand.

BEANS AND PEAS.

Receipts of beans for the week, 272 bbls.; do. last week, 413 bbls.; same week last year, 127 bbls. Exports of beans, 190 bbls. Exports of peas, 1,036 bush. Receipts of peas, 1,550 bush. The demand for beans has been very limited, either for home use or export. For old mediums $1 90 is now an extreme figure, and $2 50 is quoted for the best marrows in lots that remain. There has been a small Southern demand for mediums, but it was filled by a few sellers. New beans are quotable in a small way at $2 00@$2 10 for mediums. Red Kidney are on the way, and in view of a liberal early offering prices are marked lower. There is promise of a good crop of Red Kidneys this year. For foreign or two years past the supply has not filled the increased wants of trade. Canadian Peas can hardly be said to be in stock, and quotations are nominal. Green peas are in good supply and lower. Quotations:

BUTTER.

Receipts for the week, 21,187 pkgs.; do. last week, 23,431; do. same week last year, 20,787. Exports past week, 210 firkins. Butter has ruled firm throughout the week, and at the close sellers show a advance on all grades that is strongly supported. The local demand has increased very perceptibly of late, and the moderate receipts and scarcity of strictly fine table quality gives the impression that that class of stock may continue to advance. The dry spell has held on alarmingly late, and the discouraging reports of drouth in this State and the West have produced considerable speculative feeling. Some northern sections intimate that Fall feed is now hopeless, the chances being that the rain when it does come will be attended with such chilly weather that the badly-parched grass will not be revived to any serviceable extent. Shippers have done but little in buying latterly, in fact there have been few lots that are within their reach. The poorest Western offering will now bring 25c. The interior State market is strong; farmers seem to have about as much confidence as operators and release but few lots, though 35c. is freely offered for Summer packing, and 40c. for the Fall make. CHEESE.

Receipts for the week, 58,287 boxes; do. last week, 76,667 do.; same week last year, 65,785 do. Exports past week, 40,053 boxes; do. last week, 65,900 boxes; same week last year, 47,778 do. Gold closes at 109⅝. Cable quotations, 64s. The market has shown very little activity, and though the receipts are moderate considerable stock is left over unsold. Shippers seem determined to let either the merchant or producer carry the stock for a time, and the latter is already doing his share with confidence. Prices show no material change compared with last week; there is rather more local trade and in this way 14¼c. is often quoted for fancy factory. Western cheese is scarce. A few lots of extra Ohio have fetched 13½c. At Little Falls the market was quiet and the most sellers would not give away from their late firmness; sales 5,000 boxes at 13½@13¾c. for fair to fine factory, and 12c. for fair dairies. At Utica trade was rather unsettled; only about one-half of the offering was sold, the market closing dull; sales 4,000 boxes at 13½@13¾c. for fair factory, and 13¾@14c. for fine to fancy. Quotations:

DRIED FRUITS.

Receipts for the week, 900 pkgs.; do. last week, 810; do. same week last year, 815. Apples are generally lower; a few fancy sliced are arriving and bring quotations. Small fruits are firmer. Peeled peaches are firm; unpeeled are nominal. Peanuts are scarce and higher for prime sorts of domestic growth. Quotations:

EGGS.

Receipts for the week, 6,762 bbls.; do. last week, 6,944 do.; same week last year, 6,632 bbls. There is a decidedly better movement in eggs. The advance of to-day was readily paid, and the market closes with a strong upward tendency. Western are running in quality about as well as State. Quotations:

FRESH FRUITS.

Apples are again in overstock, and it is difficult to sell a large portion of the open barrel common stock, now that choice reliable Western are coming. Prime Detroit Red bring $2 25. This time prices will send a good many apples to the cider mill. Pears are in good demand; Bartlets were sold up at full prices; Seckles do not meet with favor yet, and the best are slow of sale at the low figures; Flemish Beauty are very poor in quality and rarely sell above cooking varieties. Grapes are uncommonly cheap for either up-river or State; Southern markets quote at Peaches have had a brisk trade lately, the demand having the usual Fall addition of family buying for preserving. Delawares are nearly run out. New arrivals are still sending freely. Watermelons are about all here. Muskmelons are poor, being mainly the clearing up of patches. Cranberries are offering quite freely, too much so for this part of the year. Somejnovement is made in crates for Western use, but beyond that there is no demand; for barrels there is no settled quotation. A few have sold at $7@$8. For crates, $2 for the best that have been offered. Quoted. Occasionally a fancy small lot can be selected to sell at $3. It is reported that there will be an ample crop of cranberries this year, but if the trade takes hold of them as largely and regularly as it did last season, there will be plenty of room for the surplus. Plums are scarce and show the sudden advance that is apt to attend closing sales. Quotations:

HOPS.

Receipts for the week, 253 bales; do. last week, 259 bales. The market is firm at quotations, with a good cash business at the figures. The arrivals are about all absorbed, but in view of free deliveries dealers have shaded the extreme rate quoted last week; the choicest new now selling at 45c. The crop will have been about all gathered by the close of this week; the quality is thought to be finer than for many years. There has been an active speculative demand in the interior, buyers paying 40c., taking about 3,000 bales. We quote:

	Cents per Pound.

American crop, 1873	15 to 30
American crop, 1872	12 to 15

MEATS.

Prime veal calves continue active. There are few common calves arriving. Choice Bucks County and Mount Holly quoted at 9½@10c., which is higher. State range at 8½@9c.; a few fancy exceeding 9c. a shade. Lambs are about steady at 7@7½c. There is a scarcity of packed provisions, and the export business is light. Exports past week, 2,836 boxes bacon, 370 pkgs. beef, 50 tcs. lard.

MILK.

The average daily receipts for the week at the various points of distribution were as follows: By Erie Railway, 3,875 cans milk; Harlem Railroad, 2,540 do.; New-Haven Railroad, 1,000 do.; Hudson River Railroad, 810 do.; miscellaneous near-by routes, 2,200 do.; Midland Railroad, 950 do. and 25 cans cream; Erie Railway, 125 do. At the Harlem Railroad platforms the daily average prices were as follows: Sept. 8, $2; Sept. 9, $2 25; Sept. 10, $2 75; Sept. 11, $3; Sept. 12, $3 75; Sept. 13, $3 50; Sept. 14, $3; average per can of 40 quarts, $2 82; do. last week, $1 78½c. Shortened pasturage decreases the yield of milk, and as the demand is larger owing to the return of many families that have been rusticating, the week's supply has been worked off at a material advance compared with last week or many previous ones.

POULTRY AND GAME.

The market is better for near-point live fowls, chickens, and turkeys. Late shipments of Western are in very poor order; some coops are so low in quality that sellers will not take them at any price. Ducks and geese are strong at the lately advanced prices. Quotations:

The supply of game is moderate and the trade is mainly for hotel use. A few saddles of venison have appeared, but the call is not active at this early season. Partridges could be used to a larger extent. Some grouse arrive in poor condition, and sell as low as 40@50c. per pair.

Exports of onions past week, 90 bbls.; since Jan. 1, 1,450 bbls., or 250 bbls. less than same time last year. The dry season is beginning to tell upon root crops and prices are looking up. It has been fine weather for curing white onions of some prime ones are offering. Cabbages already show the effect of drouth and are higher. Sweet potatoes are abundant from Virginia and are lower. Potatoes are doing better. Choice Western Rose for shipment are firm at quotations. Quotations:
