WOOL MARKET.

BOSTON, Nov. 4.—The demand for wool is steady, but moderate; the stocks of wool are becoming less every week. Medium grades are already scarce and wanted, and fine wool will soon be in the same position. All desirable stock is therefore held with considerable firmness, and it is only the depressed state of the goods market that interferes with an upward movement in price. The production of goods has been so much reduced that manufacturers may soon be able to have more control over prices. Ohio and Pennsylvania fleeces have been selling at 50@57c. for X, XX, and XXX, mostly selections at 50@53c. Michigan and Wisconsin fleeces at 49@52c. Combing and Delaine selections at 57@62c. Super and X Pulled, at 40@45c. ℔ lb. In California Wool the sales have been at 28@42c. for Spring, and 21@26c. for Fall, and the latter meets with slow sale on account of the poor condition of the lots offering.
