below that of former years. From some points in Virginia the quality is highly spoken of, though the yield is moderate. The weather is now favorable for the harvest in the Middle States, and a fortnight more of the present weather would enable the farmers to secure the bulk of the crop south of this latitude. In Winter Wheat the business has been moderate and the arrivals light; notwithstanding this prices are much lower and unsettled at the close. The demand for Winter is confined to our local millers. The first samples of new crop from Tennessee were exhibited on Change during the week; they proved to be good. The exports of the week are 880,126 bush., against 966,354 bush. the corresponding week last year. The exports from this coast the past week have been only 1,250,057 bush., about one-sixth the quantity for the Continent. The quantity of Wheat now afloat for Great Britain is about 1,130,000 qrs., and after the 15th of July there will be a material falling off from the Pacific coast. The decline in Spring since our last has been 3@4c., and 4@6c. on Winter, the latter closing quiet but strong; Spring closed quiet on the spot and very strong for July, with more Continental demand. To-day the market opened stronger and fairly active; the higher prices asked greatly restricted business; the market closes quiet and firm, especially Nos. 1 and 2 Spring; dealers in options are apart in their views; Winter is held higher and is quiet; the sales are 144,000 bush. at $1 11½@$1 12½ for No. 2 Chicago Spring afloat, and later $1 13 was reported, afloat and $1 12½ for July; $1 16½ bid for No. 2 Milwaukee; $1 20@$1 21 for No. 1 Milwaukee; $1 40 for White Michigan. Barley Malt is steady but quiet; sales of 5,000 bush. Two-rowed State at $1 40, cash and short time; 2,000 bush. Four-rowed State at $1 45, cash. Oats are quiet; prices are without important change; the sales are 30,000 bush. Ohio Mixed at 60@61½c., and Michigan at 62c.; White at 62@63c., and 63c. on track; Western Mixed at 62c., in store, and 63@63½c., nominally afloat; White at 63@65c.; State Mixed at 62@64c., and White at 63@65c., the latter for choice; and Delaware White brought at 62c., afloat. Rye is firm but dull. Corn is much lower and closes tame at the decline; Old is nominal at 82c., in store; the sales are 86,000 bush. Damp and Unsound at 73@77c.; Western Mixed at 77@79½c., for steamer, and 80@82½c. for sail, the latter for very dry; Yellow at $1 82@ c.

SAN FRANCISCO, June 14.—The following is a statement of the receipts of domestic produce at San Francisco from July 1, viz.:

The clearances from San Francisco since our last are as follows: June 14, The Douglass, Liverpool, 3,116 centals Wheat; at 60 ₱ ton for bulk, 63, 26 bush. Also 2,000 bbls. Flour.

June 17—Previous to the late rain, advices from the interior were of the most encouraging character, showing that the crop yield would come up to if not exceed the general estimate. The receipts, however, are as yet very light of both old and new, and ships on the berth are making but little headway; only one cargo was cleared in a fortnight. Oregon is now sending down more or less of her surplus; her growing crop is highly spoken of, the press of that State putting her surplus at 200,000 tons in excess of last season. It is something very unusual for us to have rain in the month of June, and yet we have thus been visited. The northern districts report a rainfall during the week of about one inch. This rain can do no good, and the fear is much harm is done to the dry fodder. Our seasons seem to be changing; no rain in April and May as usual, but in June we have it in the time of harvest, when not required. The heavy rainfall of the past three days of three-fourths of an inch or more will, it is feared, do great damage to the standing as well as cut grain, but it is yet an open question whether on the great whole more good than injury has been done by this unusual and somewhat remarkable rainfall in the month of June.

PROVISIONS—The features of our Pork market the past week have presented a marked contrast to those of the previous week, the demand for late in the week greatly improved, and the general inquiry has proved more active; and instead of adding to our stock, we have diminished it. Prime Mess has ruled steady and has been in fair demand for export. Extra Prime has ruled quiet and has been firmly held, with our stock quite light for the season and in few hands. The local demand for City Family has been moderate at former prices. Clear has ruled quiet, but is not plenty, and is well held. The business for the interior has been large, chiefly confined to Ar-ford, sales made largely to cover former contracts. Our present supply, though moderate, is believed to be ample for the probable wants of the trade. At the current prices for Mess, $15 90@$20, against $17 90@$18 the corresponding time last year, the consumption everywhere will be restricted, and we think the supply in the country West will be in excess of the corresponding time last season. To-day Pork was steady, but very quiet; sales 150 bbls. Mess, $20 12½; 50 bbls. Clear, $2 ; 20 bbls. Shear Clear, $25. 100 bbls. Prime Mess, $18 75; 500 bbls. Mess, seller August, $ 0; $20 10 bid for September. Beef is in moderate demand and is steady; sales, 50 bbls., $9 50 to $10. Prime Mess, $16 50 for Tierce, $20 for Family. Beef Hams are quiet, but steady at $16@$17 50 for Southern, and $18@$18 50 for Western. Tierce Beef is steady, but quiet; sales of Plilad lpha India Extra Mess at $26. Cut Meats are in more active demand and very firm; sales, 8,500 pieces at 9¾c. for fresh Shoulders; 10½c. for Pickled do., 11½c. for smoked do., 13½c. for fresh Hams; 13½c. for Pickled do.; 14½@15c. for Smoked do. 50 tcs. Pickled Hams (Western), on private terms. 25 bbls. Western Smoked Hams, in canvas, 13½c. 500 tcs. Pickled Hams, at the West, on private terms; 500 pieces fresh Bellies, 11½c. 75 tierces Beef ctts, 8½c. Bacon is in fair demand and is steady; sales of 275 boxes, 11½c. for Western Long Clear; 11¾c. and 11 11/16c. for City do.; job lots, do., 11¾c.; 450 boxes Middles, at the West, for export, on private terms. Lard is very quiet, but is higher; sales of 38 tcs. Non-I City at 12 8c.; 200 tcs. new Western, 12¾c.; 150 tcs. City, 12¾c.; 100 tcs. old Western Steam, 13 5/16c.; 400 tcs. seller August, 13⅝c.; 12½c. seller September, 13 1/16@13⅛c. Hogs are in good demand and firmer, sales of City at 9½@9¾c.

BUTTER.—Owing to the very hot weather, the demand is somewhat checked, but prices rule about steady for choice grades; for common and medium qualities prices favor the buyer; firkins and tubs arrive sparingly—hardly sufficient to supply the demand. We quote:

Milk selections	27@28
Milk straight lots	6@27
Middle and Southern entire dairies	23@25
Northern Counties	23@24
State Butter, do., odds and ends	15@ 7
Western, Creamery	24@35
Western, Firkins	18@23
Western, Tubs	18@25
Near by County Pails	29@30

CHEESE.—There is an easier feeling to this market and a good inquiry for all grades. Shippers are purchasing at lower rates. The inquiry from the home trade is fair. Exporters have taken Western pretty free lv, and the market is well cleared up, and prices rule slightly steady. We quote:

New State, Fancy, for home use	12½@12¾

WHISKY—The demand is light, but prices are steady; sales of 10 bbls. at $1 14½. We clip the following from P. O. Boyd & Co.'s circular of this date: The week closes with a dull and depressed market for Highwines, owing to liberal receipts and excessive dullness in the city as well as country trade. The market opened on the 2 st with sales of 2 0 bbls. at $1 20, at which figure the market remained steady up to the 24th, when it receded ½c., closing today dull at $1 19½. The stock of Highwines in the country is being considerably reduced, and with the continued decrease in production, will not last over 60 days. We estimate the present stock in bond at 52,0 0 bbls. and tax paid at 10,000 bbls., daily production at 1,000 bbls. Alcohol, tax paid, remains firm and quiet, with supply fully equal to demand, and sales at $2 2 @$2 28 per gallon. WOOL MARKET.

BOSTON, June 26.—Wool—Demand fair, and sales up to a full average, comprising for the week upward of 1,500,0 0 ₱ lb of domestic, mostly spring California combing and Delaine fleeces and unwashed fleeces. No change to notice in prices. The market has now settled down on a basis some 3 to 5c. ₱ lb lower for all kinds than current rates some months ago. Michigan fleeces that formerly sold at 52@52½c. would not now bring over 48@48½c., and fine Ohio and Pennsylvania fleeces are fully 5c. off from the highest point. Medium fleeces and Combing and Delaine fleeces are also of from 3@5c. New Ohio and Pennsylvania fleeces would not bring over 5 @52c. ₱ lb for good average lots, and parties who are purchasing in the interior in anticipation of an advance on these figures are likely to be disappointed. The present excitement in the Wool growing States is a matter of surprise to both dealers and manufacturers, and it is believed that this excitement can be but temporary as Wool could not be bought at the prices ruling in the interior and disposed of on the Eastern markets, except at a loss. Transactions in X, XX Ohio have been principally at 52@53c., but these prices are for desirable lots of old Wool. The demand for California is good, and manufacturers evidently find this Wool the cheapest of any now on the market, costing from 65@80c. for Scoured. Sales of the week have been 623,000 lb Spring, including some Fancy Clips as high as 3?@40c., but principally from 30@35c. for Good and Choice Spring. Arrivals have been large, and holders are working off stocks as fast as possible, as prices are as high now as they are likely to be for some months to come. In Pulled Wool very little has been done compared with the transactions for some of the previous weeks. Recent sales include Ohio and Pennsylvania Fleeces, X, XX, and XXX, at 50@55c.; Michigan at 47c.; New-York and Western Fleeces at 45@51c.; Washed, Combing and Delaine at 55@60c.; Unwashed do. do., 38@50c.; Scoured do. do., 54@78c.; Tub-washed do. do., 55@56c.; Super and X Pulled, 45@56c.; California Spring, 20@40c., and California Fall, 22c.

CATTLE MARKETS.

ALBANY, June 26.—CATTLE—Receipts, 604 cars, against 626 last week; quality inferior. The best lot averaging 1,900 lb, and 8c. ₱ lb was asked for it; Texas sold as low as 3c., the highest price realized was $7 45 ₱ 100 lbs., and from that prices ranged down to 7½c. ₱ lb; common native stock ruled 1c. off from last week's prices. Of milch cows, 60 head were sold, and the range was from $30 to $75—the latter with calves.

SHEEP AND LAMBS weak; Sheep, Common to Fair, 4@4½c.; Fair to Good, 4½@5c.; Good to Extra, 5¼@5¾c. Lambs 7@9½c.

CHICAGO, June 26.—CATTLE market
