GENERAL MARKET REPORT.

SATURDAY, July 24, 1875.

COFFEE—The market for Rio is quiet, though firm, with sales of 500 bags, per P. C. Warwick; 912 bags, per same; 500 bags, per Johann, and 419 bags (Santos), per Wieland, all on terms not transpired. At Baltimore there was a fair business accomplished at full former figures: sales of 1,150 bags, per Alice, at 19¾c.; 2,200 bags, per Amazon, at 19¾c.; 200 bags, per Gray Eagle, and 50 bags, per Aquidneck, at 20c.; we quote ordinary cargoes at 17¾@17½c.; fair do., 18½@18¾c.; good do., 19¼@19½c., and prime do. at 19¾@19¾c., gold.

COTTON—The market for spot Cotton remains very quiet, but holders are firm; prices are without quotable change.

Quotations based on standard of classification in force Sept. 1, 1871, and on United Cotton in store running in quality not more than half a grade above or below the grade quoted:

Ordinary	13	Strict Good Ordinary	14½
Good Ord.	14	Low Middling	14¾
Strict Low Middling	15¾	Good Mid.	15¾

Quotations based on American standard of classification:

	Uplands.	Alabama.	N. Orleans.	Texas.

DISTRIBUTION OF RECEIPTS:

	Stock Aug. 31.	Received since.	Total.	Exported.	Stock.	Present Consumption.
1873	178,538	3,705,348	3,812,256	2,752,092	187,659	972,505
1874	113,428	3,435,823	3,549,251	2,650,660	145,059	1,004,192

From Liverpool yesterday we have the following report: Sales of the week, 67,000 bales, of which 16,000 bales were to exporters and 6,000 bales to speculators leaving 45,000 to the trade. The total stock is 1,056,000 bales, of which 592,000 bales are American; this shows a decrease of 11,000 bales in the total stock, and a decrease of 19,000 bales in the stock of American. Import of the week, 45,000 bales, including 14,000 bales American; actual export, 10,000 bales. The market opened firmer; sales, 10,000 bales; Uplands, 6 15-16d.; New-Orleans, 7 3-32d.; closed firm and unchanged.

The clearances have been as follows: Liverpool—Steamers Algeria, 300; City of Boston, 300; Spain, 200; Idaho, 50; Ships Isaac Webb, 287; Simla, 144; total, 1,156 bales. Hamburg—Steamer Klopstock, 99. Bremen—Steamer Mosel, 550. Grand Total, 1,805 bales.

FLOUR AND MEAL—This day week we left our Flour market very strong and fairly active at the advance, with a confident feeling with holders generally; at Saturday's market this feeling was hardly so strong, the reports from London of a favorable turn in the weather causing buyers to hold back; but on Monday the wet weather gave a fresh impulse to the market, and prices again rapidly improved with a more active demand; on Tuesday the much higher prices asked greatly restricted the purchases for export, but the trade purchased Spring Wheat brands liberally at a material advance; on Wednesday the excitement was very great, the advance was rapid and the sales large, the excitement and activity in Wheat extending to this market, and all grades improved, and we noticed a strong opposition to purchase Shipping Extras for August delivery, but little was accomplished, dealers being apart in their views; on the spot, however, a large business resulted, and a very strong feeling prevailed at the close; on Thursday the excitement was not so great, the advanced prices insisted on and the absence of a liberal supply of Spring Wheat Flour prevented the filling of many orders, which caused considerable business to be done in State Extras, seller August, at $6 50, and in Western Extras at $6 50@$6 65, but most holders declined to give refusals for shippers to cable less than $6 75. A large business was done in Family brands of Minnesota at the advance, though many holders withdrew from market, even at the extreme prices then current. The demand for Wheat at the West is falling off; many leading millers are without supplies, and cannot duplicate what they have sold of late, so rapid is the advance in Wheat in the interior. Yesterday there was a good company present at the Exchange, but the trade and shippers held off, a favorable change in the weather in England checked the demand, and a material decline in Wheat gave buyers of Shipping brands some advantage, but this did not extend to the better grades, though the upward movement was checked; the disposition to purchase for August quite subsided, and the market closed tame for most grades. Our present stock is very light, unusually so for the season, not above 100,000 bbls. City millers have done but little, owing to the rapid advance in prices. The exports of the week have been 30,082 bbls., against 28,125 bbls. the corresponding week last year. The sales of the week are 112,600 bbls. To-day the market opened very quiet, buyers very generally held off, and to sell freely a material decline would have to be submitted to. Most holders decline to yield to sell freely. Values are uncertain. At the close the market is rather steadier, with a portion of the decline recovered. Sales of 14,000 bbls. We quote:

Superf. Minn.	$4 20@$4 30	Ohio, Ext. Trade Brands	$6 40@$6 60
No. 2	4 60@ 5 00	White Wheat Ex.	
Superfine	5 10@ 5 25	Ohio, Indiana, and Michigan	6 75@ 7 35
State Extra Brds	6 00@ 6 30	Double Ex. do. do	7 40@ 8 00
State Fancy Brds.	6 35@ 6 60	St. Louis Single Extras	7 00@ 7 20
Western Shipping Extra	6 00@ 6 35	St. Louis Double Extras	7 30@ 8 00

Ohio Wind. Hoop, Ext. (Shipping)	6 10@ 6 30		

Southern Flour is inactive and heavy; but there is little pressure to sell. At the close the market is quiet but steadier; sales of 450 bbls. We quote:

No. 2	$4 60@$5 00
Balt., Alex., and G'town Mixed to Good Sup'r.	5 10@ 5 25
Balt., Alex., and G'town Extra and Family	6 10@ 8 30
Richmond Extra	6 75@ 8 25
Delaware	6 40@ 7 75
Baltimore, Howard-st. brands	6 25@ 7 90
Maryland	6 25@ 8 25

Rye Flour is scarce and is held higher; sales of 470 bbls. We quote:

Rye Flour, Western Fine and Superfine	$4 70@$5 25
Rye Flour, State	5 25@ 6 25
Rye Flour, Pennsylvania	5 20@ 5 90

Corn Meal is in good demand and higher; sales of 1,000 bbls. We quote:

Corn Meal, Jersey	$4 00@$4 45
Corn Meal, Western	3 60@ 4 45
Corn Meal, Western White	4 00@ 4 55
Corn Meal, Brandywine	5 25@ —
Corn Meal, Golden Syr.	4 50@ —

Jersey Rye Meal firmer and in fair demand. We quote Fine White at $1 90@$2; Fine Yellow at $1 80@$1 85; Coarse at $1 65@$1 70; Ground Feed at $1 60@$1 70.

FREIGHTS—The market continues firm but quiet; the unsettled state of the Grain market and the high rates demanded for tonnage retard business in engagements of the steam-propelling tonnage. The charters comprise: An Austrian bark, hence to Cork for orders, with 3,500 qrs. Grain, at 8s.; an American bark, hence to Bristol Channel, with 2,500 qrs., at 7s. 6d., flat; an American brig, hence to Havre or Antwerp, with 2,200 bbls. Petroleum and products, at 5s. 7½d.; a British brig, from Philadelphia to the Baltic, with 2,100 bbls. Refined Petroleum, at 7½; an American bark, chartered previous to arrival, hence to the Baltic, with 4,600 bbls. do., on terms not made known; a German bark, hence to Bremen or Hamburg, with 5,200 bbls. do., at 4s. 9d., 16th August clearance. After Change the engagements were: 24,000 bush. Grain to Liverpool, by steam, 8d@9d.; to London, by steam, 16,000 bush., on private terms; to Hull, by steam, 16,000 bush., on private terms. The charters were: A bark chartered previous to arrival, hence to Bremen, with 3,600 bbls. Refined Petroleum, on private terms; a bark, hence to Gibraltar for orders, with 1,500 bbls. do., at 5s. 9d., for Mediterranean, if to the Adriatic, 6s. 9d.; a Dutch bark, hence to the German Baltic, with 2,200 bbls. do., at 6s. 9d.; a British bark (to arrive and relet), hence to Cork for orders, with 4,500 qrs. Grain, at 7s. 9d.; another (to arrive, relet), hence for same voyage, with 4,500 qrs., at same rate; another, for do. (to relet and to arrive), hence with 4,000 qrs., at same rate.

GRAIN—In our last weekly review of the Wheat market for the preceding week we characterized it as the most active in the history of the trade, but the week now under review has been far more active, the excitement far more intense, the aggregate sales very much larger, and the advance much more rapid. This great advance in Spring Wheat is due chiefly to the character of the advices from Great Britain, which from day to day have been intensely exciting and very important. The British Islands have been visited by the most devastating and destructive floods ever known; indeed there is no comparison with them in the history of that country. The area visited by the floods is the most highly cultivated and the richest agricultural country in the world; hence we cannot now form any idea of the extent of the damage done, but upon this the future value of Wheat largely depends. These deplorable floods have caused almost a suspension of all outdoor business there, and prudent business men have preferred to wait until the storm was over to know how to act intelligently, but some time must elapse before they can get even an approximate idea of the extent of the damage done. Much of the Wheat so long under water is of course worthless, but the growth of much of that that escaped the flood has been greatly retarded; the crop is backward and there is much apprehension for the future. The rains at the West still continue, and in Ohio and Indiana the injury to the crop has been serious, and for four weeks past there has been little cessation of rain. The few intervals of sunshine have not been of sufficient duration to enable farmers to dry their Wheat properly, and much of it has been injured by rust and in the stack, more especially in the southern and central parts of those States. At the north, rust is greatly complained of, and the harvest has been greatly delayed. It is now very evident we shall have a large supply of poor Wheat, where we had counted on a good article. The yield to the acre we have long since reported greatly below an average. From Kentucky and Tennessee we have reports today of great injury to the Wheat in the stack. Thus far the accounts from the North-West have been favorable, though some apprehension is expressed in consequence of the late heavy rains. The present prospect is highly favorable. The promise now is of a yield considerably larger than in 1874. The aggregate sales of the week are much lower than the previous week, but the major part of the business has been of a speculative character. The Wheat on the canal has been sold and resold repeatedly, and most legitimate orders could not be filled. Unlimited orders from Liverpool and the Continent were promptly filled, but few such orders have come to hand. The intelligence from the Continent is variable. In some localities the crops are about an average, but generally the reports are unfavorable in France, Hungary, and Austria, Southern Russia, and a portion of Germany and Belgium; there crop has been greatly injured by drouth, frost, floods, and later by the premature ripening of the plant—this more especially true of Hungary, Austria and Southern Russia—and the indications now are that the crop on the Continent will prove considerably below an average. From the Pacific Coast we learn the improvement of Wheat is very light; the farmers in California are not disposed to sell their Wheat, and nothing was shipped last week. In Oregon it is too early for any movement. From Australia the advices are not so favorable. From Victoria, where it was supposed they had a considerable surplus, later reports indicate a deficiency. Our position we regard as a very important and interesting one. Should our Spring crop result favorably, we could then count on an active trade at satisfactory prices. The Wheat now on the canal is about 2,500,000 bush., and on the lakes and rails, 1,950,000 bush.; the most of it has been sold several times, and is now held for a further advance. The exports of the week are 1,091,288 bush., against 300,907 bush. the corresponding week last year; the exports from the Coast and Gulf are 1,200,124 bush., including 20,118 from New-Orleans. To-day the market opened lower for all kinds and the business was limited, owing to the light offerings and change in the weather in England. Spring was offered quite freely for future, and No. 2 Chicago sold for first half of August at $1 33; No. 2 Milwaukee sold in store at $1 38, and Amber Michigan at $1 46 in store. The market closes better and fairly active, the demand chiefly for Spring on the canal and lakes. Winter is more active of late, and firmer, with a fair demand for shipment, and for milling at the decline. A large business is doing in Spring for the future. The sales are 380,000 bush. at $1 34@$1 40 for Ungraded Iowa and Minnesota; $1 33@$1 35 for No. 2 Chicago Spring, seller the first half of August, and $1 35 now bid, and $1 36@$1 38 afloat, and $1 40 for very choice North-West; and $1 38 for 103,000 bush. now on the canal; $1 38@$1 40 for No. 2 Milwaukee, in store and afloat; $1 43 for No. 1 Milwaukee, now on the canal; $1 50@$1 53 for White Michigan; $1 46 for Amber Michigan, in store and to arrive. Included in the sales are 68,000 bush. No. 2 Chicago at $1 33@$1 35, seller August; 43,000 bush. next week at $1 36; 24,000 bush. choice do., $1 37@$1 38, spot; 16,000 bush. No. 2 Milwaukee, first half August, at $1 40; 32,000 bush. No. 1 do., seller first half August, $1 43; 103,000 bush. North-West on the lakes at $1 35. Barley Malt is firm and in fair demand; sales of 3,000 bush. Canada at $1 73, time. Oats are inactive, and close lower and [illegible] the sales are 24,000 bush. new Ohio Mixed at [illegible] Western Mixed at 64½c. bid, White at [illegible] Mixed at 62½@64½c., and White at 69@70c. Rye is scarce and nominal; the sales are 400 bush. new crop Jersey at $1 05. Corn is fairly active, and closes lower and unsettled, the demand chiefly for export; the sales are 110,000 bush. Western Mixed at 85½@87c. for steamer, and 87@89c. for sail, and in store on private terms; Western Yellow at 89c.; State Round Yellow at 91c.

VICTORIA, Australia, June 5.—The agricultural statistics for the past season have been published. The following figures are given: Area under wheat, 367,000 acres; average yield, 16 bush.; total yield, 5,872,000 bush., which, at the usual allowance per head and for seed, would have left a surplus of nearly 400,000 bush.; but the figures of the Register General, however, would appear to dissipate this hope. He gives as the area under wheat 352,935 acres; average yield, 14⅜ bush. for the acre; total yield, 4,850,135 bush. The requirements of the population will
