FARMS IN ILLINOIS.

900,000 ACRES
OF THE
BEST FARMING LANDS,
FOR SALE BY THE
Illinois Central Railroad Company,
IN TRACTS TO SUIT PURCHASERS,
AT LOW PRICES.

The Illinois Central Railroad extends from Dunleith, in the north-western part of the State, to Cairo, in the extreme southern part, with a branch from Centralia, one hundred and thirteen miles north of Cairo, to Chicago, on the shore of Lake Michigan—altogether a length of 704 miles—and the land which is offered for sale is situated upon either side of the track, in no instance at a greater distance than fifteen miles.

Illinois.

The rapid development of Illinois, its steady increase in population and wealth, and its capacity to produce cheap food, are matters for wonder and admiration. The United States Commissioner of Agriculture estimates the amounts of the principal crops of 1864, for the whole country, as follows: Indian corn, 320,591,403 bushels; wheat, 189,036,822 bushels; oats, 176,669,064 bushels; of which the farms of Illinois yielded 138,256,155 bushels of Indian corn, 25,671,373 bushels of wheat; and 24,773,751 bushels of oats—in reality more than one-fourth of the corn, more than one-fifth of the wheat, and almost one-seventh of the oats produced in all the United States.

Grain—Stock Raising.

Pre-eminently the first in the list of grain-exporting States, Illinois is also the great cattle State of the Union. Its fertile prairies are well adapted by nature to the raising of cattle, sheep, horses and mules; and in the important interest of pork packing, it is far in advance of every other State. The seeding of these prairie lands to tame grasses for pasturage or hay, offers to farmers with capital the most profitable results. The hay crop of Illinois in 1864 is estimated at 2,100,725 tons, which is more than half a million tons larger than the crop of any other State, excepting only New York.

Cotton, Tobacco, Flax.

The cultivation of tobacco and cotton in southern Illinois has been largely stimulated by the high prices which have prevailed since the outbreak of the rebellion. The crop of tobacco in this State, for 1864, is set down at 18,807,722 lbs.; and while the returns from the cotton-growing counties are incomplete, they are yet sufficient to show a large increase in the product—the most careful calculation placing the increase at fifty per cent. Sorghum is now classed among the staples of Illinois. The making of sugar from the beet is receiving some attention, and experiments upon a large scale will be made during the coming season. Hemp and flax are grown in almost every part of the State, and of a quality equal to the best European.

Fruit.

Almost all the fruits of the temperate latitude are produced in Illinois. Peaches, pears, plums, strawberries, and every variety of garden vegetables, are produced in great abundance in the central and southern districts of the State, and are supplied to Chicago, St. Louis and Cincinnati, the excellent railway facilities insuring a quick market in all these places.

Inducements to Settlers.

The attention of persons, whose limited means forbid the purchase of a homestead in the older States, is particularly invited to these lands. Within ten years the Illinois Central Railroad Company has sold 1,480,000 acres, to more than 20,000 actual settlers; and during the last year 264,422 acres—a larger aggregate of sales than in any one year since the opening of the road. The farms are sold in tracts of forty or eighty acres, suited to the settler with limited capital, or in larger tracts, as may be required by the capitalist and stock raiser. The soil is unsurpassed for tilling; the climate is healthy; taxes are low; churches and schools are becoming abundant throughout the length and breadth of the State, and communication with all the great markets is made easy through railroads, canals and rivers.

PRICES AND TERMS OF PAYMENT.

The price of lands varies from $9 to $15 and upwards per acre, and they are sold on short credit, or for cash. A deduction of ten per cent. from the credit price is made to those who purchase for cash.

EXAMPLES:

Forty acres at $10 per acre, on short credit, the principal one-quarter cash down—balance one, two and three years, at six per cent. interest, in advance, each year.

	Interest.	Principal.		Interest.	Principal.
Cash Payment	$24 00	$400 00	Payment in two years	$48 00	100 00
Payment in one year	12 00	100 00	" in three years	36 00	100 00

The Same Land may be Purchased for $360 Cash.

Full information on all points, together with maps, showing the exact location of Lands, will be furnished on application in person or by letter, to

DR. P. H. CARDWELL

HAS THIS DAY EFFECTED AN ARrangement by which he will be able in the future to supply all persons who may desire, from a single to a full set of teeth, on the

Vulcanized Rubber Base,

Being the latest improvement in our profession, and having been sufficiently tested to warrant its utility, we take pleasure in recommending it as being far preferable in many respects to any other base heretofore used. It can be used in many instances where all other materials fail. No one need, therefore, despair. Call on me, give me your work and I will demonstrate these facts.

Remember that a full set of teeth on this method cost only half what they would on gold, and yet preferable in all respects.

Respectfully, P. H. CARDWELL.

The war being over, we assume that business will take a vigorous and healthy rise—hence the necessity of having more and substantial rooms to accommodate what we naturally presume will be our

Growing Business.

To our numerous friends it is hardly necessary to say, (but to strangers it may), that we shall devote our entire strength and ability to the conduct of our affairs.

MERCHANTS of the NORTH

Would do well to take a note of the many advantages we possess to do justice to their consignments, and we are prepared to make liberal advances.

Our Old Stand

Is most commanding for the display of Furniture and bulky goods, as well as Dry Goods and Fancy Articles, and our new warehouses the best for storing every description of property.

We have at present a large and valuable stock on hand which we are closing out to suit purchasers.
