The Committee on Grain announce the following details of the plan for grading grain under the rules recently approved upon future in the New-York Produce Exchange and the railroad companies:

1. All bills of lading for grain shipped to this market by rail, on and after Dec. 1, 1875, should contain the following words:

"To be graded and entered in the receiving books in accordance with the rules of the New-York Produce Exchange, unless shippers direct to preserve the identity of their grain, as provided for in the joint circular of the railroad companies issued under the date of Nov. 8, 1875.

2. All shipments of grain on bills of lading from which the words "to be graded and entered in accordance with the rules of the New-York Produce Exchange" are omitted, will be subject to a uniform charge for Ballastage, to be agreed upon by the light masters of the trunk lines, of not less than 1½ cents per bushel, based on the 3 cents ½ bushel.

3. All grain will be delivered from track on arrival.

4. All graded grain will be lightered free, in accordance with their rules, and certificates will be issued thereon by the rail road companies.
