THE PHILADELPHIA PRINTING INK MANUFACTORY.
Established in 1804.

The subscriber (successor to Charles Johnson, formerly Johnson & Duract, celebrated Printing Ink Manufacturers of this city) would respectfully inform Printers and the trade generally that, after numerous experiments and years of the closest personal application, he has succeeded in producing an Ink that will defy all competition for density of black and such, that some of the leading Printers of this city find it unnecessary to damp up their printed work, when the paper has been slightly wet. By the introduction of this New Improved Patent Steam Mill, his Ink will be found to have equal for fineness of grinding, and with the agency of his Patent Lampblack, he offers a black of greater density and cheaper than any other Ink heretofore offered in this country.

He keeps constantly on hand a large supply of Book Inks, Varnishes, &c., and is prepared to execute orders at the shortest notice.

Orders carefully solicited. Proprietors of Journals will find to their advantage to examine his Ink before purchasing elsewhere.

ROB. J. CULVERWELL, M. D., Author of the "Green Book," &c.

The world-renowned author, in his admirable Lecture, clearly proves from his own experience that the awful consequence of Self-Abuse may be effectually removed without medicine, and without dangerous surgical operations, bougies, instruments, rings, or cordials, pointing out a mode of cure at once certain and effectual, by which every sufferer, no matter what his condition may be, may cure himself cheaply, privately, and radically. And all kinds of CASTINGS for REPAIRS constantly on hand.

I would call the attention of the Farmers, in general, to a few facts. Having been in this business for over 25 years, (as well as farming), I consider myself thoroughly posted in all kinds of Agricultural Implements, and having selected my stock from the best manufactories in the United States, I am prepared to give better satisfaction than any other establishment in Tennessee. First, my Threshing Machine (Russell's) will do more work and save more grain, with a lesser amount of team and labor, than *any other* in use. My Reaper will harvest Wheat, Rye, Oats, Barley, &c., in the most perfect manner, on any farm land in Tennessee, no matter how rolling. It will cut around stumps with almost the ease of a cradle.

All that is necessary to convince the farmer of Tennessee that my statements are correct, is to see, how me to prove my assertion by a trial of my Machines. My Mowers are second to none in the market. My Plows, wherever they have been used, are giving better satisfaction than any Plow in Tennessee. My Stafford Wheel Cultivator will cultivate from 8 to 10 acres of Corn or Cotton per day, and makes it easy on the farmer, as he rides on the machine and does the work as well as can be done with our common shed plow.

I also can furnish Mill owners with the best Water Wheel in the world, which I can safely say, as I know it by experience.

My machinery and implements will perform all that I claim for them.

☞ All persons wishing information in regard to any of my machinery will receive a Printed Pamphlet, and all necessary information, by applying to GEORGE S. RUBLE at Chattanooga, Tennessee, or to EZ. S. MATHES, Agent, Jonesborough, Tennessee.

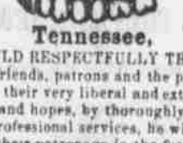
OFFICE: MAIN STREET, OPPOSITE THE PRESBYTERIAN CHURCH,



WOULD RESPECTFULLY THANK HIS friends, patrons and the public generally for their very liberal and extensive patronage; and hopes, by thoroughly discharging his professional services, he will continue to merit their patronage in the future, at the above named place, where he has resumed his practice, and would be pleased to wait on all who entrust their teeth to his care. Having just returned from the Eastern Cities where he purchased an entire new operative and mechanical out-fit, together with a choice selection of the best material known to the profession, and having secured all of the most approved improvements for performing operations in the most scientific style, he feels sanguine that he will be able, combined with an extensive experience of more than ten years' practice, to give satisfaction in all operations which he may perform.

He would invite special attention of those who wish AMERICAN TEETH to the Rubber Base as possessing *absolute superiority over all other articles ever offered for that purpose.* It can be more perfectly adapted to the gums. It has great strength, yet it is light and very durable. It is easily kept clean—sweet and pleasant to the taste. *It does not cost half as much as Gold Base.* Indeed, all who are in need of Artificial Teeth, and those who wish to preserve their natural ones, can have it done at the *Lowest Price* by applying at

PHILADELPHIA UNIVERSITY OF Medicine and Surgery.

THE Philadelphia University of Medicine and Surgery was organized in 1848. Chartered by the Legislature, February 20, 1853. Name changed by a legislative enactment to the Eclectic Medical College of Philadelphia in 1856. In 1861 it purchased the Pennsylvania Medical College, established in 1842, and the Philadelphia Medical College, which had previously been merged into the Pennsylvania Medical College. In 1864 it purchased the Penn Medical University. The Trustees of the separate schools united, petitioned, and obtained a special act of the Legislature, consolidating these institutions and changing their name to that of the Philadelphia University of Medicine and Surgery, March 15, 1865. All these various acts are published in the statutes of Pennsylvania. The cost of the building and museum was over one hundred thousand dollars. It will be observed that the University, as now organized, is the legal representative of the four medical colleges that it has absorbed. It is a liberal school of medicine, confined to no dogma, nor attached to any medical clique; but embraces in its teachings everything of value to the profession.

SESSIONS.—It has two full sessions each year, commencing on the 1st of October, and continuing until the 1st of January as its first session, and from the 1st of January to the 1st of April as its second; the two constituting one full course of lectures. It has also a summer session, commencing the 1st of April and continuing until August, for the preparatory branches—such as latin, Greek, Mathematics, Botany, Zoology, Chemistry, Anatomy, Physiology, etc.

TICKETS.—Tickets to the full course of lectures $120, or $70 for each session. For the summer or preparatory course $25. Graduating fee $30. To aid young Men of moderate means, the University has issued five hundred scholarships, which are sold to first course students, for $75, and to second-course students and clergymen for $50, each constituting the holder a life member, with the perpetual privileges of the lectures, and all the teachings of the school. The only additional fees are a yearly dissecting and matriculating ticket, each of which is $5.

THE ADVANTAGES OF SCHOLARSHIPS.—The student holding a scholarship can enter the College at any time during the year, attend as long as he chooses, and re-enter the institution as frequently as desired. It requires no previous reading or study to enter the University on scholarships, hence, all private tuition fees are saved.

Students, by holding scholarships, can prosecute other business a part of the time.

The candidate for graduation can present himself at anytime, and receive his degree as soon as qualified.

In case a student should hold a scholarship and not be able to attend lectures, it can be transferred to another, thus preventing any loss.

Parents, guardians, or friends of students wishing to purchase scholarships for them a year or more before their attendance at the University, can secure them by advancing one-half the price, and paying the balance when the student enters. Physicians and benevolent men can bestow great benefit upon poor young men, by presenting them a scholarship, and thus enabling them to obtain an honorable profession.

The Faculty embraces seventeen eminent physicians and surgeons. The University has associated with it a large hospital clinic, where every form of medical and surgical disease is operated on and treated in the presence of the class.

COLLEGE BUILDING.—The College building, located in Ninth Street, south of Walnut, is the finest in the city. Its front is collegiate gothic, and is adorned with embattlements and embrasures, presenting a novel, bold, and beautiful appearance. The facade is of brown stone, ornamented by two towers, rising to the elevation of eighty feet, and crowned with an embattled parapet. The building contains between fifty and sixty rooms, all supplied with water, gas, and every other convenience that modern improvement can contribute to facilitate medical instruction. Only five hundred scholarships will be issued, and as two hundred and fifty are now sold, those who wish to secure one, should do so at once. Money can be remitted by express, or a draft or check sent on any National bank in the United States, when the scholarship will be returned by mail, signed by the President of the Board of Trustees, Jos. S. Fisher, Esq., and the Dean of the Faculty, W. Paine, M. D. All orders for scholarships or other business of the University, should be addressed to Professor W. Paine, M. D., Philadelphia, Pennsylvania.

JULES JARED'S "EMAIL DE PARIS."
THE NEW BEAUTIFIER OF THE SKIN.

TESTIMONIALS FROM CELEBRATED LADIES.

This secret of beautifying the skin being known only to Messrs. Jared & Rene, they honorably state that it differs from all other preparations. It gives to the most harsh and freckled skin both the texture and color of whether appearing as freckles, tan morphew moth, or black-worm specks, and is especially successful in smoothing out the marks left by small pox.

The agents of "L'Email de Paris" most confidently submit to the public the earnest endorsements of such distinguished ladies as SIGNORA RISTORA, M'le FELICITA VESTVALI, Miss MAGGIE MITCHELL, Mrs. D. P. BOWERS, LUCILEE WESTERN, Mdm'e PONISI, Mrs. EMMA WALLER, LUCY RUSHTON, NOEMIE DE MARGUERITTES, Miss AGNES PERRY,

and many others, whose high standing in the profession gives the stamp of truthfulness to their intelligent and genuine approval.

The Beautiful Lucille Western says:—

I find that the "Email" produces all the brilliancy rouge and lily-white, with the great and peculiar advantage of total harmlessness. It really adds to the softness and beauty of the skin.

The Magnificent Vestvali says—

I have suffered so much from the various white lotions, &c., which my theatrical profession obliges me to use, that I consider it a perfect benefaction to find a preparation which gives the necessary whiteness to the skin, and leaves the skin cool and smooth.

Miss Maggie Mitchell says:—

I have tried the skin beautifier, "L'Email de Paris," and found that it instantly imparts a natural bloom and freshness to the complexion.

"Jared's Email de Paris" is used as a delicate beautifier of the skin for Theatre, Saloon or Ball Room, by the most refined and scrupulous ladies; producing all the beautifying effects of rouge and lily-white, without their vulgar glare or injury to the skin.

Sold by all first-class Druggists, Perfumers and Ladies' Hair Dressers.

COLE'S VOYAGE OF LIFE.
Childhood, Youth, Manhood, and Old Age.

After the Original Pictures in Possession of Rev. Gorham D Abbot, of New York.

MANY regard this series of paintings as the chef d'œuvre of American art hitherto; certainly nothing in the department of ENGRAVING yet produced in this country excels the work of Smillie in their copying. The Engravings were published nearly ten years since, and in the few and limited channels through which they have been offered, a ready demand has been found. It is now proposed to enlarge their sale, as Mr. Abbott has placed the plates with us for that purpose. Believing that, as in the case of every great artist work by composition, they cannot be too common, we have undertaken to meet his wishes.

The Trade, Canvassers and Clubs will therefore have most liberal terms. Clergymen and teachers will also be entitled to a special discount, and all persons disposed to aid in their sale in any way will find a generous reward for effort.

The prints will hereafter be issued on better plate paper and with more care as to printing.

Price $12 per set, on receipt of which they will be sent to any address.

NEW BOOK.

ACENTS WANTED FOR
GENERAL I. C. BAKER'S
HISTORY OF THE SECRET SERVICE.

The most Exciting and Interesting Book ever Published.

This work embraces an authentic and official account of the hitherto suppressed facts and incidents obtained by GENERAL BAKER, during his five years service as Chief of the National Detective Police. It was announced more than a year ago, but owing to the attempts of the Government to suppress it, its publication was delayed. It will now be found, unabridged, and unabridged, under the supervision of Gen. Baker.

The little information and meager accounts of his operations derived from the newspapers of the day have only awakened a more intense desire in the minds of the reading community to learn still more of the mysteries heretofore hidden by the curtain of official surveillance.

This book effectually lifts the veil of secrecy and lays bare their inward recesses to the inspection and criticism of the world.

The morals of the National Capital are thoroughly ventilated, and there are some startling revelations concerning heads of departments, members of Congress, female parlor brokers, and distinguished military characters.

For thrilling interest these narratives surpass all of General Baker's eclipse the famous expositions of Pinkerton. Vidocq and possess the rare merit of being for the first time, being all attested by the highest official authority.

Send for Circulars and see our terms, and full description of the work. Address
