Proclamation by the Governor.

WHEREAS, On page 108, of the Code of Tennessee, the following Constitutional provision is found:

"The Governor may, on extraordinary occasions, convene the General Assembly by proclamation; and shall state to them, when assembled, the purposes for which they shall have been convened; but they shall enter on no legislative business except that for which they were specially called together."

Now, therefore, I, WILLIAM G. BROWNLOW, Governor of Tennessee, issue this my call for an extraordinary session of the General Assembly of Tennessee, to take place on Monday, 26th of July, 1868, at the Capitol in Nashville. Senators and Representatives are required to be there at 12 o'clock, the day and date above named, when I will make known to them the purposes for which they have been called together.

The papers selected to do the legal advertising of the State are directed to insert this proclamation, each three times. In testimony whereof, &c., &c., I sign and publish the same this 6th of July, 1868.

WILLIAM G. BROWNLOW.

Our Piano Fortes are now universally acknowledged by the most distinguished artists to be the Best manufactured, and wherever they have been introduced and used, we are not required to say one word in their favor, their excellence stands pre-eminently to those of other makers; and from the great success achieved, and improvements made by us in the last thirty years, we can afford to sell a first-class Piano Forte at $100 to $150 less than a similar one can be bought elsewhere.

Every Piano Forte Warranted for Five Years, and to give Satisfaction.

Our Pianos are made to last; the materials used for every part are thoroughly seasoned, and of the very best quality that can be procured. No part is slighted; what the public eye might pass over, never escapes our vigilance. Every part, inside and out, is honestly, faithfully and thoroughly made, so that it will bear the most minute examination. They differ from the loud, coarse tone of most pianos, (which is bad in the beginning, and grows worse every day,) inasmuch as it is refined and delicate, pure in its vibrations, delightful in its singing capacity, and has all the power necessary to produce every desired effect.

They are, without doubt, the best, the most lasting, and consequently the cheapest. We are content with a fair profit. Our prices range from $300 to $800 00.

Extract from Report of Farmers' Club, New York, 1867.

"WASHING MACHINES.—William D. Osborn, Port Byron, Cayuga county, N. Y., asks: 'Will the Club give us its opinion of washing-machines? Is it economy to pay fourteen dollars for one of Doty's machines? Will it wash farmers' clothes clean, and not be too hard work for the women? Washing-machines have so generally proved to be failures that I am afraid of throwing away my money upon one.'"

THE OFFICIAL HISTORY

OF THE WAR,

ITS CAUSES, CHARACTER, CONDUCT AND RESULTS.

By Hon. Alexander H. Stevens.

A Book for all Sections and all Parties.

This great work presents the only complete and impartial analysis of the cause of the War yet published, and gives those interior lights and shadows of the great conflict only known to those high officers who watched the fountains of revelation from its fountain springs, and which were so accessible by Mr. Stephens from his position as second officer of the Confederacy.

To a public that has been satiated with apparently similar productions, we promise a change of fare, both agreeable and salutary, and an intellectual feast of the highest order. The Great American War has AT LAST found a historian worthy of its importance, and at whose hands it will receive that moderate, candid and impartial treatment which truth and justice so urgently demand.

The intense desire everywhere manifested to obtain this work, its official character and ready sale, combined with an increased commission, make it the best subscription book ever published.

AGRICULTURAL IMPLEMENTS,

CHATTANOOGA, TENN.

JOHN DEERE & CO., IMPROVED HAWKEYE CORN AND COTTON CULTIVATOR.

Above we give a cut of the Sulky Corn and Cotton Cultivator, widely and favorably known as the Hawkeye. It has been before the farming community six years, and having been tested in every capacity in which such implements can be made serviceable, and received their unqualified approval, we can recommend it with confidence as the most thorough and perfect implement of its class in use.

Its economy over the double shovel plow consists in saving the wages of one man, while the work is done better and with greater ease to both man and team. For stirring fall plowing and putting in small grain—with the 5th shovel attached—and for marking out corn ground, it is also extensively used. The manufacturers have made such improvements in this machine, for the coming years, as will meet and overcome every objection heretofore urged against Sulky Cultivators.

JUNIOR AS A REAPER.

The above Cut represents the small Machine as a Reaper, in the act of dropping a sheaf. This Machine is well calculated for small or hilly farms. It embraces all the flexibility and strength of the Mower, with independent Reaping Bar and Sickle, five and a half feet long, which can beat to cut from one to fifteen inch stubble; the points of the guards or fingers can be raised or lowered so as to take up lodged or fallen grain in the most perfect manner.

WARNER'S REVOLVING SULKY RAKE.

It is commonly admitted that for excellence of work the revolving rake is unequaled. Its great want has been an efficient sulky attachment. This, however, has been successfully met in the WARNER SULKY REVOLVING RAKE, an engraving of which is herewith presented.

Working Position.

WARNER'S REVOLVING SULKY RAKE.

The advantage which the Warner Sulky Revolving Rake possesses over all others, will be readily comprehended. It gathers the hay free from dust and sand, carries it clean, and in dumping closes the windrow or rick in good shape for pitching.

The rake is made of wood, and, in case of breakage, can be repaired by the operator, thereby saving the delay of sending to a blacksmith or machinist.

It is built of the very best material, and is more durable than any other wheel rake, and afforded at a less price than any other first class rake.

The rake—draw shafts, levers, &c, may be detached at pleasure from the sulky, leaving the latter complete in itself, and ready for use. Being well built, gotten up in good style, with an excellent spring seat, the sulky is a complete carriage of its class, and is alone almost worth the price asked for sulky and rake combined.

These advantages are possessed by no no other rake, and must commend themselves to all wanting a complete Horse Rake.

Do not be Deceived.

Owing to the unprecedented popularity of this work, a small English abridgment, adapted to juvenile readers, in duodecimo form, has been reprinted by another firm in larger type, and spread over 800 octavo pages, evidently—by making a book larger than its original—to give the impression that it is our edition. PHILADELPHIA UNIVERSITY OF Medicine and Surgery.

THE Philadelphia University of Medicine and Surgery was organized in 1846. Chartered by the Legislature, February 26, 1853. Name changed by a legislative enactment to the Eclectic Medical College of Philadelphia in 1860. In 1863 it purchased the Pennsylvania Medical College, established in 1853, and the Philadelphia Medical College, which had previously been merged into the Pennsylvania Medical College. In 1864 it purchased the Penn Medical University. The Trustees of the separate schools united, petitioned, and obtained a special act of the Legislature, consolidating these institutions and changing their names to that of the Philadelphia University of Medicine and Surgery, March 15, 1865. All these various acts are published in the statutes of Pennsylvania. The cost of the building and museum was over one hundred thousand dollars. It will be observed that the University, as now organized, is the legal representative of the four medical colleges that it has absorbed. It is a liberal school of medicine, confined to no dogma, nor attached to any medical clique; but embraces in its teachings everything of value to the profession.

SESSIONS.—It has two full sessions each year, commencing on the 1st of October, and continuing until the 1st of January as its first session, and from the 1st of January to the 1st of April as its second; the two constituting one full course of lectures. It has also a summer session, commencing the 1st of April and continuing until August, for the preparatory branches such as Latin, Greek, Mathematics, Botany, Zoology, Chemistry, Anatomy, Physiology, etc.

TICKETS.—Tickets to the full courses of lectures $120, or $80 for each session. For the summer or preparatory course $25. Graduating fee $30. To aid young Men of moderate means, the University has issued five hundred scholarships, which are sold to first-course students, for $75, and to second-course students and clergymen for $50, each constituting the holder a life member, with the perpetual privileges of the lectures, and all the teachings of the school. The only additional fees are a yearly dissecting and matriculating ticket, each of which is $5.

THE ADVANTAGES OF SCHOLARSHIPS.—The student holding a scholarship can enter the College at any time during the year, attend as long as he chooses, and re-enter the institution as frequently as desired.

It requires no previous reading or study to enter the University on scholarships, hence, all private tuition fees are saved.

Students, by holding scholarships, can prosecute other business a part of the time.

The candidate for graduation can present himself at anytime, and receive his degree as soon as qualified.

In case a student should hold a scholarship and not be able to attend lectures, it can be transferred to another, thus preventing any loss.

Parents, guardians, or friends of students wishing to purchase scholarships for them a year or more before their attendance at the University, can secure them by advancing one-half the price, and paying the balance when the student enters. Physicians and benevolent men can bestow great benefit upon poor young men, by presenting them a scholarship, and thus enabling them to obtain an honorable profession.

The Faculty embraces seventeen eminent physicians and surgeons. The University has associated with it a large hospital clinic, where every form of medical and surgical disease is operated on and treated in the presence of the class.

COLLEGE BUILDING.—The College building, located in Ninth Street, south of Walnut, is the finest in the city. Its front is collegiate gothic, and is adorned with embattlements and embrasures, presenting a novel, bold, and beautiful appearance. The facade is of brown stone, ornamented by two towers, rising to the elevation of eighty feet, and crowned with an embattled parapet. The building contains between fifty and sixty rooms, all supplied with water, gas, and every other convenience that modern improvement can contribute to facilitate medical instruction. Only five hundred scholarships will be issued, and as two hundred and fifty are now sold, those who wish to secure one should do so at once. Money can be remitted by express, or a draft or check sent on any National bank in the United States, when the scholarship will be returned by mail, signed by the President of the Board of Trustees, Jos. S. Fisher, Esq., and the Dean of the Faculty, W. Paine, M. D. All orders for scholarships or other business of the University, should be addressed to Professor W. Paine, M. D., Philadelphia, Pennsylvania.

ORIGIN AND HISTORY OF THE

BOOKS OF THE BIBLE,

BOTH THE

Canonical and Apocryphal,

Showing what the Bible is not, what it is and how to use it.

(New Testament.)

WITH ILLUSTRATIONS.

By PROF. CALVIN STOWE, D. D.

For more than thirty years Biblical Professor at Andover, Cincinnatti, and other Theological Seminaries, and acknowledged to be one of the

Best Informed Bible Students of the age.

This Work is one of Patient Research, Diligent Study, and Ripe Experience, being in fact

THE LIFE WORK OF THE AUTHOR.

IT WILL TREAT OF

1. The common popular objections to the Bible at the present day. What the Bible is Not, What it Is, and how to Use It.
2. The evidences upon which we receive the Sacred Books, and description of the Ancient Manuscripts of the New Testament, with fac-simile Illustrations.
3. Brief Biographies of One Hundred Ancient Witnesses of the New Testament, whose testimony is most important, much of it cited in this work.
4. The testimony for the Historical Books, and a full examination, separately, of the four Gospels.
5. The Apocryphal Gospels, and fragments of Gospels supposed to be lost.
6. Modern substitutes for the Gospel History, with an examination of the works of Strauss, Weisse, Gfrœrer, Bruno Bauer, F. C. Baur, Schenkel and Renan, intended to meet the undermining process with regard to the authority of Scripture, so prevalent at the present day.
7. Acts of the Apostles, the Apocryphal Acts and the fourteen Epistles of Paul. The Catholic and the Apocryphal Epistles. Revelation of St. John, and the Apocryphal Revelations.
8. The Bible Prophets and the Classical Oracles, contrasted.
9. The Apocryphal Books of the Old Testament, and the reason for their exclusion from the Canon.

It is a work of real value, not sectarian at all, not even Theological, but is just what it purports to be, a History of the Books of the Bible, sufficiently critical to meet the wants of the Professor, the Clergyman and the Student, and yet so simplified as to be the book needed by every Family and every Sunday School Teacher as the companion of the Bible.

This book is new and fresh from the pen of the author, who has long been urged to its preparation by Presidents of Colleges, and leading Ministers and Scholars of the various Christian Denominations, and has
