The bullion shipped East to-day from San Francisco amounted to $832,500.

The London advices did not amount to much, though reporting British consols easier. United States securities were steady to firm, Erie being quoted at 15. There are no quotations for money, but it is presumably easy. There was a reported withdrawal from the Bank of England to-day of £50,000. In Paris French rentes closed at 66.40; exchange on London being quoted at 25.13. As both Houses of Congress are practically out of session there was nothing new from Washington to help the Gold Room, and the speculation was very tame. The opening price was 114¼, and at this price the preponderance of the day's business was done, though there were a few transactions at 114⅛, and one or two at 114⅜, which was the late price. On gold loans the rates have been 2½, 2, 3, and 1 per cent for carrying and flat, borrowing. The foreign exchange market was strong and higher, and after opening at $4 84½@$4 88½, rates were raised to $4 85½@$4 89½. Business was close up to these prices. The Assistant Treasurer paid out $25,000 in coin interest, and $152,000 in called bonds. The day's business at the Gold Exchange Bank covered: Gold cleared, $21,759,000; gold balances, $1,123,500; currency balances, $1,301,995. We annex quotations of gold:

The local currency market is amply supplied with loanable funds, and the general rates on call are 4 and 5 among the stock brokers, and 5 and 6 among the banks and trust companies. Should any higher rates be demanded, there is a sufficient amount of new capital attracted to cause a reversion to the old figures. There is no change in the market for mercantile paper. The following was the Clearing-house statement: Currency exchanges, $76,772,250; currency balances, $3,716,478; gold exchanges, $3,801,143; and gold balances, $2,009,451.

Government bonds are strong for reasons already noted, but the dealings are slim. We annex closing street quotations:

GENERAL MARKET REPORT.

MONDAY, Dec. 13, 1875.

ASHES—There is still a difficulty on the part of holders to place their supplies, and quotations remain nominally 5c for Pots and 7c. for Pearls.

COFFEE—For Rio the market was quiet and lower at 18@18½c. for Ordinary cargoes, 19¼@19½c. for Fair, 19¾@20c. for Good, and 20¼@20½c. for Prime, all gold; Santos, 19@20c., gold; receipts of Brazil for a week past, 19,636 bags, and sales 1,610 bags. There were no sales noted to-day. The stock of Brazil at all ports is 281,351 bags, of which 147,039 bags are here, 8,043 in Baltimore, and 15,369 at New-Orleans. The total visible supply is 670,951 bags. Besides this, there is a large stock in second hands. Other descriptions of Coffee were quiet and without change; Maracaibo still quoted at 19¾@21½c. gold, and Java at 26@28c., gold.

COTTON—The market for the spot was without quotable change. There were some rather curious features of the market to-day. The receipts reached the unusually large quantity of 49,000 bales—the largest reported in one day for a long period, if it has ever been equaled. The effect was to cause buyers to withdraw from the market to a great extent, in anticipation of lower prices, quoters especially showing no disposition to purchase at the quoted figures, notwithstanding a very favorable report from Liverpool, where the market was active at an advance, and the firmness in foreign exchange here. At the close, prices weak, though not quotably lower. The receipts at the ports were 49,015 bales, against 30,507 bales last week, and 40,645 bales this day last year. The sales were 965bales, including 392 saturday evening, of which 92 bales were for export, 551 bales for consumption, and 322 for speculation. The following are the official quotations, which must be regarded as more nominal than otherwise:
