Agricultural.

Tennessee Farm Roads.

How many farmers in the county are now pulling through heavy mack roads with tired disheartened teams, strained, broken down wagons, lost time, lost temper, and, consequent loss of money, and lost courage, all for the want of a little forsight and work. In all of the collateral helps to a farm, next to a good fence, a good road is indicative of the intelligence and thrift of a farmer. It is not so much a want of knowledge in the construction of roads and their usefulness, as a want of system which has a place for every thing in its place—a time for doing every thing and doing it in time, which covers this defect. There are but few localities which do not afford material suitable for the construction o' good roads, and it is but a poor apology for a farmer to say he has not time, for he will waste much more time in pulling through a bad road than would require to build it and keep it in order. —*Banner.*

Care of Horses' Legs.

Few men who handle horses give proper attention to the feet and legs. Especially is this the case on the farms. Much times is spent of a morning rubbing, brushing and smoothing the hair on the sides and hips, but at no time are the feet examined and properly cared for. Now, be it known, that in this six thousand years' old world of ours the feet need more care than the body. They need ten times as much—for in one respect they are almost the entire horse. All the grooming that can be done won't avail anything if the horse is forced to stand where his feet will be filthy. In this case the feet will become disorderly, and then the legs will be badly out of fix, and with bad feet and legs there is not much else of the horse fit for anything. Stable prisons generally are terribly severe on the feet and legs of horses, and unless these, buildings can afford a dry room, where a horse can walk around, lie down and roll over, they are not half so healthy and comfortable to the horse as the pasture, and should be avoided by all good hostlers in the country.

Rules to Keep a Farmer Poor.

1. Not taking a good agricultural paper.

2. Keeping no account of home operations. Paying no attention to the maxim: "A stitch in time saves nine," in regard to the sowing of grain and planting of seed at the proper season.

3. Leaving the reapers, plows, cultivators, etc, uncovered from the rain and heat of the sun. More money is lost in this way than most people are willing to believe.

4. Permitting broken implements to be scattered over the farm until they are irrepairable. One of the seven wise men of Greece said only this to prove his sense: "The time to mend the plow is when the plow breaks."

5. Attending auction sales and purchasing all kinds of trumpery, because, in the words of the vender, the articles are "very cheap."

6. Allowing fence to remain unrepaired until strange cattle are found grazing in your fields and bruising the fruit trees.

7. Planting fruit trees with the expectation of having fruit, without giving the trees half the attention required to make them produce.

Clover as a Shade.

There is probably no other plant in the world of such value to the farmer for this purpose. It furnishes the most perfect protection to the soil during the fierce dry heats of summer. Being a constantly deciduous plant, its leaves are perpetually falling, and soon form a delicate covering for the entire soil, sufficiently thick for shade, and easily penetrated at all points by the air, which is the great carrier to the worn out soil of those atmospheric elements that are to enrich it. In this the clover plant not only contributes directly to the fertilizing of the soil, by giving its own substance to it, but it furnishes a protective covering to the entire ground, which encourages and stimulates those chemical processes by which the hungry and exhausted soil is recuperated from the vast supplies of nutriment that are held in the atmosphere. It becomes to the farmer the most valuable fertilizer in the world, as it imparts fertility to the entire soil.

To Keep Lard Sweet.

An Indiana correspondent of the Cincinnati *Gazette* writes: Everybody knows how to render lard; but everybody does not know that a handful of slippery-elm bark put in it while cooking will not only preserve it perfectly sweet for any length of time but will impart to it a most delightful flavor.—Try it everybody.

The Use of Lime in Wheat.

At a recent meeting of the St. Louis Farmer's Club, Alex. Porter expressed the opinion that the use of lime in growing wheat would be encouraged, but that its application, to be useful depended somewhat upon the character of the soil. If it be in a limy region, where there is comparatively little lime, or in a mineral or elevated region of the country, where the soil is mixed with sand, he thought that the sowing of lime would be beneficial. Three to five bushels to the acre would be a proper amount. He thought also that a mixture of plaster of Paris, say one bushel, would be valuable.

ALABAMA IMMIGRANT ASSOCIATION, Montgomery, Ala.

N. B.—A circular containing the result of the drawing will be sent to each subscriber.

Read what the Montgomery CITY PAPERS

That know the gentlemen, who are the managers and incorporators of this Association, have to say as to their reliability and honesty:

(From the Daily Alabama State Journal.)

The "Alabama Immigrant Association," chartered under the Laws of the State of Alabama, are making preparations to open a large office, not only in New York, but also in our city. They propose to give a series of Splendid Entertainments, the first of which will take place in our city on January 24th 1871, at which time they will give away One Hundred Thousand Dollars in greenbacks to holders of tickets to said entertainment. The American people are strictly a people of fortune; they like to take a chance at a big fortune for a small sum of money. This scheme affords them this opportunity. The first award and the highest is $25,000. The lowest is ten dollars. The price of tickets is only two dollars. When was such an opportunity presented to make a "pile" on such a small investment? The incorporators of the Association are Julien Homans and Otto Scherf, Jr., of New York, and J. G. Stokes and R. Greene, of Montgomery. For the benefit of the public we will state that the Association is perfectly solvent—the gentlemen who compose it are of character and integrity, and we believe they will see to it that the project is honestly and faithfully carried out.

(From the Montgomery Daily Mail.)

"In these days of fortune-making and fortune-hunting, there seems to be a perfect mania among all classes of our people to invest in anything that promises a "big thing." We are led to these remarks by noticing the formation, under the statutes of our State, of an Association for the promotion of European immigration into the Southern States. The incorporators are two well known and wealthy New Yorkers, Messrs. Otto Scherf, junior, and Julien Homans, and Messrs. J. G. Stokes and R. Greene, of Alabama. These gentlemen will faithfully carry out the designs of the Association, which proposes to give a series of magnificent entertainments, at the first of which one hundred thousand dollars in currency will be given away to holders of tickets, in sums ranging from $10 to $25,000. The Company will open their Montgomery office at once.

Ayer's Cathartic Pills,

For all the purposes of a Laxative Medicine.

Perhaps no one medicine is so universally required by everybody as a cathartic, nor was ever any before so universally adopted into use, in every country and among all classes, as this mild but efficient purgative *Pill*. The obvious reason is, that it is a more reliable and far more effectual remedy than any other. Those who have tried it, know that it cured them; those who have not, know that it cures their neighbors and friends; and all know that what it does once it does always—that it never fails through any fault or negligence of its composition. We have thousands upon thousands of certificates of their remarkable cures of the following complaints, but such cures are known in every neighborhood, and we need not publish them. Adapted to all ages and conditions in all climates; containing neither calomel nor any deleterious drug, they may be taken with safety by anybody. Their sugar-coating preserves them ever fresh, and makes them pleasant to take, while being purely vegetable, no harm can arise from their use in any quantity.

They operate by their powerful influence on the internal viscera to purify the blood and stimulate it into healthy action—remove the obstructions of the stomach, bowels, liver, and other organs of the body, restoring their irregular action to health, and by correcting, wherever they exist, such derangements as are the first origin of disease.

Minute directions are given in the wrapper on the box, for the following complaints, which these *Pills* rapidly cure:—

For **Dyspepsia** or **Indigestion, Listlessness, Languor** and **Loss of Appetite**, they should be taken moderately to stimulate the stomach, and restore its healthy tone and action.

For **Liver Complaint** and its various symptoms, **Bilious Headache, Sick Headache, Jaundice** or **Green Sickness, Bilious Colic** and **Bilious Fevers**, they should be judiciously taken for each case, to correct the diseased action or remove the obstructions which cause it.

For **Dysentery** or **Diarrhœa**, but one mild dose is generally required.

For **Rheumatism, Gout, Gravel, Palpitation of the Heart, Pain in the Side, Back** and **Loins**, they should be continuously taken, as required, to change the diseased action of the system. With such change those complaints disappear.

For **Dropsy** and **Dropsical Swellings** they should be taken in large and frequent doses to produce the effect of a drastic purge.

For **Suppression** a large dose should be taken as it produces the desired effect by sympathy.

As a *Dinner Pill*, take one or two *Pills* to promote digestion and relieve the stomach.

An occasional dose stimulates the stomach and bowels into healthy action, restores the appetite, and invigorates the system. Hence it is often advantageous where no serious derangement exists. One who feels tolerably well, often finds that a dose of these *Pills* makes him feel decidedly better, from their cleansing and renovating effect on the digestive apparatus.

Manhood; how lost; how Restored.

Just Published a new edition of DR. CULVERWELL'S CELEBRATED ESSAY on the Radical Cure (without medicine,) of Spermatorrhœa or Seminal Weakness or Involuntary Seminal Losses, Impotency Mental and Physical Incapacity, Impediments to Marriage, etc.; also Consumption, Epilepsy and Fits, induced by self-pollution or sexual extravagance.

Price in a Sealed Envelope only 6 *cts.*

The celebrated author, in this admirable essay, clearly demonstrates from a thirty years' successful practice, that the alarming consequences of self-abuse may be cured without the dangerous use of internal medicine or the application of the knife; pointing out a mode of cure at once simple, certain, and effectual, by means of which every sufferer, no matter what his condition may be, may cure himself cheaply, privately and *radically*.

The Great Medical Discovery!
Dr. WALKER'S CALIFORNIA
VINEGAR BITTERS,

Hundreds of Thousands Bear testimony to their wonderful Curative Effects.

WHAT ARE THEY?

They are a Gentle Purgative as well as a Tonic, combining the peculiar merits of acting as a powerful agent in promoting the Secretions when required to do so, and at the same time a Tonic to impart strength to the system.

For Female Complaints, in Young or Old, married or single, at the dawn of womanhood or the turn of life, these Tonic Bitters are unequaled; are suitable in all forms of disease.

Cleanse the Vitiated Blood whenever you find its impurities bursting through the skin in Pimples, Eruptions, or Sores; cleanse it when it is foul, and your feelings will tell you when. Keep the blood pure and the health of the system will follow.

PIN, TAPE, and other WORMS, lurking in the system of so many thousands, are effectually destroyed and removed.

For full directions, read carefully the circular around each bottle, printed in four languages—English, German, French, and Spanish.

THEY ARE NOT A VILE

FANCY DRINK,

Made of Poor Rum, Whiskey, Proof Spirits, and Refuse Liquors, the cheap, fiery, and maddening Liquors that intoxicate, called "Tonics," "Appetizers," "Restorers," &c., that leave the victim to drunkenness and ruin, but are a true Medicine, made from the Native Roots and Herbs of California, free from all Alcoholic Stimulants. They are the GREAT BLOOD PURIFIER and LIFE GIVING PRINCIPLE, a perfect Renovator and Invigorator of the system, carrying all poisonous matter, and restoring the blood to a healthy condition. No person can take these Bitters, according to directions, and remain long unwell.

$100 will be given for an incurable case, provided the bones are not destroyed by mineral poisons or other means, and the vital organs are not beyond the power of repair.

For Inflammatory and Chronic Rheumatism, and Gout, Dyspepsia, or Indigestion, Bilious, Remittent and Intermittent Fevers, Diseases of the Blood, Liver, Kidneys, and Bladder, these Bitters have been most successful. Such Diseases are caused by Vitiated Blood which is generally produced by derangement of the Digestive Organs.

They invigorate the stomach, and stimulate the torpid liver and bowels, which render them of unequaled efficacy in cleansing the blood of all impurities, and imparting new life and vigor to the whole system.

Dyspepsia or Indigestion, Headache, Pain in the shoulders, Coughs, Tightness of the Chest, Dizziness, Sour Stomach, Bad Taste in the Mouth, Bilious Attacks, Palpitation of the Heart, Copious Discharges of Urine, Pain in the regions of the Kidneys, and a hundred other painful symptoms which are the offsprings of Dyspepsia, are cured by these Bitters.

Cleanse the Vitiated Blood whenever you find its impurities bursting through the skin in Pimples, Eruptions, or Sores; cleanse it when it is foul, and your feelings will tell you when. Keep the blood pure and the health of the system will follow.

PIN, TAPE, and other WORMS, lurking in the system of so many thousands, are effectually destroyed and removed.

NEW ADVERTISEMENT.

TO PHYSICIANS.

NEW YORK, August 15th, 1868.

Allow me to call your attention to my

Preparation of Compound Extract Buchu.

The component parts are BUCHU, LONG LEAF, CUBEBS, JUNIPER BERRIES.

MODE OF PREPARATION.—Buchu, in vacuo, Juniper Berries, by distillation, to form a fine gin. Cubebs extracted by displacement with spirits obtained from Juniper Berries; very little sugar is used, and a small proportion of spirit. It is more palatable than any now in use.

Buchu, as prepared by Druggists, is of a dark color. It is a plant that emits its fragrance; the action of a flame destroys this (its active principle), leaving a dark and glutinous decoction. Mine is the color of ingredients. The Buchu in my preparation predominates; the smallest quantity of the other ingredients are added, to prevent fermentation; upon inspection, it will be found not to be a Tincture, as made in Pharmacopœia, nor is it a Syrup—and therefore can be used in cases where fever or inflammation exist. In this, you have the knowledge of the ingredients and the mode of preparation.

Hoping that you will favor it with a trial, and that upon inspection it will meet with your approbation,

With a feeling of confidence,

I am, very respectfully,

H. T. HELMBOLD,
Chemist and Druggist,
of 16 Years' Experience.

[From the Largest Manufacturing Chemists in the World.]

NOVEMBER 4, 1854.

"I am acquainted with Mr. H. T. HELMBOLD; he occupied the Drug Store opposite my residence, and was successful in conducting the business where others had not been equally so before him. I have been favorably impressed with his character and enterprise."

WILLIAM WEIGHTMAN,
Firm of Powers & Weightman,

Ninth and Brown Streets, Philadelphia.

Helmbold's Fluid Extract Buchu

Is the great specific for Universal Lassitude, Prostration, &c.

The constitution, once affected with Organic Weakness, requires the aid of Medicine to strengthen and invigorate the system, which HELMBOLD'S EXTRACT BUCHU invariably does. If no treatment is submitted to, Consumption or insanity ensues.

Helmbold's Fluid Extract of Buchu,

In affections peculiar to Females, is unequalled by any other preparation, as in Chlorosis, or Retention, Painfulness, or Suppression of Customary Evacuations. Ulcerated or Schirrus State of the Uterus, and all complaints incident to the sex, or the decline or change of life.

Helmbold's Fluid Extract Buchu and Improved Rose Wash

Will radically exterminate from the system diseases arising from habits of dissipation, at little expense, little or no change in diet, no inconvenience or exposure; completely superceding those unpleasant and dangerous remedies, Copaiva and Mercury, in all these diseases.

USE

Helmbold's Fluid Extract Buchu

In all diseases of these organs, whether existing in male or female, from whatever cause originating, and no matter of how long standing. It is pleasant in taste and odor, "immediate" in action, and more strengthening than any of the preparations of Bark or Iron.

Those suffering from broken-down or delicate constitutions, procure the remedy at once.

The reader must be aware that, however slight may be the attack of the above diseases, it is certain to affect the bodily health and mental powers.

All the above diseases require the aid of a Diuretic. HELMBOLD'S EXTRACT BUCHU is the great Diuretic.

Sold by Druggists everywhere. PRICE—$1.25 per bottle, or 6 bottles for $6.50. Delivered to any address. Describe symptoms in all communications.

DEATH BY LIGHTNING.

THIS has become so common of late, as to be almost a standing notice. Not a year passes but numerous souls are hurled into the great ocean of eternity, by this destructive element without a moments warning in which to prepare for the awful change.

The American Lightning Rod Company are now prepared to secure Houses, Barns and other buildings with that fine carbonized Rod and gold point, at a very low rate, and on terms to suit all.

Prof. Presnell of the Jonesboro Female Institute, in urging upon the community the necessity of securing their houses and families from that destructive element, says: "I take great pleasure in recommending the carbonized Rod used by the American Lightning Rod Company, with the large Copper Gold plated point, as being the most PERFECT PROTECTIVE I have examined."

All orders addressed to me will be promptly attended to, and all work warranted.

HOG CHOLERA!

A Sure Cure for It.

THE UNDERSIGNED has discovered a sure and emphatic remedy for HOG CHOLERA—a disease which has carried off thousands of the very best stock in the country. He has been experimenting for over a year, and has never yet failed—never in 40 cases where hogs had ceased eating. Most farmers or stock-raisers would not pay a small sum for this most valuable receipt—which is within the reach of the poor as well as the rich. Price for a receipe for one family's use, $2. Address, (enclosing amount,)
