TOBACCO—There has been a fair demand for Seed Leaf at about steady prices; sales, 1,000 cases, including 300 cases York, crop of 1869, at 7@13½c.; Wisconsin, do., 7@12c.; Connecticut and Massachusetts, crop of 1869, at 7@10c.; also, New-York, do., 7½@35c., and sundry kinds at 7@12½c.; also, 300 bales Havana at 80c.@$1 15. Kentucky dull and unchanged; sales, 200 hhds. at 7@8c.

WHALEBONE—The market for all kinds has been quiet but prices firm; Arctic quoted at $1 1½, and South Sea, $1 05, both gold.

WHISKY—Market dull; sales, 100 bbls. at $1 11½, closing with sellers at $1 11 ⅌ gallon.

WOOL—As usual during and just after the holidays, only moderate sales are effected, and this was never more apparent than at the present writing; not but what manufacturers are disposed to take hold, but they demand some concession from dispaired to take hold, but they demand some concession from present prices; holders generally are adverse to accepting these terms, but their reluctance is especially prominent when Fleece and Pulled Wools are considered; California and South-ern Wools are not so steady, but the general feeling is that the moderate supplies will not warrant any decline. Foreign Wools are generally quiet, and some weakness is noticeable, but no decided reduction has taken place. We quote:

N. Y. WHOLESALE PRICES OF COUNTRY PRODUCE.

FOR THE WEEK ENDING JAN. 11, 1876.

[Expressly for THE N. Y. TRIBUNE, by our own Reporter.]

General Directions.

Send only good articles. The freight and other expenses eat up poor goods. Put everything in good order. An attractive look secures examination, and often makes a sale where a dirty package or a shrivel, appearance fails. Pack securely, so that the article will not allow the contents to change about. Use the best; it will not allow the contents to change about. Use plenty of *clean dry* fine cut straw with eggs. Mark plainly with *pencil*—a stencil plate is best—and note contents on the box or barrel, stating the amount, also. Send a letter at the same time, stating what is sent, the route, time, &c. All in voice or list should also be inclosed in barrel or box. Always state the number of packages. Secure for yourself a reputation for fine goods, put in best shape, so that your mark is in demand.

BEANS AND PEAS.

Receipts for the week: Beans, 1,833 bbls.; do. last week, 2,344 bbls.; exports past week, 1,728 bbls. Receipts of peas, past week, 91,129 bush.; exports past week, 14,611 bush. The bean market is quite a trifle firmer, most of the trade being in narrows for shipping. Our range is somewhat wide, according as sold on the track or delivered on board for shipping. One lot of 72 bbls., sold on track, good nearn brought $1 67½, while 200 bbls., delivered free on board steamer, brought $1 75; another lot of 100 bbls. sold a 50 bbls. lot, both to the trade here, at $1 70. In a small way they are jobbed out at $1 75 from store. Medium are rather quiet. We note three lots, one of 100 bbls., one of 25 bbls., and one of 50 bbls., all at $1 45, and two lots Michigan, amounting to 185 bbls., at $1 35. There is very little inquiry for pea beans. Limas are very dull. Some Californias have been sold at ⅌ bush., while choice Jerseys are pushing out at $3. Green peas are lower; a sale of 100 bbls. at 50 did lot are reported at $1 65, with small lots from store at $1 65. Canadian peas declined abroad, which lessens their value here, as heavily adverse shipped for food, and to split; a lot of 4,000 bush. sold a few days since at $1 02, but there is a further decline to-day. BUTTER.

Receipts for the week, 17,775 packages; do. last week, 18,991 do. Exports past week, 157 packages. While there is a good inquiry for the half tubs taken from prime dairies, and a fair inquiry for good State dairies entire, as well as for fine Western butter, all other kinds are neglected, and the feeling is weak. Rolls are decidedly lacking and are offered at lower range. Of the State dairies we note one from Delaware County, 58 half tubs and 10 firkins, very fine, sold at 33½c.; a nice lot, the Chenango at 29c.; another of 10 half tubs and 14 firkins at 31c.; two fine Delaware, one of 19 half tubs and 12 firkins, and the other of 19 half tubs and 19 firkins, large, as 30c.; two small Cortland County dairies at 31c.; selections of 100 half tubs at 35c. Of medium State we have 36 half Welsh tubs at 26c.; 16 good Welsh and 17 firkins at 27c.; 22 Winfield tubs at 26c. Fancy Western rolls are quoted at 32@35c.; 24 pkgs. common Western at 18c.; 19 do., 19@20c.; 50 firkins June lows, 21c.; 25 half bbls. Northern Missouri rolls, 22@23c.; 10 half bbls. CHEESE.

Receipts for the week, 9,712 boxes; do. last week, 16,928 do.; exports past week, 4,584 do. Liverpool cable quotations, 56s. All hands we have an advance of 2s. abroad, but as this was looked for, the advantage had already been discounted, so that prices here are really not affected. Without a firmer tone on the other side our markets would doubtless show a weakness, for the season is given to receipts now, and the bulk of cheese here is large. Mr. Chas. Holland has, with a great deal of care and labor, taken the stock on hand here Jan. 1, and makes it 251,800 boxes, which is larger in excess of what it was at this time last year. There are such various and widely differing estimates of the absent back. We hope to get something near the real amount after the Dairymen's Convention, commencing to-morrow. Of late prices have been quite erratic one week, fancy ship grades are now selling cheaper than a week ago, while ship grades are now selling cheaper than a week ago, while ship grades are now selling cheaper more freely, viz.: 500 boxes at 12c., the cheese; 1,500 boxes at 12½@12c.; 1,400 boxes at 12½@12c. A few other and smaller sales to hence trade; 50 boxes full stock cheese at 12½c.; 60 boxes late at 12½c.; 40 boxes late at 12c.; 40 boxes full cloth, 11½c.; and 50 boxes early skim, 10½c., in all 1,000 boxes. Of late the sales were quite small for a week. They promise to be much larger this week. From Canadian markets it is shown that the make there is about 250,000 ⅌ more than the previous year. EGGS.

Receipts for the week, 6,013 bbls.; do. last week, 5,847. The effects of the late warm weather, extending over a large portion of our country, set the market worse, and the result is larger receipts. Southern eggs, especially, came in quite freely, not always in good condition, owing to warm, damp weather. Another complaint of dealers is that added eggs are sent here, and it is well known that they will not keep after taking them from the salt. Better lines than at opening have sold a little more freely, and a lot of Western fresh sold at 27c. Good fresh are scarce, and keep well up to the price of fresh. Quotations:

FRUITS.

Exports of apples past week, 300 bbls. Apples move slowly and prices are less firm. Many lots turn out badly and go at low prices, one lot at 25c. ⅌ bbl. A few sales are 179 bbls. at $2 80; 120 bbls. at $3, and 50 at $3 50. Florida oranges are about done for the season. The last arrivals were in very poor order, rolling on the way. Only Easter, pears, and Round pears (California) are left. They sell slowly at $4@$6 per box. Dates are quiet. Citrons are nominally nominal with a fair demand. Very few good grapes are here, they find little inquiry. We quote:

FRUITS AND NUTS—DRIED.

Receipts of dried fruit for the week, 146 pkgs.; 509 pkgs. pecans, and 1,135 of peanuts. Shipments of dried apples, 53 bbls. Dullness still characterizes the dried apple market, but prices are firm, as it is believed that all will be wanted; a few scattering bbls. fancy Southern slices have been sold at 14c. Peeled peaches are heavy; unpeeled scarce. Evaporated are still held above what they can be moved at; they would sell at 23@25c., but are held at 30c. A small sale of State plums, not prime, was made at 18c., with 2,000 ⅌ and a 5-bbl. lot of cherries at 22½c. Peanuts are higher. Roasted nuts variable in price; lots offering at $1. HOPS.

Receipts for the week, 2,790 bales; do. last week, 2,160 bales; exports, 1,052 bales. These increased receipts and free shipments show more activity in the markets. We do not alter quotations, but the margin between shippers and holders is gradually lessening. If shipments continue free for a few weeks, prices will doubtless advance. Several old lots have been picked up, thus relieving the market of some that have been holding for a long time. We note sales of 40 bales old, fair hops at 9c.; 70 bales of fair State at 10c.; 50 bales good Western at 12½c.; a straight growth of 42 choice State, 14½c.; 50 bales fancy at 15c.; 31 bales old Wisconsin, 7c.; 28 bales old State, good, at 7½@8½c. MEATS.

Receipts of Western dressed hogs, 2,269; shipments of cut and salt meats for the week, 8,831 boxes bacon, 1,137 bbls. and barrels beef, 1,005 bbls. pork, and 300 packages lard. Meats have generally advanced. There is still some Western dressed beef, which is really not fit to eat on account of staleness; it is offering very low. Fresh receipts move quickly, but some of the poorer grades were offered at 8c. Western dressed hogs, small of order are selling at 8½@9c. Quotations:

POULTRY AND GAME.

Dressed poultry continued firm, with rather advanced rates, up to yesterday. Now, with fair receipts and a moderate demand prices are weaker though somewhat unsettled. Most game is scarce. Grouse and quail are higher. Only State partridges already here can be sold without violating the game law. Venison is helped by the present cool weather, still there is too much here, considerable of it in an unsalable condition; a large lot was sold at 20c. ⅌ lb., there are no fixed prices as variable as the condition; a few fresh short saddles, Minn., sold at 12c. but most sales of prime are at 10c. saddles were sold at that price. There is no sales for squirrels; a lot of 500 went at 1c. each. Live poultry is generally doing better; there is a good inquiry for geese. Quotations:

THE DRY GOODS TRADE.

NEW-YORK, Tuesday, Jan. 11, 1876.

DOMESTIC GOODS—During the week the business of the commission houses consisted mainly of making deliveries on account of previous orders. Jobbers were chiefly engaged in stock taking and closing business for the year. Business changes were few, and we continue to be informed of partnerships and the admission of junior partners. The jobbing trade ruled very quiet, and the week's distribution was exceptionally small. Staple domestic fabrics are in smaller supply than usual at this season in jobbers' hands, and reassortments will become necessary before long.

COTTON GOODS—There was no special movement in any department though small sales of the most staple productions were readily taken by jobbers in the interior. Prices ruled nominally steady. Following the recent break in leading makes of the bleached cotton the Utica Steam Mills goods were marked down to attract buyers. Sales of medium qualities have been checked by these reductions. Leading makes of imported good cottons were reduced to 37½c. The operations of converters have not been so active as in the usual time in this season, while jobbers have not been in a position to enter the market for large purchases. In the jobbing trade, the greater portion of their heavy purchases of November and December remaining still in their hands.

BROWN SHEETINGS AND SHIRTINGS—Leading heavy standard and fine brown sheetings were in moderate demand. The Utica Steam Mills white sheetings were marked down 2c. per yard, viz.: 36-inch, 32c.; do. 38-inch, 30c.; do. 40-inch, 35c.; do. 44-inch, 37c.; do. 48-inch, 39c.; do. 36-inch, 1 yd., less trade discount. These quotations to hold good until the present stock has been disposed of.

BLEACHED SHEETINGS AND SHIRTINGS ruled sluggish, apart from a liberal distribution of most makes of fine sheetings to commission houses on the regular terms at which they were offered. Unbleached sheetings were in fair request. We quote: 4-4 Lonsdale, 16c.; do. Ontario, 16½c.; do. Pepperell, 17c.; do. Wamsutta, 17c.; do. Hill's, 16½c.; do. Utica, 16½c.; do. Utica Steam Mills, 16½c.; do. Utica Mills, 16½c.; do. Utica Extra, 17½c.; do. Utica Extra Ex. Ex., 18
