WEDNESDAY, March 15—P. M.

The movement in the railway and miscellaneous shares to-day was active, but by no means so lively as yesterday, nor accompanied by a title of the excitement. At the start prices were fully as high as they were last night, and, imbued with the feverish force attained then, there was an advance in all the list which looked like firmness toward noon. There were no new developments in regard to the bank failure of yesterday, and no stories or reports afloat calculated to affect other local institutions, though there was much in the atmosphere tending to prevent any feeling of confidence in stocks, and while there was no pressure against any particular item of the list, unless we except Erie, which was sold quite freely because of the fact that the contract for a third rail had not been signed, the market assumed a drooping condition in the afternoon and prices reacted materially, closing, however, as a rule, at the best prices of the day. The principal dealings were in Lake Shore, Erie, Pacific Mail, St. Paul, Western Union Telegraph, Ohios, and Michigan Central. Investment stocks were dull, New-York Central selling at 115¾, Morris and Essex at 105@105¼, New-York, New-Haven and Hartford at 157, and Delaware, Lackawanna and Western at 119. The light fancies were quiet, and express shares neglected. Quicksilver Common sold at 18¼. The general market closed quiet but strong and advancing, under the lead of Pacific Mail, which advanced 2 per cent to 23⅝. The following table shows the

This has been the regular fortnightly settling day on the London Stock Exchange, and securities were firmer while feverish, both United States and British, while Erie advanced from 18 to 18⅝, and then declined to 17½. Preferred closing at 31@31½. There is no quotation given for money. In Paris Rentes went up to 66.92½. The foreign advices did not affect gold particularly, and this market was only moderately active all day. The opening prices were 114⅜, the point to which it declined last night, but it quickly stiffened to 114⅝ and then fell to 114½, remaining there all the remainder of the day, the movement having attracted but little attention. The disturbance in the money market was reflected on gold loans, when 4, 4½, 5, 5½, 6, and 7 per cent were paid to have balances carried. The foreign exchange market was very firm at quotations, the selling rates being close up to the nominal asking rates. The Assistant Treasurer paid out $20,000 in coin interest and $136,000 in redemption of called bonds. The day's operations at the Gold Exchange Bank covered: Gold cleared, $57,896,000; gold balances, $1,757,973; currency balances, $2,103,751. The principal gold quotations were:

The day's business at the U. S. Sub-Treasury was as follows:

The money market was somewhat disarranged by the bank trouble yesterday, and the action of certain other banks in calling in loans. The early rates were 6 and 7 per cent, and in isolated cases a higher price was charged, but there was abundance of money offering. There is more scrutiny of mercantile paper, but otherwise there were no changes noted in discounts. The United States Treasury to-day received $300,000 National bank notes for redemption. The Customs receipts at Washington amounted to $500,000. The Internal Revenue receipts footed up $200,000. The following is the Clearing-house statement: Currency exchanges, $76,008,714; currency balances, $5,239,672; gold exchanges, $1,201,758; gold balances, $698,738.

There was but little doing in the market for United States bonds, the sales being of limited amount. The general tone of the market was steady and firm. We annex closing street quotations:

In Southern State bonds, District of Columbia 3.65s were firm at 74½, the Sub-Treasury here now paying the interest on the bonds. Plain 6s of Missouri were firm at 101; old Tennessees selling at 43, and New-York County bonds at 107⅝.

In city bank stocks American Exchange (50) sold at 114, and Central National (28) at 100@109⅝. For the Bank of the State of New-York 30 is bid, 95 asked.

Railroad bonds were moderately active, with the business well distributed between the St. Paul, North-West, Wabash, and Pacific mortgages.
