READING RISES AND FALLS

Reduction in Bank of England Discount Rate Important Factor on Exchange.

(By Associated Press.)

NEW YORK, March 9.—There was a distinct revival of speculative enthusiasm in stocks to-day and a considerable expansion in the volume of the market was an accompaniment. The most effective factor upon sentiment was the awakened strength in the group of railroad stocks which have figured in the most industriously circulated of the rumors in regard to combinations and mergers. There was no authoritative news regarding the plans to-day, but the demand for the stocks relieved the market from some of the repressive influence due to their lethargy. Yesterday's active speculative movement in Reading was also carried over into to-day's dealings, and that stock was run up to within a shade of par. The only motive assigned for the rise was a rumor that the dividend rate would be advanced to 4 per cent. There was a very striking movement also in a group of the metal stocks, led by Smelting. The United States Steel stocks were again conspicuously laggard, although reports from that trade continued brilliant. The favorable ground work to which the various operations owed their success had as the principal element the reduction in the official discount rate of the Bank of England from 3 per cent. to 2 1-2 per cent.; a rate lower than has been touched since before the Boer war. The lowering of the rate is equivalent to a proclamation that urgent requirements upon capital have been met and that relaxing money conditions in the world's market are to be looked for. The realizing on the advance made some alteration in the day's best prices, and lending especially met such heavy pressure just below par that it fell back to below last night. The closing dealings were in consequence slightly irregular.

Bonds were firm. Total sales, par value, $5,130,000. United States 2s advanced 1-8 per cent. on call.

The total sales of stocks for the day amounted to 1,320,000 shares.

BALTIMORE STOCK MARKET.

BALTIMORE, MD., March 9.—Seaboard Air Line common, 18¼; do., preferred, 37½@40.

COTTON MARKET.

NEW YORK, March 9.—The cotton market was moderately active as compared with recent standards, but after early firmness turned easier under realizing and local bear pressure, and closed within a point or two of the bottom.

The opening was steady at an advance of 2@3 points in response to better cables and further rains in the South. In spite of indications for clearing weather to-night and to-morrow and large estimates for to-morrow's receipts the market following the call continued to advance on a little demand from spot houses and buying attributed to leading Wall Street shorts. After working up to a net advance of about 5@6 points, or around 7.57 for May, offerings increased owing to the profit-taking of yesterday's buyers, and in the afternoon some of the local scalpers took the short side in what the room thought to be an effort to shake out some recently formed long accounts. The market yielded slowly to pressure, but gradually worked off, notwithstanding reports of higher spot markets in the South, with prices just about losing the gains of the previous day. The close was steady at a net decline of 5@7 points. Sales were estimated at about 150,000 bales.

Receipts at the ports to-day were 21,942 bales against 19,548 last week and 4,061 last year. For the week (estimated) 165,000 bales against 157,817 last week and 51,283 last year. To-day's receipts at New Orleans were 7,593 bales against 1,727 last year, and at Houston, 7,050 bales against 1,232 last year.

Consolidated at all ports—Net receipts, 143,836 bales; export to Great Britain, 35,798 bales; to France, 9,764 bales; to the Continent, 39,071 bales; to Japan, 29,408 bales; to Mexico, 800 bales.

Total since September 1st at all ports—Net receipts, 7,594,959 bales; export to Great Britain, 2,701,356 bales; to France, 650,768 bales; to the Continent, 2,313,880 bales; to Japan, 140,460 bales; to Mexico, 22,935 bales.

Futures opened quiet and steady with prices unchanged from last night's finals. Soon after the opening there was a fair demand and prices advanced 5@4 points, but profit-taking by weak longs soon sent prices well below the opening figures.
