109⅛@109⅝. Of the coal carriers, Delaware, Lackawanna and Western was a trifle better at 107½ on the declaration of the dividend, while Delaware and Hudson was barely steady at 105¼. Central of New-Jersey, however, was weak, and after selling at 74¼ declined to 73¼@73⅜. The sudden and unexpected decline of 10 per cent, within a few days, in the price of the Lehigh and Wilkesbarre Coal Company's consolidated bonds (they sold at 81 to-day) undoubtedly has a depressing influence upon this stock. For the information of THE TRIBUNE'S readers it may be stated that by last official reports the outstanding bonds of the Lehigh and Wilkesbarre Company, guaranteed by the Central Railroad of New-Jersey, were as follows: First mortgage sterling 6 per cents of 1874, 25 years, for $10,000,000, and consolidated mortgage 7 per cent for $5,000,000. Of the latter issue the Central Railroad of New-Jersey reported on Jan. 1 as among its assets $4,783,350. Of course a decline of 10 per cent in so large a proportion of its assets materially affects the market value of its own stock. Pacific Mail was neglected at 24⅞@25¼. The market, although closing strong at near the highest prices of the day, is still without outside support, and probably not a single share of stock has been bought to-day (outside of that purchased to cover short contracts), except with the intention of selling it before the three days' recess of the Stock Exchange. The advances at the close on the final prices of yesterday were in Erie and Wabash each ⅛; A. and P. Telegraph, Delaware, Lackawanna and Western, St. Joseph, Pacific Mail, and Rock Island, each ¼; North-Western Preferred, Ohio and Mississippi, and Producers' Petroleum, each ⅜; Michigan Central, ⅝; St. Paul, ¾; North-Western Common and St. Paul Preferred, each ⅞; C., C., C. and I., 1; Lake Shore, 1½; N. Y. Central and Hudson, 1¾; Union Pacific, 2, and Western Union, 2⅜ per cent. N. J. Central alone declined to the extent of ⅝ per cent. The following table shows the

The foreign advices report all the Continental Bourses flat, the outlook of the Eastern question being anything but encouraging. In Frankfort United States new Fives were quoted at 102⅛. In London Consols were feverish, and declined from 94⅛ to 93 15/16, then reacted to 94 1/16, closing for both issues at 94@94⅛. The United States bonds were a shade easier, while Erie closed lower at 12¾ for Common and at 18 for Preferred. Money was easy in the outside market at 1¼ per cent for three months bills, the rate at the Bank of England, which reports a bullion increase of £98,000, being 2. This was settling day on the London Change. In Paris the five per cent Rentes declined to 105. The foreign exchange market was quiet but strong, and rates are given below. The actual selling rates were on the basis of $4 87½@$4 87¾ to the £ for sixty days bills, and $4 89¾@$4 90 for sight. The outward bound steamers to-day sailed with $250,000 gold coin. The gold market was firmer, and sales were at 112¼@112⅜, despite the few payments of July coin interest, and considering this and the fact that the lending rates for cash gold were flat, 1 per cent for borrowing and 1 and 2 for carrying, it is evident that the short interest was much more important than had been supposed. The Assistant Treasurer paid out $1,644,000 in July coin interest, a total of $5,351,000, and $10,000 in redemption of called bonds. The day's business at the Gold Exchange Bank covered: Gold cleared, $20,840,000; gold balances, $1,188,254; currency balances, $1,730,913. The principal gold quotations were:

The supply of money offering on call is in excess of the street requirements, and call loans are done at 2@3½ per cent to borrowers on street collateral, and at 1½@2 on United States bonds. Discount is slow at 4 per cent and upward. The United States Treasurer to-day received $1,000,000 National bank notes for redemption. The Customs receipts at Washington to-day were $360,000. The Internal Revenue receipts footed up $200,000. The following is the Clearing-house statement to-day: Currency exchanges, $46,414,145; currency balances, $3,094,782; gold exchanges, $4,390,351; gold balances, $1,510,452.

United States securities were more active and firmer under the combined influence of advancing gold and the reinvestment of the July interest now being paid out. Registered Sixes of 1881 sold at 119¾, Coupon at 123⅝, Coupon Old 1865s at 116, Registered "Andys" at 117⅝, Coupon 1867s at 122⅝, Registered Ten-Forties at 117¾, and Registered New Fives at 117⅞. There was a more active business in railroad bonds, the Pacifics being lower, Central Firsts at 110; do., California and Oregon branch at 94¾; Union Firsts, 106¼@106; do. Land Grants at 101⅛, and Westerns at 102½@102⅝. The Firsts of Missouri Pacific advanced to 98. Harlem Firsts fell off ½ to 118, while Lehigh and Wilkesbarre Consols, indorsed by the New-Jersey Central, declined to 82@81. St. Pauls were easier; Firsts, La Crosse Division, at 104¾, and Sinking Fund at 93¼. North-Western Consols being steady at 103¾. Seconds of Albany and Susquehanna sold at 108¾, and Mississippi and Ohio Consolidated S. F. at par. In State bonds there was a smart decline in Louisiana Consols to 68¾. Old North Carolinas selling at 15. The old and the new series Tennessee were strong and in demand at 46½. The only transaction in city bank stocks was 10 Hanover at 80.

MINING INTELLIGENCE.

The prominent San Francisco shares are down again to-day without cause, so far as we can learn, except the absence of many of the wealthier bull operators. The production of ore goes on at about the old rate and the holders of dividend-paying shares are easy and contented. The lesser and purely speculative shares are without material change. California Company continues to turn out 350 tons of ore daily; Consolidated Virginia, 500; Crown Point, 150; Ophir, 300; and Gould and Curry, 400. The shipments of bullion from the California mine on the 17th were of the value of $59,100, and from the Consolidated Virginia, $78,140.

Mining for quicksilver is being prosecuted with increased vigor, the Excelsior Company in the Inyo District working two shifts of hands night and day. A tunnel is being run along the side of the vein to connect with the shaft for the purpose of ventilation, and as soon as the connection is made the work of taking out ore will commence. The furnace has been put in order, and will be ready to reduce the ore as fast as produced. The Missouri Mine is idle, and the Rattlesnake doing but little, while the Oakland is reported as working 50 men and turning out much quicksilver. The Geyser Furnace is to be turned over to the Kentuck Company, whose managers are said to be highly elated with their present work and their prospects.

Letters from the gold and silver mines of Nevada indicate unabated activity in that quarter. The prospecting on the Raymond and Ely is not of an encouraging character, and the production of ore has fallen to 12 tons per day of rather low grade, and the mill is stopped for the time being for want of material. On the Justice, Dayton, Northern Belle, Wyoming, Comanche, Gen. Imperial, Overman, Chollar, Julia, and other advanced mines, work in all departments seems to be going on satisfactorily.

### GENERAL MARKET REPORT.

WEDNESDAY, June 28, 1876.

ASHES—There were no changes, and only a moderate jobbing trade was done at 5c. for Pots, and 6½c. for Pearls. Stock of Ashes in the inspection warehouse: 1st sort Pots, 362 pkgs.; 2d do., 86; 3d do., 14; condemned, 12; total, 565; 1st sort Pearls, 177; 2d do., 10; 3d do., 1; total, 188; grand total, 1,154 bbls.

COFFEE—There was only a moderate jobbing business done in any description of Coffee. Rios and the market was unchanged. Rio was still quoted at 15½@18c. for ordinary to fair cargoes, and 15½@19c., gold, these being firm quotations; Java, 19@22c.; and Maracaibo, 14½@15c., gold.

COTTON—The market on the spot was depressed, but without quotable change; trade there was very dull. The market in Liverpool was dull and easier, the accounts from the Eastern cities had a depressing effect. The fine weather for the crops had a weakening influence. The sales were 326 bales, of which 224 were for consumption; 700 bales were delivered on contract. The receipts at the ports were 2,345 bales, against 1,200 bales this day last week, and 807 bales this day last year. The following are closing actual quotations:
