MONDAY, Aug. 28—P. M.

The stock market to-day, in its reduced volume of business, and the almost total stagnation which occasionally ruled, has reflected a lessened speculative interest. The coal shares continued to attract the largest share of attention, as they are quite likely to do for some time, withdrawing from other heretofore active stocks just so much of their usual support. There was a general improvement in Delaware, Lackawanna and Western; Delaware and Hudson, and New-Jersey Central after the opening, which was succeeded by a decline to points below the opening prices, and then by a sharp rally, with the final transactions again down to the lowest prices of the day. Lake Shore was almost entirely neglected; so much so that when, just before the close, its clique sent in to rally it from 52⅞ to 53⅛ the effort scarcely attracted the attention of a dozen operators. The St. Pauls exhibited weakness, the common declining to 32½@32⅝ and the preferred to 66⅛@66½. The North-Westerns received more care from their nurses, and were made to close at near the best prices of the day—to wit, 37½ for the common and 61¾ for the preferred. Erie sold at 11⅜@10⅞@11¼, and Ohio and Mississippi at 12@11½. Rock Island, after opening at 103¼, and advancing to 103⅝, sold at 102½@103¼. Michigan Central was weak, selling at 39¾@40@39⅛@39⅜. Panama was kept at the established quotation of 126 bid and 135 asked. Curiosity to know how many shares of this stock could be actually sold above par finds frequent expression. Pacific Mail opened down from Saturday night's bidding price ¼ per cent at 23⅛, and sold at 23. Western Union was the best sustained stock on the list, rising from 69⅜ to 69⅞, and closing at 69¾. The "boys," perhaps, sold a little too much under 69 on Saturday, and to-day have been taking it back. The market closed with the usual afternoon's support, yet at prices generally lower than on Saturday. The total business was 114,000 shares, with final changes from Saturday as follows: Declines—North-West and Central and Hudson, each ⅛; Erie and Rock Island, each ¼; Michigan Central, St. Paul preferred, New-Jersey Central, and Pacific Mail, each ⅜; Delaware and Hudson and Ohio and Mississippi, each ½; St. Paul, 1, and Delaware, Lackawanna and Western, 1¾ per cent. Advances—Lake Shore and Western Union, each ⅛; Atlantic and Pacific Telegraph and North-West preferred, each ¼, and Producers' Petroleum, ⅞ per cent. The following table shows the

The London market continues feverish and irregular. U. S. old 1865s retain a fair degree of steadiness closing at 105½, and 1867s at 108½; ten-forties ranging at 106¾@107¼@106¾, and new fives at 107½@107. Erie declined from 10⅞ to 10⅛, preferred closing at 18@18½. British consols were steady at 96¼@96⅜. There was no quotation for money. The sum of £19,000 bullion went into the Bank of England on balance to-day. In Frankfort, United States new fives declined to 103⅛. In Paris, the French five per cent rentes were quoted at 106.32½@106.27½, exchange on London closing at 25.27½. Here the foreign exchange market was dull and weak on the general expectation that cotton bills would be more plenty within a week or two. Buyers therefore are delaying their remittances. The gold market was quiet again and weak, the price declining from 111 to 110⅝, the bulls finding it difficult to support the price with the ammunition on hand. On gold loans the borrowing rates were flat, ½, 1, and 2 per cent. The Assistant Treasurer paid out $70,000 in coin interest on the public debt, and $12,000 in redemption of called bonds. The operations at the Gold Exchange Bank covered: Gold cleared, $14,374,000; gold balances, $975,600; currency balances, $1,084,236. We annex principal quotations of gold:

The week opens upon a quiet money market, and call loans are reported at 1@2 on Government bonds and 2@2½ on mixed collateral. Discount is dull at rates already quoted—3@4. The banks now hold in excess of the legal requirements $21,249,775 to meet the demand to move the crops, acknowledged to be by far larger than last year, although the surplus then was only $20,882,125, against $27,170,675 in 1874, the banks at those respective dates carrying in loans $282,336,900 and $278,319,800, against $254,443,400 now. The United States Treasurer to-day received $900,000 National bank notes for redemption. The customs receipts at Washington to-day were $700,000. The internal revenue receipts footed up $600,000. The following is the Clearing-house statement to-day: Currency exchanges, $68,397,133; currency balances, $2,792,836; gold exchanges, $7,963,142; gold balances, $1,018,365.

United States Government bonds are weak for the same reasons that caused a decline last week. Registered sixes of 1881 sold down to 119⅛; registered new fives at 116⅝, and coupon five-twenties of 1867 at 118⅛. The Secretary of the Treasury has decided to accept the new 4½ bonds as a basis of bank note circulation on the same basis as to percentage of notes as the new five per cents. We annex latest street quotations:
