A MATCH AT WASHINGTON.

THE FOREIGN TEAMS ALL GOING TO THE CAPITAL.

WASHINGTON, Sept. 13.—Arrangements have been made with the Scotch, Irish, Australian, Canadian, and American rifle teams for a three days' match in Washington during the latter part of this month. The teams will reach here on the 25th inst., and shoot at the 800 yards range at the Benning's Station Race Track on Tuesday, the 26th; over the 900 yards range on Thursday, the 28th, and over the 1,000 yards range on Saturday, the 30th.

MR. TILDEN'S RECORD.

AN ALLEGED PARTNERSHIP OF TWEED'S DENIED—MR. TILDEN'S PURCHASE OF FURNITURE.

To the Editor of the Tribune.

SIR: Your issue of this morning contains an article in which the name of our house is mentioned in connection with that of Mr. Tilden, relating to a business transaction between us, and in which there are also some statements made concerning other parties which we desire to contradict most emphatically.

First, as to the story that "Mr. Tweed was long a silent but influential member" of our house. This is untrue, as Mr. Tweed never had any interest, whatever, directly or indirectly, in our business; and we would further state that our house frequently and invariably refused to do any Ring work of any kind whatsoever.

Relating to our bill against Mr. Tilden, you state, "It appears from their (Pottier & Stymus's) own account that the bill was a disputed one, and that they had furnished no bill of items; and it is not clear that the claim was just and equitable." In answer to this we will state that we did furnish a bill of items, and that Mr. Tilden answered it by pleading the statute of limitations against us, thus using the weapon we furnished by our good nature in not sooner pressing the settlement of the bill. Will you please print this, and oblige yours, respectfully,

POTTIER & STYMUS MANF. CO.

New-York, Sept. 13, 1876.

THE MAINE VOTE.

THE REPUBLICAN MAJORITY OVER 15,000. ABOUT 93 TOWNS TO BE HEARD FROM—A REPUBLICAN MAJORITY OF 15,289 IN A TOTAL VOTE OF 125,771—A GAIN OF 33 MEMBERS IN THE LEGISLATURE.

Only 93 small towns in Maine remain to be heard from. The total vote thus far received reaches 125,771, the Republican majority for Governor being 15,289. The remaining towns will increase the total about 7,000, and probably add to the majority. An estimate on the Legislature gives the Republicans a majority of 98 on joint ballot—a gain of 33 members. The situation in the congressional districts remains unchanged.

GENERAL POLITICAL NEWS.

MARYLAND'S DEMOCRACY.

THEIR PLATFORM—SPECIE PAYMENTS, THE CONSTITUTION AS IT NOW IS, NON-SECTARIAN SCHOOLS, AND NO FEDERAL INTERFERENCE IN ELECTIONS.

BALTIMORE, Md., Sept. 13.—The Democratic State Convention to nominate Electors of President and Vice-President assembled in this city to-day. The Hon. A. K. Syester of Washington, Col. Fred. Raine, editor and proprietor of *The German Correspondent*, of this city, and the Hon. Richard B. Carmichael of Queen Anne County were chosen Electors at Large. The resolutions adopted, after commending the St. Louis platform and the nomination of Tilden and Hendricks, proceed as follows:

And we do hereby appeal to our fellow-citizens of every former political connection to unite with us in an earnest effort to elect them and thus give effect to their pledges of immediate reform in the administration of the Federal Government—reform in the currency, reform in the revenue, reform in expenditure, reform in taxation, reform in the civil service, reforms in all the grades of the public service and in every department of the Government.

Resolved, That the national honor and the public credit should be sustained, and resumption of specie payments be established without unnecessary or artificial contraction, and without disturbing the industry, trade and commerce of the country.

Resolved, That the revenue of the country should be so adjusted that the largest revenue should be obtained from the lowest taxation, in lieu of the present system, which takes the largest possible number of articles at the highest possible rates.

Resolved, That the public expenditures should be reduced to $400,000,000 annually, exclusive of interest on the public debt, and that the present House of Representatives deserves the gratitude of the people for its successful efforts in this direction.

Resolved, That honesty, capacity and fidelity be constituted the indispensable tests and qualifications of the civil service, and that the present House of Representatives deserves the gratitude of the people for its successful efforts to expose the dishonesty, incapacity, and infidelity of those now in possession of the Federal Government.

Resolved, That the Constitution of the United States, with its amendments, universally accepted as a final settlement of the controversies which engendered civil war, is the supreme law of the land, and commands our absolute obedience.

Resolved, That the Constitution of the United States establishes the supremacy of the civil over the military powers, and that the order of Secretary Cameron and the instructions of Attorney-General Taft recently issued in reference to the interference of the military in elections are flagrant perversions of law and assumptions of power which deserve the indignant denunciation of all honorable men. "A free people should hold no middle term with tyranny, oppression, and usurpation."

Resolved, That the Democratic party at all times proclaims the right of free speech, and heartily denounces all attempts at violence, riot, or interference intended or calculated to abridge this sacred right of the people.

Resolved, That the Constitution of the United States secures perfect equality to all citizens, of whatever race or color, before the law, and that while we abhor and detest the tyranny of oppression and usurpation of the present Republican Administration, we pledge our best efforts to guarantee to every citizen all his rights of person and property, without regard to race or color.

Resolved, That the Constitution of the United States secures the entire separation of Church and State in the interest of civil and religious freedom; wherefore, we pledge ourselves to oppose any appropriation of the School Fund to sectarian institutions or any legislation which permits any sectarian interference with the public schools established by the State for the education of the people.

Resolved, That the Democratic party in the Legislature of this State has demonstrated its willingness and ability to extend to every rank, station, and condition of society equal political, civil, and individual rights, by extending to all a free and unobstructed ballot, and by providing the means of educating from a common fund for the advancement of every one without respect to race or color, which is the surest guarantee of their fairness and justice to the whole people of the State.

A COMPLIMENT TO GEORGE F. HOAR.

BOSTON, Sept. 13.—The Republican Convention at Worcester to-day, which nominated W. W. Rice of Worcester for Congress, adopted a resolution complimentary to the character and services of the Hon. George F. Hoar, expressing the hope that he will soon be placed in a more elevated position in public life than that which he now voluntarily relinquishes.

BUTLER'S NOMINATION NOT UNANIMOUS.

BOSTON, Sept. 13.—A motion to make Gen. Butler's nomination to Congress to-day unanimous was lost, about ten delegates rising up in opposition. The convention sent a committee to wait on Gen. Butler and invite his attendance. On entering the hall the General was received with great applause, and made an extemporaneous speech.

CONGRESSIONAL CONVENTIONS.

NOMINATIONS MADE YESTERDAY.

The following nominations to Congress are reported by telegraph to THE TRIBUNE:

District.	Nominee.	Politics.
IId New-Jersey	Dr. J. Howard Pugh	Republican
XVIIth Pennsylvania	Hendrick B. Wright	Democratic
XXVIIth New-York	Elbridge G. Lapham	Republican
IXth Massachusetts	W. W. Rice	Republican
VIIth Massachusetts	Benjamin F. Butler	Republican

SOUTH CAROLINA REPUBLICAN CONVENTION.

COLUMBIA, S. C., Sept. 13.—The Republican Convention has been in session all day. Nominations will be made to-morrow. The Hon. Robert Smalls (colored) was elected permanent chairman. Senator Patterson spoke, favoring Mr. Chamberlain for Governor. Thomas C. Dunn, present Comptroller-General, is a prominent candidate for the nomination of Governor against Mr. Chamberlain.

A NEW-JERSEY CONGRESSIONAL NOMINATION.

The Republican Congressional Convention of the IId New-Jersey District met in Trenton at noon yesterday. Mr. Samuel A. Dobbins positively declined to be a candidate for reélection, and Dr. J. Howard Pugh of Burlington was unanimously nominated. In a brief speech before the convention, Dr. Pugh said the Republican party was created by the conscientious people of the Union, and its blemishes would be looked upon by posterity as specks upon the sun. Speeches were also made by Mr. Dobbins and W. L. Dayton.

CARL SCHURZ IN THE CAMPAIGN.

At the Republican National Committee's headquarters in the Fifth Avenue Hotel very little business was transacted yesterday. In conversation with a TRIBUNE reporter in relation to the charge made by the Democratic papers that the Republican campaign managers had dispensed with the services of Carl Schurz, ex-Gov. McCormick, secretary of the committee, said that the statement was utterly false, and that nothing whatever had disturbed the harmonious relations existing between Mr. Schurz and the committee. The engagements of this gentleman had been entirely with the State and not with the National Committee, as was charged. He could not be alienated from the cause, or the cause from him.

EQUALIZATION OF STATE TAXES.

THE STATE BOARD TO MEET TO-DAY—THE FIGURES WHICH THEY HAVE TO CONSIDER.

[FROM A REGULAR CORRESPONDENT OF THE TRIBUNE.]

ALBANY, N. Y., Sept. 13.—The State Board of Equalization of Taxes will meet here to-morrow and determine the basis of taxation upon which the rate of $11\frac{1}{32}$ mills established by the Legislature last year shall be levied. The Board of State Assessors have in the meantime forwarded to Controller Robinson a table showing the valuation of real and personal property in each county, as rendered by the local assessors, with their own propositions for an equalization throughout the State. The table, with additional columns giving the amounts paid by the Equalization Board last year and the amount of increase shown in the table this year, is as follows:

Counties.	Total Assessed Value by Local Assessors.	Equalized Value as proposed by State Assessors.	Increase of Equalized Value over last yr.

The increase upon the total valuation of last year throughout the State is $98,487,171. New-York County is reduced $2,34[illegible],504 upon the equalized valuation of last year, being the only county in which a reduction is made. The total valuation of real estate throughout the State is $2,108,325,872, and of personal property $357,941,101. The real estate in New-York is rated by the local assessors at $883,643,547, and the personal property at $217,300,154, a total of $1,100,943,699. At the rate of $11/32 mills tax upon the valuation throughout the State, the total taxation will be $7,511,876, and of this New-York at her equalized valuation will have to pay something over $2,000,000. The reduction upon the total tax of last year is $86,634,810.

The aggregate valuations cannot be changed by the Board of Equalization, the methods of equalizing the taxes among the various counties only being in their power. Great complaints have been made against the high valuations by the assessors, who, it is said, in the desire to reach what they consider the full valuation, have taken no account of the depreciation of property during the hard times, and have in many instances far exceeded the actual valuation. The excess of revenue due to so high a valuation will revert to the State treasury, and serve to reduce taxes next year, except in the matter of the school tax, which is levied as a per capita tax.

MIDNIGHT WEATHER REPORT.

Probabilities.

For Thursday, in the South Atlantic States, easterly winds, rising barometer, cooler, partly cloudy weather, possibly light rains.

For the Middle and Eastern States, falling barometer, south and east winds, stationary temperature, cloudy weather, and possibly RAIN.

Cautionary signals are ordered for Duluth, Marquette, Escanaba, and Alpena. The Lower Mississippi and Ohio will rise slightly.

LOCAL OBSERVATIONS.

(The diagram shows the barometrical variations in this city by tenths of inches. The perpendicular lines are divisions of time for the 24 hours preceding midnight last night. The central horizontal line marks 30 inches height of the barometer. The irregular curved line, in a more or less horizontal direction, represents the actual height of the mercury during those hours. When the curved line is entirely above the line of mean pressure (30 inches) and little variable, fair weather may be looked for. If there are sudden and extensive fluctuations, a north-easterly storm is threatened. The time of its approach is indicated by the frequency of the fluctuations, its violence by the excess of the movement. When the curve is below the line of mean pressure, unsettled weather will follow. A descent of the curved line from above to above the line (30) evinces a tendency from good to bad weather, while an ascent from below to above points to unmistakably to pleasant weather.)

Notwithstanding the previous hight of the mercurial column, there was a further and more rapid rise yesterday. The amount of humidity in the air has increased; temperature has risen; the wind has veered to a southern point with a tendency toward the east. All these conditions indicate an approaching easterly storm which cannot be very far distant.

For this city and vicinity cloudy weather is indicated, with little change of temperature, and a probability that rain will shortly follow, perhaps before the close of the day.

A gilt-edged and superfine young man stepped into a barber's shop the other day to get shaved. The knight of the razor eyed him quizzically for a moment, and then remarked: "You must either take down that shirt collar or wait for a shave till I can borrow a step-ladder."

"A perceptible anti-Tilden wave is in motion," says THE TRIBUNE. Yes, it will be
