simply retained until they can return loaded, the managers deserve commendation, because not a car or train now starts from Chicago for New-York on which the actual expense of moving it does not exceed the receipts; therefore it is unreasonable to expect them to be drawn back empty. Notwithstanding these facts, which are patent to any one who will take the trouble to indulge in a little figuring, the pool in the stock market which holds Lake Shore stock continues to sustain its price and talks of much higher figures. Whether its boldness proceeds from the desperate position which perhaps it holds, or from secret knowledge, the readers of THE TRIBUNE must be their own judges—but remember Ohio and Mississippi! The market to-day was generally dull and heavy, the exceptions being Lake Shore and North-Western, the latter seemingly having fallen under the same guidance as the former. Lake Shore opened at 56½, quickly sold at 56¾, and then was smartly advanced to 56⅞; again declining to 56⅜, it after 2½ o'clock was walked up to 57⅛. The operation was the exact duplicate of Saturday afternoon, with the exception that the transactions were much greater. Michigan Central was dull at 42⅜@42⅛@42¾@42⅝. The North-Westerns were higher, simply because they were made so. It is not improbable that after one or two drops of 2@3 per cent and a quick rally, the room speculators may become educated to buy at each decline. They were in the Summer of 1873 at 70 to 67—why not again? The remainder of the list requires no special comment, further than to remark that Illinois Central and Rock Island continued to decline, the former recording sales at 71 and the latter at 98⅜. The miscellaneous stocks were steady and dull. The market closes with final sales comparing with the last of Saturday as follows: Declines—Erie, Michigan Central, and Western Union, each ⅛; Union Pacific, ¼; Missouri Pacific and Rock Island, each ½; St. Paul common and preferred, each ⅝; Central of New-Jersey, ¾; Morris and Essex, 1; Delaware, Lackawanna and Western, 1¾; Delaware and Hudson, 2⅛; and Illinois Central, 3. Advances—Lake Shore, Wabash, and United States Express, each ¼; North-Western preferred and Ohio and Mississippi, each ⅜; Hannibal and St. Joseph preferred, ½; and North-Western, 1 per cent. The following table shows the

The London cable advices reported an active and feverish market for British consols, which, opening ¼ higher than on Saturday at 95 9/16, declined to 95 3/16, closing 95¼@95⅜. United States bonds were steady at Saturday's figures, Erie common ruling at 9½@9⅝, and the preferred at 16½. The sum of £115,000 bullion was to-day withdrawn from the Bank of England. Five per cent rentes in Paris declined from 104.32½ to 104.07½. Gold was quiet, but firmer, with sales at 109¾ and 109⅞ alternately, and no new feature to the market. On gold loans the carrying rates were 2½, 2, and 3 per cent. Foreign exchange was dull and steady, ruling rates being $4 82@$4 82¼ and $4 84. The nominal rates are given below. The Assistant Treasurer paid out in coin interest $27,000, and $1,700 in redemption of called bonds. The day's business at the Gold Exchange Bank covered: Gold cleared, $16,598,000; gold balances, $1,112,750; currency balances, $1,222,568. The principal quotations of gold were:

In the money market stock brokers' balances lent very generally at 3 and 4 per cent on call, with now and then an exception, but at the banks there is not much doing below 5. Commercial paper is dull, and ranges at 5 to 7 per cent. The United States Treasurer at Washington received to-day $900,000 national bank notes for redemption. The customs receipts were $400,000, and internal revenue receipts, $700,000. The following is the Clearing-house statement to-day: Currency exchanges, $77,990,525; currency balances, $3,683,648; gold exchanges, $11,176,879; gold balances, 1,757,266.

Government bonds were very dull, with an uninteresting market, a small lot of coupon 5-20s of 1865s, new issue, selling at 112⅞. Except the sale of $5,000 the total transactions at the First and Second Boards were $1,200. We annex latest street quotations:

THE BRITISH CORN TRADE.

LONDON, Nov. 20.—*The Mark Lane Express*, in its weekly review of the British corn trade, says the supplies of wheat in country markets has been again small, but its condition has improved under the influence of frosty weather. Dullness has been the prevailing feature of the provincial trade for both wheat and feeding corn. Several markets quoted a decline of a shilling per quarter for English wheat. Imports for the last week into London have been more liberal than lately, but the supply of American wheat was comparatively trifling against the large arrivals of Russian and Indian. The approaching closing of Russian navigation will make America our main source of supply for red wheat. It remains to be seen whether she will ship freely at present prices or await advanced values. The local trade has revived, owing to the political uneasiness, London receiving considerably over the usual proportion of imports in consequence of the heavy Russian and East Indian shipments. Oats advanced sixpence per quarter despite increased arrivals, but maize receded sixpence owing to the slackened demand. The arrivals of wheat off the coast were very moderate during the week, and an improvement of 1s. 6d. to 2s. occurred.
