BEEVES—Receipts to-day, 147 car-loads at Jersey City and 146 at Sixtieth-st., making 4,732 head on sale, against 4,508 head last Monday; shipments of dressed beef, 667 head during the past week, with 525 sent from Philadelphia to Boston; 1,192. The larger receivers during the week were N. Morris, 1,253 head; T. C. Eastman, 1,115 head; S. W. Allerton, 734 head; H. Klopfer, 721 head.

The main features of the trade during last week, after Monday's report, were a fair, though some what dragging trade on Wednesday, with 2,670 cattle on the market, very few sales on Thursday, most people enjoying the holiday; a dull trade on Friday, with 1,926 fresh and some stale lots on sale, common stock declining fully ½c. ℔ lb., very few good animals being in the yards. Now we have cattle enough, but too many of them are thin. There were about 400 Texans, besides some Colorados, in the yards, and butchers did not want them. With the late holiday and its a consignment of poultry in fresh remembrance, and looking forward to the holiday week, buyers want something better to expose upon their stalls. They would only take those thin longhorns at 7@7¾c., 54 and 55 lb ℔ cwt. Another cause of the dullness in this stock is the fact that we are now receiving Chicago and Colorado dressed beef, which sells at competing prices with this grade of live stock. During the past week we have had four car loads of Chicago beef in good order, sold at 6⅝@7c., and one car Colorado at 4⅝c. The decline on these far Western live cattle since last Monday is about ½c., and ordinary natives are fully ½c. lower. Fair stock has also declined somewhat, while really prime holds its own. There is no advance in anything, even if we do report some of Mr. Eastman's choice animals at 11½c., 63 lb ℔ cwt. It is because they were so much superior to anything offered this season. They go abroad, to give John Bull a taste of American fattening beef. It was only possible to close out the stock. The weather was all that could be desired. The special sales of to-day were: 1,200 fat Kentucky bulls of nearly 1,500 lb at 3½@3¾c.; 76 Texans, 7c., 55 lb; 279 do., 7½c., part 54 lb; 42 at 7½c., 55 lb; 17 native rough oxen, 7½c., 55 lb; 10 native steers, 7½c., 56 lb; 1
