New York Stock Market

New York, October 18.—The speculative movement in stocks showed signs to-day of an entry upon a new stage. Besides the normal profit taking movement, it was evident that the course of the London money market was exerting more influence on the operations in the New York stock market than heretofore. International banking houses in New York having occasion to negotiate in London, found a degree of discrimination against American borrowings that afforded a sharp contrast with the recently ruling conditions. It was reported that private banking advices gave as one objection for the expected advance in the official discount rate of the Bank of England on Thursday, a determined disapproval by the authorities of that institution of the demand for credits in London for use in the New York speculation. There is nothing in the published banking returns to indicate how far New York borrowers have been resorting to London to finance the present speculative movement in stocks.

The foreign exchange market was affected by the situation in the London market. The extension of the present working arrangement for financing cotton exports also had the effect of strengthening the exchange market. The local call money market showed the relaxed tone which developed yesterday. Whether on account of a changed attitude on the part of foreign money lenders, or from other causes, the measures for advancing prices of stocks were less aggressive to-day. United States Steel maintained its prominence in the dealings, but met sufficient offerings to beat down the price when attempts were made to lift it. Reading and Union Pacific, which was second only to United States Steel in activity, shared in the heavy tone of that stock, until the last fifteen minutes of the session, when the three stocks were pushed forward to the highest prices of the day in concert. Bonds were easy. Total sales, par value, $2,550,000.

United States 4's registered advanced 1-4, and the coupons 1 per cent. in the bid price on call.

Total sales to-day 711,800 shares of stocks.

New York, October 18.—Prime mercantile paper, 5 1-2 to 6 per cent. Sterling exchange steady, with actual business in bankers' bills at $4.8250@$4.8290 for thirty-day bills, and at $4.8250@$4.8290 for sixty-day bills, and at $4.8625 for demand. Commercial bills, $4.82 1-4@$4.82 1-2; bar silver, 56-1-2; Mexican dollars, 45. Money on call steady, 3@3 1-2; ruling rate, 3; closing bid, 3; offering at 3 1-4. Time loans dull by strong, sixty days, 4 1-4 per cent., and ninety days, 4 3-4@5; six months, 4 5-8@4 3-4.

New Orleans, October 18.—Cotton—Market closed easy to-day. Middling, 14¼c. Sales on the spot 520 bales and 700 to arrive. Futures opened steady at a decline of 1@3 points in spite of a higher Liverpool market than was expected. Selling on the first call was heavy for both accounts and was caused more than anything else by the bearish attitude of the New York market. Shorts were unable to hold the market down, as the demand was heavy soon after the first call and appeared to come principally from leading long interests who were encouraged by the rumor that spinners were heavy spot buyers. Selling was brought afresh around the middle of the morning on improved crop accounts from Southwest Texas, and the market dropped to levels of 10@12 points under yesterday's close. The market acted short and scalpers' attempts to take profits on this decline checked it and gave the market a steadier tone. The market closed steady at a net decline of 13 points. Futures closed steady: January, 14.24@14.25; February, 14.25; March, 14.43; April, 14.47; May, 14.54; July, 14.65; October, 14.25; November, 14.15; December, 14.15.
