THURSDAY, April 5—P. M.

The stock market to day lacked none of the elements of a "Punch and Judy" show, in which the puppets appeared and absented themselves in regular automatic order. The opening prices were all higher than the closing ones of yesterday, but soon the tide set in the opposite direction, and so continued till reports reached the market that the trunk lines of railways had arrived at a satisfactory solution of their difficulties, and that the coal committee had reported a scheme to limit the production of "competitive coal" to 8,000,000 tons for the year 1877. With these incentives prices again turned upward and the market rallied to even higher prices than the morning, closing strong at but little or no reaction. It is not worth while to here analyze the value of what the trunk lines have agreed to or what the coal companies propose to discuss next Tuesday. But it is in order to remark that the trunk lines have not secured the services of the "Ice Machine Company" to keep the lakes and canals closed during the Summer, and that this present possible agreement is not worth the paper on which it is to be written:—also that the proposed reduction of production of coal will add to the cost per ton for that sent to market by the Delaware, Lackawanna and Western and Delaware and Hudson companies at least 75 cents, provided they accept and adhere to the scheme as proposed. Hence their loss in mining and selling coal will be greater than it is now. Yet the promulgation of such a scheme may enable speculative officials to renew the short lines which they closed up two weeks ago at a handsome profit.

The stock market opened buoyant, with Delaware, Lackawanna and Western rising from 58¼ to 59⅜, after which it sold at 58⅜@59⅞@59⅝. Delaware and Hudson was neglected and only fluctuated between 49½@48⅞@49½; Morris and Essex selling at 81¼@81, and Albany and Susquehanna being offered at 70. Central and Hudson sold at 92½@91¾@93¼@93½; Lake Shore at 47⅝@46¾@47⅝@47¾; Michigan Central, 41⅛@41⅜@40¼@41¾@40⅞ and Erie at 6¼@6⅜. Rock Island was first heavy at 91¼@96¾, but later rallied on the strength of the rest of the market to 97⅜@97¼; North-Western preferred improved from 49 to 49⅝, the common selling at 31. The St. Paults were not active, at 16½ for common, and 45¾@45 ¾46⅜ for the preferred. Illinois Central rose from 44½ to 45½, and Chicago, Burlington and Quincy sold at 103 @104@103. Panama, after the washing of yesterday at par, opened at 95¼, and sold at 92½. Will bank officials consider what price they could realize for the 20,000 or 25,000 shares which they are now loaning 75 to 80 per cent on? Western Union opened strong at 58¾ @58⅞, but declined to 57⅝, later rallying to 58¾, and closing at 58½. Pacific Mail, on the good statement and the covering of shorts, rose from 15⅝ to 18, and closed steady at 17⅞. The expresses, on small transactions, were a shade better. The market closed strong.

The sales of stocks at the last call—3:15 p. m.—of the open board to-day were as follows: 200 Central and Hudson, 93½; 2,000 Lake Shore, 47⅝@47½; 300 Michigan Central, 40⅝; 200 Erie, 6⅜; 1,200 St. Paul, 16⅞@16⅝; 500 preferred, 46; 700 North-Western preferred, 49⅝; 100 Rock Island, 97¼; 300 Ohio and Mississippi, 4¼; 600 Delaware, Lackawanna and Western, 59½; 200 Western Union, 58⅝, and 100 Pacific Mail, 17¾.

The Bank of England directors held their regular weekly meeting to-day, but made no alteration in the minimum rate of discount. This continues at 2 per cent, being now 1⅜@½ per cent higher than the rate among the outside banks of discount. The sum of £48,000 bullion was withdrawn from the bank "on balance" during the week, and the proportion of reserve to liabilities, which was last week 39⅝, is now 38¾. The market is very strong and generally higher. British consols advanced to 96 1-16@⅛, while in United States securities 1867s were steady at 109⅜, ten-forties advancing to 106¾, new fives to 108½, and old 1865s to 106. Erie moved up to 6¾ for common and to 16 for preferred, Illinois Central rise from 40½ yesterday to 44. New-York Central remained at 90. United States new fives in Frankfort are quoted at 103⅝. A Berlin dispatch states that the Imperial Bank of Germany lost during the week 852,000 marks. The Bank of France during the week reports a loss of 16,800,000 francs. French 5 per cent rentes advanced to 108.35, sight exchange on London being quoted at 25.16. Continued dullness marks the course of the speculation in gold, though the price is firm on the occasional purchases by the German bankers. Sales considerable purchases by the German bankers. Sales to-day were chiefly at 105, with a few early transactions at 104⅞. Cash gold is becoming heavy to carry, holders paying 1, 1½, 2, 3, and 4 per cent in that way. Next Tuesday the first of the eight calls now running of old 1865s, $19,000,000, will mature. A considerable amount of these bonds has already been received from Europe by bankers not in the Syndicate. To cover these interests there is a good demand for sterling exchange, and as there are few commercial bills making, rates have stiffened. Hence the recent advance in 60 days' bills to $4 85½ and sight to $4 87½. Sterling rates to-day are on the basis of $4 85 and $4 86½@$4 87 to the £ for long and demand bills. The Assistant Treasurer paid out $18,000 in coin interest and $7,500 in redemption of called bonds. The day's business at the Gold Clearing Department of the Bank of the State of New-York covered: Gold cleared, $27,181,000; gold balances, $1,369,164; currency balances, $1,438,421. The gold quotations were as follows:

10.	11.	12.	1:30.	3.
104⅞	105	105	105	105

We annex closing quotations of foreign exchange:

	60 days.	3 days.

Mexican doubloons	15 55	15 65
Silver bars (999 fine)	1 16½	1 17½
Fine gold bars	Par@¼	

There was a fair demand for money to-day, which was promptly met at 4 and 5 per cent as the ruling rates on pledge of the usual Stock Exchange collateral. The lending Government bond houses are supplied at lower rates, say 2@2½. In the market for commercial paper there are rather freer offerings, but the demand readily absorbs it all, and the current rates are as follows:

CURRENT PAPER.

	Sixty days.	Four months.
Double-named—		
First-class	3½@ 4	4 @ 4½
Good	4 @ 5	5 @ 5½
Single-named—		
First-class	4 @ 5	4½@ 5½
Good	5 @ 6	6 @ 7
Not so well known	7 @ 8	8 @ 9
GOLD PAPER.		
Double-named—		
Prime	3 @ 4	4 @ 5
Single-named—		
Good	4 @ 5	5 @ 6

There is no quotation for time loans. The United States Treasurer at Washington received to-day $580,000 National bank notes for redemption. The customs receipts were $150,000, and internal revenue receipts $440,000. The following is the Clearing-house statement: Currency exchanges, $88,517,862; currency balances, $4,075,647; gold exchanges, $13,421,662; gold balances, $1,687,863. The following were the rates of exchange on New-York at the undermentioned cities to-day: Savannah, buying ⅛, selling ¼; Charleston easier, ⅛@¼ premium; Cincinnati quiet and steady, buying par, selling ⅛; St. Louis, 100 premium; New-Orleans, commercial 9/32, bank ⅝; and Chicago, 25 premium.

The market for Government bonds here, as well as in London, is strong, though the market is quiet and devoid of notable interest. Sales of registered 6s of 1881 are up to 111⅞, coupon and registered 1867s at 111⅝, registered 10-40s at 110⅞, and new fives at 110¾. We annex current closing street quotations:
