Cable advices quote discounts in the open market at London as easy at 1¾ per cent, or a quarter below the bank minimum. No movement of gold was reported at the Bank of England to-day. Silver closed at 53⅞ pence the ounce. The British consols were steady at 96½@96⅝, while in United States bonds, ten-forties fell ⅛ to 108½, and 1867s were a shade easier at 109@109⅛. Old 1865s ruled steady at 106, and new fives at 108⅛. Erie was easier at 6⅝ for common and 16⅞ for preferred. Illinois Central declining from 46 to 45. New-York Central was quoted at 90⅛@91. In Paris the French 5 per cent rentes advanced 30 centimes for account, while the standard drawers of exchange advanced their rates again to $1 86½ for 60 days, and $1 88½ for three days' sight. Business fell owing up to $4 85⅝@$4 86 to the pound and $4 87⅝@$4 88. The supply of commercial bills is growing smaller and the demand from importers of bonds is on the increase, now that the movement of United States old bonds is coming this way as the called bonds mature. Good opened at 105 and advanced to 105¼, the firmness being due to the stiffness of sterling. Business was no more active than usual. On gold loans the rates were 1¾ carrying, flat, and for borrowing ½ and 1 per cent over until to-morrow. The Assistant Treasurer paid out $10,000 in coin interest and $21,000 in redemption of called bonds. The day's business at the Gold Clearing Department of the Bank of the State of New-York covered: Gold cleared, $12,351,000; gold balances, $1,072,000; currency balances, $1,127,588. The gold quotations were as follows:

10.....105	12.....	103¼	1:30.....103¼
3.....	105¼

The demand for money to-day was only moderate and freely met at 3 to 4 per cent on call. Government bond dealers report offerings at 2@2½. Premium discount is slow, and acceptable trade and ready sale at 4 per cent and upward. The United States Treasurer at Washington received to-day $700,000 national bank notes for redemption. The customs receipts were $550,000, and internal revenue receipts $800,000. The following is the Clearing-House statement to-day: Currency exchanges, $80,965,413; currency balances, $3,216,536; gold exchanges, $8,881,062; gold balances, $1,494,550.

Government bonds were dull but strong, particularly for the long-forties and new fives. The latter advanced to 111¼, ten-forties fetching 111. There were sales of coupon 1868s, new issue, at 108¾; registered at 108⅞, and coupons No. 1 of 1867 at 111⅞. We annex latest street quotations:

State bonds were neglected. There were sales, however, of Georgia 6s at 102; Missouri 6s stiffening up to 105¾; District of Columbia 3.65s advanced to 74¼.

In city bank shares, Fourth National (15) sold at 99; Shoe and Leather (20) at 120; Park (8) at 114, and Bank of Commerce (35) at 119½.

Railroad bonds were dull; sales at the first board only $53,000 in ten varieties. Chicago and North-Western coupon gold consols were steady at 88@88¼, and Albany and Susquehanna seconds quoted up to 91; Union Pacific firsts were strong at 101¼; Central firsts rising to 106½; Lehigh and Wilkesbarre consols stiffened up to 28½; Mariposa gold and ohio consols being in demand at 86; Erie thirds sold at 103; Lake Shore consolidated firsts at 101¾; Michigan Southern seconds at 103½, and Kalamazoo and White Pigeon firsts at 88.

MINES AND MINING SHARES.

The San Francisco market is in a peculiar position, for, while prices are declining, the reports from the principal mines show either an increase in the product or an improvement in the prospect. The Consolidated Virginia, the gradual decline of whose shares has swept away more than half the investment of a few months ago, has at last brought up its daily production of ore to 450 tons, with the prospect of a larger yield during the present month and a resumption of dividends in May or June. It is stated and believed at Virginia City that the dividends at first will be $1 per share, a rate that is thought will insure the accumulation of a considerable surplus within a few months. The daily yield of the California Company remains at 550 tons, with no probability of a diminution in the near future. Chollar produces 100 tons daily of the assay value of $26, leaving but small profit to the mine. Belcher throws up 90 tons daily, the total result for March amounting in value to about $80,000. Justice produces 400 tons, without material change in other respects. There is much suffering in San Francisco on the part of small speculators upon margins. New-Yorkers buy these shares almost entirely for cash, and therefore are not often deprived of their stock, even by a decline of 50 per cent. The business in the shares of near-by mines is decidedly on the increase at the American Board, with the prospect of adding to the list several new mines of the money-earning variety. Reports from the Edith and Bertha placer mines in Virginia are to the effect that the powerful hydraulic apparatus is at work, and the particles of fine gold are being washed from the gravel. The use of this machinery reduces the expense to a minimum, and will increase the product fifty-fold. One quarter of the success expected for these mines will give a new impulse to the business, and send innumerable restless spirits on prospecting tours through the Southern Atlantic States, from Virginia to Georgia. In regard to the Eastern States, there is a pause in the organization that is to work the mine near Bridgeport. No change is reported in the Merrimac Mine, and the shares maintain their steadiness in the board.

THE BRITISH CORN TRADE.

LONDON, April 9.—*The Mark Lane Express*, in its weekly review of the British corn trade, says: "The week has been marked by somewhat higher temperature and an abundant rainfall which has further retarded field labor. The continuance of wet weather is beginning to cause uneasiness, as, besides preventing the finishing of Spring sowing, it injuriously affects Winter-sown wheat, about which some reports are less favorable than heretofore. Generally, however, the reports of the ultimate prospect are hopeful. The weather is the great desideratum here and on the continent. Supplies of wheat at the principal country markets have again been light, and although the holidays somewhat interfered, trade has shown a very steady tone, while prices have advanced one shilling. The increased strength noticed in Mark-lane last week has been well sustained. Russian wheat has advanced one shilling. The week's imports into London were very moderate, the bulk of the supply being from India and Germany. The diminution of the receipts of Red Spring from America and the steady absorption of last October's heavy shipments of Californian are the two leading features of the season. The large quantity of Californian afloat at the beginning of the year is so reduced as to dispel all apprehensions of a depressing effect upon prices consequent on its arrival. The reverse marked rise in white wheat at Liverpool supports this opinion. The stocks of foreign wheat in London are about 172,000 quarters, or about 270,000 less than the corresponding period of 1876. Since the end of 1876 stocks have decreased at all the leading ports, though not quite in the same ratio, except at Liverpool, where there is a slight increase, owing to the bulk of Californian being directed to that port; while, as compared with this time last year stocks of foreign wheat in the United Kingdom appear to be over a million quarters less. These figures show the inroad made by the excess of consumption over imports, and prove the reasonableness of the late advance and present healthy position of the trade. The sale of England wheat last week was 37,798 quarters at 51s. 1d., against 41,346 quarters at 44s. 5d. last year. The imports into the Kingdom during the week ending March 29 were 310,667 cwts. wheat, 99,188 cwts. flour."

GENERAL MARKET REPORT.

MONDAY, April 9, 1877.

ASHES quiet and unchanged at 5c. for Pots and 6½@6¾c. for Pearls.

COFFEE—Rio in fair demand and steady at 15¾@20c., gold, for ordinary to prime invoices; sales, 4,200 bags, per last arrivals; 1,431 bags, Santos, per La Plata, and 6,000 bags Rio, Ex Ellas, on latter in Baltimore, all on private terms. The stock of Rio and Santos, at all ports, is 1,539,360 bags, of which 884,222 bags here and 32,131 bags in Baltimore; total visible United States supply, 553,125 bales. Mild grades quiet and unchanged.

COTTON—Dull and 1c. lower on the spot, with the Liverpool market quiet and a shade easier; the sales were 478 bales, of which 152 last evening, all for home consumption; 400 bales were delivered on contract. Receipts at the ports to day were 5,760 bales, against 5,108 bales this day last week, and 10,500 bales this day last year. Quotations:
