THURSDAY, May 10—P. M.

Who doubts this being the age of progress?

If any, let them carefully read the report of a sub-committee of the Stock Exchange on the existing mood and deceptive character of the average corporate reports. Seldom has it fallen to our lot to read plainer or more trenchant Saxon. The committee, having had the subject-matter under consideration for over a year, have not spoken hastily in their strong condemnation of the existing style and deceptive character of the average corporate reports, and their conclusions may and will be regarded as authority.

In confirmation of the existing troubles between the trunk lines, there to-day has been held in this city another meeting of the principal officials, a report of which perhaps may be found elsewhere. But whatever may be the result, whether it be the patching up of another truce—on paper—or an open declaration of war, the public is not likely to be induced to buy their securities. It now is too well known that the railroad magnates cannot control the rates for freights. They can decline business or enter into a competition with the lake and canal boats, but with the adoption by the Canal Board of the lowest rates of tolls allowed by the recent joint resolution of the Legislature (which is to-day announced), the boatmen will fix the rates for the next six months.

In coal matters to-day there was a revolution. It will be remembered that on April 30, the day following that wonderful auction sale by the Delaware, Lackawanna and Western Company, the Delaware and Hudson Company issued its circular of prices for May, advancing the same from 10 cents to 15 cents per ton, while the Lehigh Valley companies at the same time reduced their schedules. But now (May 9), the day after the election and of the "happy meeting," the Delaware and Hudson issues a circular, saying because of "the unusual competition that now characterizes the coal trade," we withdraw circular No. 7 (April 30), and are prepared to meet the fluctuations of the market, "thus giving to our customers (?) the advantage of daily quotations." In view of all the well-known facts as to the state of the coal trade on April 29, we submit to the Grand Jury if the circular of April 30 was not an attempt to give to coal a fictitious value, with the intent of "influencing prices on the New-York Stock Exchange?"

The stock market to-day opened dull and weak under sales to realize, and so continued up to the time of calling the board to order to listen to the reading of the committee's report before referred to. This document simply destroyed what little market there had been before, and there was danger of an immediate collapse, so that the only thing remaining to be done was accepted, to wit, the stemming of the tide by a bold dash toward higher prices, which proved successful by a persistent duplication of orders, and prices were advanced ⅜ to 1½ per cent, closing at about the best of the day. Nevertheless it was entirely the result of a local speculation, and may or may not have left the manipulators with a heavier load than at any previous time during the late rise. The business of the day aggregated 166,600 shares, which is 22,000 shares better than yesterday, but fairly represents the greater quantity which can be bought on a rise than sold on an equal decline.

The sales at the last call—3:15 p. m.—of the Open Board were: 100 Central and Hudson, 95; 100 Erie, 7⅛; 900 Lake Shore, 53⅞@53¾; 100 Michigan Central, 44⅞; 200 St. Paul, 19¼; 100 preferred, 49⅜; 100 Ohio and Mississippi, 5¼; 100 Jersey Central, 8½; 200 Delaware, Lackawanna and Western, 48¾; 210 Western Union, 63⅜@63¾; 200 Pacific Mail, 21⅞@21¾, and $500,000 gold at 107⅛.

No further change was made in the minimum rate of discount at the weekly meeting of the managers of the Bank of England held to-day, and it stands at three per cent, or a quarter above the last reported rate for three months' bills in the outside market. During the week the bank lost the sum of £167,000 bullion withdrawn "on balance," the proportion of reserve to liabilities which was last week 37½ being 39¾. No bullion movement was reported to-day. Bar silver was quoted up to 54⅝ pence the ounce English standard. The British consols continue strong at 95⅝@95¾, and United States bonds were higher, 10-40s having risen to 108¾; 6½s to 108½, and new fives to 106½. The old 1881s being all exhausted save no longer quoted, but in their place are substituted the new 4½ per cents, which are up to 103½. Idle common was firmer at 7, preferred steady at 16⅞. New-York Central at 96¾, and Illinois Central firmer at 95. The Paris Bourse was closed to-day, "Ascension Day" being always recorded as a holiday. The gold market was strong, but not active, and after opening at 107 later transactions were at 107⅛. On gold loans lending rates were 1½, 1, 2, 2½, and 3½ per cent, carrying, and after clearing-house flat. The foreign exchange market was dull and only steady at quotations. Sterling rates were on the basis of $4 88¾@$4 87½ to the £ for long, and $4 89½@$4 89⅞ for short sight. The Assistant Treasurer paid out $82,000 in coin interest and $170,000 in redemption of called bonds. The day's business of the Gold Clearing Department of the Bank of the State of New-York covered: Gold cleared, $21,495,000; gold balances, $1,668,000; currency balances, $1,787,387. The gold quotations were as follows:

10 ..... 107 | 12 ..... 107⅛ | 3 ..... 107⅛

We annex closing quotations of foreign exchange:
