"train being off," unless off the track, and prices gradually sagged away. At the time we write the information in regard to the Pennsylvania train is very confused, and we do not know whether it is withdrawn or not; but if it is, it is more than probable that the trains which caused the troubles in the West" are taken off, as we have the authority of the President of the Wabash Railway Company for saying its St. Louis train is not and will not be withdrawn.

The coal sales to-day of course were factors in the speculation in the stocks of the companies interested. The first reports from the Pennsylvania company's sale, showing an improvement in the prices for large sizes over its March sale, set some of the bears to buying, among whom was one prominent operator who has heretofore believed in "blue rain," but scarcely had he succeeded in purchasing some 5,000 shares of Delaware, Lackawanna and Western stock at an advance of about ½ per cent, before the later report came showing a falling off of 42 cents for stove size, and 23 cents for chestnut. This proved rather a set-back, but prices nevertheless held remarkably steady till the news arrived from the Delaware, Lackawanna and Western sale, which showed a decline ranging from 42 to 72½ cents per ton, when the real business of the day in these stocks commenced. But owing to the large closing up of short contracts prices did not yield as much as they otherwise would have done. The range of the day was as follows: For Delaware, Lackawanna and Western, 42@41⅞@42⅜@41¼@41⅜@40¼@40⅜; Delaware and Hudson, 38⅜@37@37⅜, and Morris and Essex, 69@67@67⅞. It is to be presumed we shall hear no more reports that the coal companies can get a new dollar back for an old one at the prices of to-day.

Owing to the cause before referred to, the trunk line shares all opened up strong, but later sold off and closed weak at a fractional rally. Central and Hudson sold at 91⅝@91⅞@91@91⅛; Lake Shore at 49¼@49⅝@48⅝@48⅞, and Michigan Central at 40⅝@39@39¼. Of the Western stocks, Chicago and Alton exhibited the greatest decline in selling at 78, against 83 yesterday. Rock Island and St. Paul preferred were supported by their particular friends, so that the first only declined to 93@93¼, and the latter to 48⅜@49⅛. North-Western common sold at 21¾@20⅞, and the preferred at 49½@48⅞@48¼. Western Union was steady and dull at 63½@63⅝@63@63¼, and Pacific Mail erratic at 20¼@20⅞@19⅞@20⅛. Express were quiet and steady.

The sales at the last call—3:15 p. m.—of the Open Board, were: 100 Central and Hudson, 91¼; 400 Lake Shore, 48⅞; 300 Rock Island, 93½; 100 Western Union, 63⅛; and 100 Pacific Mail, 20⅛.

BRITISH GRAIN TRADE.

LONDON, May 29.—*The Mark Lane Express*, in its usual review of the grain trade, says: "The weather during the week has been unsatisfactory as far as vegetation is concerned. Unusually low temperature has prevailed, accompanied by cold winds, which has prevented growing crops making progress. Reports are generally, though not entirely, satisfactory as to the aspect of Winter sown wheat, but growth is everywhere checked by harsh weather. Business in the country markets was a good deal interrupted by the holidays, but an unmistakably weaker tone was apparent in provincial trade during the week. Holders of wheat show more desire to realize, and, sooner than run the risk of overstanding their market, farmers have accepted two shillings less. The tendency in the value of feeding stuffs is also downward. The imports into London last week were over 50,000 quarters. At the commencement of the week sellers showed considerable firmness, and to all appearances owners were content to warehouse their wheat and abide the future course of prices, rather than depress the market already weakened by forcing sales at a concession sufficiently tempting to attract buyers. This state of things continued until Friday, when the return of more Spring-like weather operated against sellers, and prices suffered a further reduction. The holiday character of the week's trade has caused business to be somewhat depressed, but transactions show a decline of three shillings per quarter on the week. The arrivals of floating cargoes at ports of call have been rather more numerous, but the inquiry has been extremely inactive, both for wheat and maize, and prices have been against sellers for both articles. The sales of English wheat last week were 37,197 quarters at 68s. 9d., against 41,958 quarters at 44s. 11d. the previous year. The imports into the kingdom for the week ending May 19 were 978,461 cwts. of wheat and 198,632 cwts of flour.
