Education of the Deaf and Dumb and Blind of North Carolina.

THE Literary Board is pleased to make known, that the School for the Deaf and Dumb commenced operations in the City of Raleigh on the 1st inst., under favorable auspices, though it has to regret that so few of the County Courts, have, as yet, acted on the subject, in accordance with the act of the last General Assembly, as requested in a former advertisement of the Board.

It has been ascertained by correspondence that a School for the Blind can also be established here, upon terms more economical, than those of institutions without the State; and such an one will be opened as soon as a sufficient number of pupils shall offer to justify the undertaking. The Chairmen of the County Courts, Sheriffs and County Solicitors are therefore respectfully urged to bring the act aforesaid to the attention of their courts, and to make returns to the President of the Board of the number of Deaf and Dumb and Blind persons in their counties, between the ages of 8 and 30 years, as early as practicable.

This appeal in behalf of the destitute and unfortunate, will, it hoped, receive at the hands of these officers an attention equally prompt and effective, as if the duty had been imposed by law.

THOMAS R. FENTRESS,
MERCHANT TAILOR,

HAS this day received, and is now opening a large and beautiful assortment of Goods in his line, to which the attention of the public is respectfully invited. It embraces all articles usually kept by the trade, with an extensive assortment of English and French Black Cloths; also, blue, brown and olive; black English and French single and double milled Cassimeres, Fancy Cassimeres, black Bombazine, Drap D'Ete, plain and figured, for Summer Coats and Pants; also, a beautiful assortment of Vestings, comprising Figured, Plain, Black and Fancy Satins, French and English Silks, Cashmeres, Shalleys, Mersailes, fancy and white, and a splendid assortment of fancy articles, such as black and fancy Scarfs and Cravats, and Satin Ties, Hosiery, Black and White Silk Gloves, half Hose, Cotton and Merino Thread Gloves, and Cambrick and Spitalfield Handkerchiefs, white Cotton, white Cotton Knit, Silk and Merino Shirts and Drawers with all articles necessary for Gentlemen's wear.

The above goods having been purchased on the best terms, I can confidently recommend them, both as to quality and style, and will dispose of them at a very small advance for Cash, and to those in want of Clothing, and those who have, heretofore, encouraged this Establishment I would say, come and judge for yourselves before purchasing, and see not withstanding the great inducement that would seem to be offered, these will be disposed of on terms equally as moderate as any house in this City.

Truly grateful for the encouragement he continues to receive, the public may rest assured his best exertions will still be used to merit a continuance of the same.

Gentlemen furnishing their own materials may rest assured, they will be made in the neatest and most fashionable style.

FOR SALE OR RENT,

TWO splendid new Houses and lots on Hillsborough street, leading from the Capitol to the Seminary and about half way between the two. One house is thirty feet by eighteen with a partition in the middle, with four rooms and two fire places, one above and below, and portico in front. The other is forty feet by twenty with a ten foot passage above and below, making all the rooms private, each of which has good and comfortable fire places, and has a portico in front. There is attached to each of the houses a good kitchen, smoke house and dairy &c. and nearly three quarters of an acre belonging to each lot, and under a new plank fence with pailing in front. Both of the houses are nicely finished, and painted both inside and out; as also the out houses and pailing. There is decidedly the best well of water in or about the City, convenient to the use of both lots. This is given up to be the most pleasant and healthy part of the city. Any person wishing to purchase, or rent, will make application to the subscriber.

DR. GUY'S Forensic Medicine edited by Dr. Charles A. Lee, Complete in vol. octavo. This is a comprehensive epitome of all that is known in Medical Jurisprudence, embodying within a convenient compass, all its important facts and principles—illustrated by a sufficient number of cases, but not to such an extent as to overburden its pages with unnecessary detail. It is particularly fitted as a text-book for Students, as well as a manual for the practitioner of Medicine or Law. Concise in its statements, simple in its arrangements, and sufficiently ample in illustration, it present claims to the patronage of both professions, not inferior to those of any similar work of equal size hitherto published.

Notice to Owners of Mills.

HAVING obtained letters patent for grinding up *Corn, Cob* and *Shuck*, in the ordinary Grist Mill now in use, I take this method of informing the public, especially those who may infringe the right without authority, that I shall hold all such persons who may either use or construct any mill or mills upon the principle of my patent, responsible under the patent laws of the United States. I learn that an infringement has been made in this State, and I would notify the public that I have disposed of the patent right for this State to Maj. WM. F. COLLINS of this City—excepting two counties, Halifax and Northampton—and it would be well for all who wish to avail themselves of this valuable and saving improvement, to always advise with him upon the subject before having their mills altered, unless they are satisfied others are acting under his authority. This addition of grinding up the shuck thoroughly, is invaluable. I refer the public to Maj. COLLINS' publication in newspaper form and hand-bills, for particulars, &c.

Save your Corn Cobs & Shucks!!!
To the Planters and Millers of North Carolina.

The undersigned has obtained letters patent to enable common Mill stones (or rocks) now in use, to grind CORN, COB and SHUCK, into meal, for horses, mules, cattle, hogs, &c., thereby saving more than one third of a crop, which is an important item with planters. The machinery used for the above purpose is simple and durable and cannot, with fair means, get out of order. It will last as long as the stones last, with an expense of 50 cents every five years. To enable the common mill stones to grind ear corn into meal, requires no new buildings or extra power. It can also be applied to horse mills, threshing machines, gins or any given power known. The same mill will grind one-third more of corn meal by the introduction of this machinery, and can be changed from grinding corn cob, and shuck to grinding corn meal in the space of thirty seconds. Corn alone when fed to stock, is said to be by the most practical and scientific planters, constipating in its effects, producing founders, cholics and various other maladies which are incident to stock. Grinding cobs and shuck with the corn makes a food congenial with their nature, and cannot produce any of the serious results above mentioned. Stock, when fed on corn exclusively, are deprived of the benefits of distension (so necessary to the proper health of animals,) by their being unable to eat a sufficient bulk to produce distension before the animal becomes gorged. Cobs ground with the corn produce this necessary distension, without any danger of diseases arising from overeating. Corn cob and shuck meal is improved by scalding, and still more by boiling, and yet more by a partial fermentation. All the preparations facilitate digestion for hogs. But horses and mules will not eat fermented food, consequently they will require it dry or partially wet with cold water. Horses, mules and oxen, when fed with unground food, void much in an undigested state, which is of course lost for all beneficial purposes.

☞ Read the subjoined certificate.

☞ The undersigned can be addressed at Raleigh, and all calls will be attended to punctually and with despatch by himself or agent.

WM. F. COLLINS,
Raleigh, Feb. 20, 1845.

Having been solicited by Maj. Collins to have my Mill adjusted to grind Corn in the Ear and Shuck, I consented that he should do so as an experiment; and I am able to say that it grinds Corn in the Shuck at the rate of 30 bushels per hour; and the dressing of the stones is so improved, that it grinds shelled Corn more than twice as fast as before, and by my watch, at the rate of 15 bushels per hour, and the meal finer than usual. I deem it a valuable improvement, and shall purchase the right to use it, as it will afford me a speedy way of feeding my horses and cattle, and save much thereby.

WISTAR'S
BALSAM OF WILD CHERRY,
A Compound Balsamic Preparation from Wild Cherry Bark and Tar,

The best remedy known to the world for the cure of coughs, colds, asthma, croup, bleeding of the lungs, whooping cough, bronchitis, influenza, shortness of breath, pain and weakness in the breast or side, liver complaint, and the first stages of

CONSUMPTION.

We will not assert that this BALSAM will cure Consumption in its worst form, but it has cured many after all other means of relief had been tried in vain. And why not? It seems that the WILD CHERRY was destined by Nature to be our PANACEA for the ravaging diseases of this cold latitude. Let not the despairing invalid waste his money and lose TIME, to him so all important, in *experimenting* with the trashy nostrums of the day, but use *at once* a medicine that will cure, if a cure be possible—a medicine that science approves, and many years of experience have demonstrated that it *always* relieves.

"*There is no such thing as fail*" in the history of this wonderful Balsam. Evidence the most convincing—evidence that no one *can* doubt, fully establishes this fact. For the sake of brevity we select the following from thousands.

Isaac Platt, Esq., Editor of the Pokeepsie Eagle, one of the most influential journals in the state of New York, states, under the authority of his own name, that a young lady, a relative of his, of very delicate constitution, was attacked in Feb. 1842, with severe cold, which immediately produced spitting of blood, cough, fever, and other dangerous and alarming symptoms. Through medical treatment and care she partially recovered during summer. But on the return of winter she was attacked more violently than at first, she became scarcely able to walk, and was troubled with cough, chills and fever every day, and appeared to be going rapidly with consumption; at this time, when there was no sign of improvement, Mr. Platt procured a bottle of **Wistar's Balsam of Wild Cherry**, which she took, and it seemingly restored her. She got a second, and before it was taken she was restored to *perfect health*, which she has enjoyed to the present time, without the slightest symptom of her former disease.

Mr. Platt says "The cure came under my own observation, and I cannot be mistaken as to the facts."

PEMBROKE, Washington Co., Maine, April 29, 1844.

MR. ISAAC BUTTS,—Dear Sir: At the request of many of my friends in this place and vicinity, who are afflicted with consumption and liver complaints, I take the liberty of asking you to appoint some one in this city my agent to sell **Wistar's Balsam of Wild Cherry**, and to send him a few dozen, as there is none of it for sale within 200 miles from this. I have no doubt that it would meet with a ready sale, if it were where it could be procured without too much expense and delay.

My wife was attacked about six months since with what the physicians called the first stage of consumption—a complaint very prevalent in this section of the country. Having seen the Balsam advertised in Augusta, ☞ **200 MILES FROM HERE** ☜ I took the pains to send there for a bottle of it, which she took, and which helped her so much that I sent for two bottles more, which she has also taken, and she now says she has not felt so well for six years as she does at this time. All those who have inquired of me and ascertained what effect the Balsam had, are anxious to have some for sale in this vicinity, which is the cause of my writing to you.

Please inform me by return of mail whether you conclude to send some, and if so, to whom, in order that it may be known where it can be had.

I am, with respect, yours, etc.
P. G. FARNSWORTH, P. M.

The whole country is fast learning that no medicine—no physician—no preparation of any kind whatever—can equal Dr. WISTAR'S BALSAM OF WILD CHERRY.

A TRULY WONDERFUL CURE.

WATERVILLE, Onetlia Co., N. Y., Sept. 15, 1843.

Dear Sir—I owe it to the afflicted to inform you that in January last, I was attacked by a very violent cold, caused by working in the water, which settled on my lungs. It was accompanied by a very severe pain in my breast and and sides, also a distressing cough. I had in attendance all the best medical aid in our village; but after exhausting all their skill to no avail, they pronounced my disease a CONFIRMED CONSUMPTION, and they one and all *gave me up to die*. After much persuasion I got the consent of my physician to use the BALSAM OF WILD CHERRY, prepared by Dr. WISTAR. I purchased of the Agent in our place one bottle before using half of which I began to gain strength, and it was very evident my cough was much better, and my symptoms in every way improving. I have now used three bottles, and am restored to perfect health. This result is alone owing to the use of DR. WISTAR'S BALSAM OF WILD CHERRY; and I take this method of giving information partly to pay you the debt of gratitude I owe you, and partly that others similarly afflicted may know where to apply for relief.

Very truly yours,
JAMES SAGE.

MR. PALMER, Druggist, under date of Wateiville, Sept. 24, 1843, writes:

The statement given you by Mr. James Sage is well known to be true by this whole community. It certainly was a most remarkable cure. The sale of the Balsam is very good, and its success in cures truly flattering.

Yours respectfully,
D. D. PALMER.

THE MOST REMARKABLE CURE EVER RECORDED.

HADDONFIELD, N. J. April 20, 1843.

On or about the 13th day of October, 1841, I was taken with a violent pain in the side, near the liver, which continued for about five days, and was followed by the breaking of an ulcer, or abscess, suddenly, which relieved the pain a little, but caused me to throw up a great quantity of offensive matter, and also much blood. Being greatly alarmed at this, I applied to a physician, but he said he though he could do but little for me except give me some *Mercury Pills*, which I refused to take, feeling satisfied that they could do me no good; many other remedies were then procured by my wife and friends, but none did me any good—and the discharge of blood and corruption still continued every few days, and at last become so offensive that I could scarcely breathe. I was also seized with a violent cough, which at times caused me to raise much more blood than I had done before—and my disease continued in this way, still growing worse, until February, when all hope of my recovery was given up, and my friends all thought I would die of a **Galloping Consumption**. At this moment, when my life was apparently drawing near its close, I heard of **Dr. Wistar's Balsam of Wild Cherry**, and got a bottle which **relieved me immediately**; and by the use of only three bottles of this medicine, all my pains were removed—my cough and spitting of blood and corruption entirely stopped, and in a few weeks my health was so far restored as to enable me to work at my trade, (which is a carpenter,) and up to this time I have enjoyed good health.

THOMAS COZENS.

GLOUCESTER COUNTY, N. J., ss.

Personally came before me, the subscriber, one of the Justices of the Peace in and for the said county, Thomas Cozens, and being duly affirmed, according to law, saith the above statement is in all things true.

Affirmed before me, on the 20th day of April, 1843.

Such is the unprecedented success of this BALSAM,

"NATURE'S FAVOURITE PRESCRIPTION,"

a prescription congenial to our wants, as it is prepared from chemical extracts from substances which the author of nature has placed in our own land for wise purposes, that many who know nothing of the mode of its preparation are endeavouring to reap pecuniary benefits by selling an article similar in name, or in appearance, or by representing their own trash as superior to the BALSAM, or by putting up a mixture and solemnly asseverating that it is imported from a foreign country, which is not the case. All these deceptive arts go to show that **Wistar's Balsam** is known to the world to be "**THE GREAT REMEDY**," and that to *sell* any mixture it must be *like* this *in name*, or *purport* to be like it in substance.

☞ Believe not the cunningly wrought fabrication—and take only the original and genuine **Wistar's Balsam of Wild Cherry**,

NO OTHER CAN BE LIKE IT.

The North Carolina Standard.
W. W. HOLDEN, EDITOR and PROPRIETOR.

WHEN the undersigned took charge of the Standard, on the 1st of June, 1843, its list numbered about one thousand subscribers. Since that time this number has considerably increased, but it is still insufficient to support such a paper as the democracy of the State desire to have at the seat of government. All the friends of the paper, with whom the undersigned has conversed and corresponded on the subject, think that the list may be increased to at least four thousand. Cannot this be accomplished? The undersigned respectfully submits whether, out of 40,000 democratic voters in North Carolina, there cannot be obtained for the Central Journal a permanent circulation of four thousand copies?

It is needless, perhaps, to say that the Standard will be constantly devoted to the support and promulgation of democratic principles, and that its Editor will labor, month by month, and year by year, with whatever abilities he may possess, to destroy the odious and dangerous doctrines of the Federal party. And it may not be improper to state here, that at a late meeting of the Democratic State Central Committee for North Carolina, a Resolution was passed heartily and entirely approving of the course of the Standard since it has been under the control of the undersigned, and recommending to the party throughout the State the importance of increasing its circulation. The Standard will continue to give attention as heretofore, to miscellaneous reading, and to the general news of the day; and no efforts nor pains will be spared to render it an useful and interesting sheet. To those who, at the commencement of his labors, gave to the undersigned a generous support and confidence, and who continue to cheer him by their patronage and friendship—and indeed to the whole democratic party of the State—he tenders his sincere thanks.

TERMS OF THE STANDARD.

For a single copy, three dollars per annum *in advance*. One copy for two years, or two copies for one year, for five dollars, *in advance*. For four copies ten dollars; for ten copies twenty dollars—*in advance*. Any person procuring and forwarding five subscribers with the cash ($15) will be entitled to the paper one year *free of charge*.

DR. SPENCER'S VEGETABLE PILLS

"Prove all things, and hold fast that which is good." PAUL.

THESE PILLS have now become the domestic medicine of almost every family. They are considered by all who have given them a trial, to be the most pleasant, safe and effectual medicine in use—they have the sanction and approval of the most eminent Physicians who have adopted them in their practice, purchase them by the dozen boxes of the agents, administer them to their patients, and recommend them as being superior to any other Vegetable Pills before the public. They are not only vegetable in name, but in substance, and act as a friend to Nature in all her operations. They may be taken by persons of any age; and the feeble and the infirm, the nervous and delicate are strengthened by their operation; because they possess tonic and restorative properties, independent of their aperient effects. And females will find them to be decidedly the best medicine in use for the complaints peculiar to their sex. In sick-headache, costiveness, and bowel complaint, they stand unrivalled. The habitually costive should not fail to give them a trial, as their action is entirely different from most medicines recommended for this complaint, and they leave the bowels in a fine and healthy state, as may be seen by the following certificate from Mr. Isaac M. Thomas, merchant, at Taladega, Alabama:

TALADEGA SPRINGS, Taladego Co., } August 17th, 1842. }

This is to certify that I have been afflicted with sick-headache, dyspepsia, liver-complaint, and costiveness for the last eight or nine years, during which time I had taken, as well as I can recollect, about 60 boxes of Beckwith's Pills, 12 boxes of Peters' Pills, and a number of boxes of Champion's and Brandreth's Pills, all of which afforded me but little or no relief. At last I was recommended to try Dr. Spencer's Veg
