INDIAN APPROPR... ARE MISSING

Fine: Fat Cattle, 140 Head ... not Be Located.

Shawnee, O. T., Feb 17.—Last night a report was on the street, says the Democrat, that 140 head of cattle had been stolen from McFarland's feed pens and nobody appeared to know any of the details.

One hundred and forty head were undoubtedly missing, and every effort is being made to locate them as well as the thieves.

One hundred and forty head at the average price would amount to over $5,000 as the cattle were fat.

The affair has been the talk of the town today and many theories advanced. No details can be procured.

Their Claims Set at Rest.

The claim of other cough medicines to be as good as Chamberlain's are effectually set at rest in the following testimonial of Mr. C. D. Glass, an employe of Bartlett & Dennis Co., Gardiner, Me. He says: "I had kept adding to a cold and cough in the winter of 1897, trying every cough medicine I heard of without permanent help, until one day I was in the drug store of Mr. Houlehan and he advised me to try Chamberlain's Cough remedy and offered to pay back my money if I was not cured. My lungs and bronchial tubes were very sore at this time, but I was completely cured by this remedy and have since always turned to it when I got a cold, and soon find relief. I also recommend it to my friends and am glad to say it is the best of all cough medicines." For sale by the City Drug Store and F. J. Ramsey.

There is a report, and it's gaining strength every day, says the St. Louis Globe-Democrat, that the St. Louis & San Francisco railroad is about to pass into control of the Santa Fe.

Pandora, so runs the myth, let all the ills of life out of her box to prey upon mankind, but shut the cover soon enough to prevent the escape of hope. Hope remains to every sufferer but it is only an ignis-fatuus unless it takes on some tangible form. The hope of recovery is treasured by every one who suffers from weak or bleeding lungs, obstinate and lingering cough, bronchitis or similar ailments, which, if neglected, or unskillfully treated lead on to consumption. That hope becomes a practical and tangible thing when it is based on the use of Dr. Pierce's Golden Medical Discovery. Such a hope is reasonable because thousands of men and women emaciated and weakened by disease have been made sound and well by the use of "Golden Medical Discovery."

Such people are invited to consult Dr. R. V. Pierce, Buffalo, N.Y., by letter. All letters are carefully and considerately answered. Each letter is held as sacred confidence and every answer is mailed in a plain envelope without any printing upon it. Write without fear and without fee.

"I was taken sick in July last year, and was not able to do any kind of work until November," writes Mr. Noah W. Orvin, of Langley, Aiken Co., S. C. "Had been coughing up small hard lumps of phlegm for about a year. Before I was taken down I then called on a doctor, who attended me for two months, and said that one-half of my left lung was gone, and advised me to leave my home (Charleston, S. C.) and go to the country, but did not say what sort of disease I had. I thought it was consumption, and wrote to you for advice. I took four bottles of Doctor Pierce's Golden Medical Discovery, which I sincerely believe has done me more good than all the other medicines I have ever taken."

The use of Dr. Pierce's Pleasant Pellets does not beget the pill habit.

A powerful engine can not be run with a weak boiler, and we can't keep up the strain of an active life with a weak stomach; neither can we stop the human machine to make repairs. If the stomach can not digest enough food to keep the body strong, such a preparation as Kodol Dyspepsia Cure should be used. It digests what you eat and it simply can't help but do you good.
