the Wisconsin stocks. The decline in their prices from the highest figures has been so great that there is a diversity of opinion as to their immediate future, and hence there exists a genuine and general speculation in these stocks, with the "bulls" and "bears" about equally balanced as to numbers. No such speculation prevails in other stocks which are under the control of cliques. Of the Western "investment" shares, Chicago, Burlington and Quincy and Rock Island were a shade lower, while Chicago and Alton rose to 85. Union Pacific advanced to 65⅜@65¾. Wabash again was forced up to 15¾, in forgetfulness of the fact that on October 1 the company has to make a report of its business to the United States Court. The C., C., C. and Indianapolis speculation met with a reverse in a fall in the price of the stock to 30½@31, and the Hannibal and St. Joseph stocks made a sharp decline, although later they recovered.

The trading in Delaware, Lackawanna and Western exhibited a wondrous unanimity of opinion as to values among the buyers and sellers: 27,900 shares changed hands between the figures of 50½ and 51¼; 21,000 shares were at 50⅝@50⅞, but the final price was 51¼. Delaware and Hudson was neglected at 48⅞@48⅝, as also was Morris and Essex at 83@82⅝. New-Jersey Central sold at 33¾@34⅛. Western Union, on a small business, suffered a further decline to 93, and then recovered to 94. The market closed irregular—strong for the Western stocks, and steady at the reaction from lowest prices, for the general list.

*Ex-interest.

In State bonds, Missouri 6s of 1888 sold at 102¾@102⅞, of 1889 or 1890 at 102⅞, South Carolina non-fundable 6s at 1¾, Virginia consolidated 6s, second series, at 31, and deferred 6s at 5¾.

Of city bank stocks, the only sale was of Merchants' (32) at 124½.

A well distributed though not heavy business was done in railway bonds. The consolidated firsts of New-York Central yielded to 117½, and the Pacifics were barely steady: Centrals at 105⅞@105⅝, and Union firsts 105¾, land grants being firm at 106⅛. Rock Island new 6s were higher at 108¾, St. Paul consols steady at 93⅞, Northwest gold bonds at 99, Michigan Central 7s at 111½, and firsts of Jersey Central at 113¾. Missouri, Kansas and Texas consols, assented, sold at 40¼, Louisville and Nashville coupon 1898s at 108, firsts of C., C. and I. C. at 44½, and Buffalo and Erie new consolidated at 111½.

Most of the sales of gold to-day were at 100⅜ and two days' interest, the extremes being at 100⅜ and 100¼. On gold loans the lending rates were ½@1 carrying, flat, and 1 for borrowing. The Assistant Treasurer paid out $110,000 in coin interest and $124,000 in redemption of called bonds. The day's business of the gold-clearing department of the Bank of the State of New-York covered: Gold cleared, $13,338,000; gold balances, $1,073,000; currency balances, $1,078,295.

Foreign exchange was weak and lower again. Standard rates were reduced to the annexed quotations, actual rates following down to $4 81½ and $4 86 to the £:

Prime bankers' sterling bills on London.	60 days.	3 days.
	$4 81½@4 82	$4 85¾@4 86½

Hamburg (reichmarks)	94⅞@ 94⅞	94⅞@ 95⅛
Frankfort (reichmarks)	94⅞@ 94⅞	94⅞@ 95⅛
Bremen (reichmarks)	94⅞@ 94⅞	94⅞@ 95⅛
Berlin (reichmarks)	94⅞@ 94⅞	94⅞@ 95⅛

The local money market was unchanged, and call loans were quoted at 1½@2½ per cent, according to the collateral. The market for commercial paper rules slow, and little is done below 4 per cent.

The United States Treasurer at Washington today received $370,000 National bank notes for redemption. The customs receipts were $550,000, and internal revenue receipts $250,000. The following is the Clearing-House statement to-day: Currency exchanges, $48,385,237; currency balances, $2,534,193; gold exchanges, $5,374,490; gold balances, $942,263.

The further large sum of £207,000 bullion went into the Bank of England "on balance" to-day, making a total in that way of £462,000 in five days. In London, British consols stiffened to 94⅛ for money, and to 95 for the account; while in United States bonds, 10-40s rose to 108½, new 5s ruling steady at 108⅜, 4½s at 105¾, and 1867s at 107⅜. We quote American railway securities as follows: Erie common 13⅝, preferred at 30½, Illinois Central at 81, Pennsylvania Central at 39¼, Jersey Central at 34, and Reading at 16⅞. In Paris, the 5 per cent French rentes declined to 112.87½; sight exchange on London being quoted at 25.29½. A Berlin dispatch states that the Imperial Bank of Germany during the week lost 7,600,000 marks.

The attention of the holders of the Danville, Urbana, Bloomington and Pekin, and Indianapolis, Bloomington and Western consolidated first and second mortgage bonds, Main Line, is directed to an advertisement, relating to the proposed reconstruction of the properties, which appears in another column.

The following is the Canal Auditor's comparative statement, showing the total quantity (in tons) of each article cleared by the canals, since their opening to the 1st of September:

BERLIN, Sept. 10.—The statement of the Imperial Bank of Germany shows a decrease in specie of 7,600,000 marks.

THE BRITISH CORN TRADE.

LONDON, Sept. 10.—*The Mark Lane Express* says: "Recent advices from Norfolk, which is an important Barley growing country, stated that fully half of the crop was still in the fields, and it is feared that the grain has already become too much discoloured to render it available for malting purposes. Wheat so was secured before the rain set in, more particularly the earliest gathered, is very fine. Scotch and Irish reports complain of broken weather, which prevented the securing of the crops. The supplies of new Wheat have been fair. Prices have favored sellers for all dry lots. Sellers exhibited a good deal of firmness, and business, to some extent, was checked thereby. Increased attention has been paid to foreign Wheat during the past week, especially to fine old Russian and American sorts. An advance of 6d. to 1s has been obtained on these descriptions. The cereal year has commenced with prices of all produce at a healthy level, and although 1s marked rise can be anticipated in the immediate future in view of large shipments from America, and the tendency which such an advance will have to reduce values, still it may not be too much to say that the enormous requirements of this country may be relied on to absorb the supplies at prices little below those ruling in London. Another point is the fact that should the imports of Wheat from American Atlantic ports increase, Russian supplies will necessarily cease as soon as her ports are closed by Winter. In feeding stuffs rather more business is passing. Grinding Barley has risen 1½ per qr. from the recent lowest point. Maize is also rather dearer, but with continued heavy imports, both into London and Liverpool. The upward movement has made but slight progress."
