MORE MONEY IN THE BANK

The Bessemer Oil Field Engine is reasonable in first cost. It is absolutely fair to the buyer. You get value for every cent spent with us.

The upkeep expense is low. Many Bessemers run for years without a cent spent for repairs. Should repairs be required they are easily and quickly secured from branch offices and warehouses and the prices of parts very low.

Bessemers are considered by many as lease operation—insurance, a guarantee against shut-down or break-down, assurance that you will get MAX. your production at minimum expenditure.

The Bessemer is the engine with the crosshead, the engine without valve troubles, the engine of reliability and dependability, the engine with a score of exclusive features.

Bessemers can be delivered to you from stock in all active fields.
