SATURDAY, Sept. 14—P. M.

The bank statement for the week shows a loss of $1,792,300 in legal-tenders, a gain of $1,601,600 in specie, and an expansion of $782,200 in loans. The circulation is increased $416,000. These figures present an increase of only $175,500 in the deposits which, however, are reported to have increased $1,557,800. The week's movement results in a reduction of $580,150 in the surplus reserve, and leaves it at $12,878,050, against $13,458,800 a week ago. The total reserve ($67,445,900) is now 30.90 per cent of the total deposits, against 31.21 for last week and 32.82 for the preceding week. Deducting the specie in full from the deposits, the greenback reserve ($48,445,900) is now 24.48 per cent of the remaining currency deposits, against 25.37 and 27.08 for the two preceding weeks. The comparative totals are as follows:

	Sept. 7.	Sept. 14.	Differences.

The stock market to-day was even more than usually spasmodic in its movements. At one moment the roar of hundreds of voices offering and bidding for stocks seemed to indicate an intense excitement. In another moment not a trace of the late apparent active business was visible, and scarcely a voice was heard in a tone above that of ordinary conversation. The final results of these fitful movements, of which there were several during the day, were varied. While with the trunk lines and coal stocks each recurring spasm further advanced their prices, with the shares of the Western railways the gains of each spasm were lost in the succeeding dulness, so that both classes of the St. Paul and Northwest common closed at figures below those of the opening, and Northwest preferred only ⅜ better than its first price, after having advanced ⅞ per cent to 68⅜. Central of New-Jersey was particularly prominent on small transactions, because of an advance to 36¾; for this an alleged reason was furnished by reports of the wonderful business of its Long Branch line. Delaware, Lackawanna and Western also was active and higher, rising to 53⅛, and closing firm at 53. Lake Shore made a clear gain of 1 per cent, closing at 67½, after passing through several alternations of activity and dulness. Central and Hudson rose to 114⅛. Michigan Central to 70½@70⅝, and Erie to 14. Ohio and Mississippi was better at 8⅛@8¼, on the belief that a contest for control of the directorship is likely to occur at the October meeting of the stockholders. Western Union was dull between 94⅜@94⅞, closing at 94⅝.

EUROPEAN FINANCIAL MARKETS.

LONDON, Sept. 14.—*The Economist* says: "The rates of discount are a shade easier. Bank bills, sixty and ninety days are quoted at 4¼@4⅜ per cent, and three months' bank bills at 5 per cent. The most noticeable features of the stock market have been the recovery of consols, in consequence of easier money, and the depression in Turkish, Austrian and Russian securities, in consequence of the Bosnian and Albanian insurrections. Business has been very slack, except for Egyptian securities, which are in strong demand at a considerable rise. American Government securities have been well supported from New-York, but the railway department was less animated, the lines serving the Western and Southern States suffering in consequence of the yellow fever."

LONDON, Sept. 14—12:30 p. m.—Consols 95⅛ for money, 95⅝ for the account. Erie Railway shares, 14; do. preferred, 30½; Illinois Central, 80½.
