EUROPEAN FINANCIAL MARKETS.

LONDON, Oct. 29.—French capitalists took good three months' bills here yesterday as low as 5 per cent discount. In Paris, in the open market, the rate of discount is 2⅝@2¾ per cent. The next Bank of England return is expected to show favorable changes. *The Times*, in its financial article, however, is apprehensive that the money market is not safe from American and German demands for gold. The Afghan affair may require the Government to send silver to India. The Indian market for silver is now bare, and a demand thus created would raise the price. The price is kept up by the German stock, which is believed to be still large.

LONDON, Oct. 29—12:30 p. m.—Erie Railway shares, 17; do. preferred, 28½; Illinois Central, 79⅝; New-Jersey Central, 30.

LONDON, Oct. 29—3:30 p. m.—Consols, 94 1/16 for money, 94⅛ for the account; Erie Railway shares, 17⅝.

LONDON, Oct. 29—4 p. m.—The amount of bullion gone into the Bank of England on balance to-day is £618,000. Silver is quoted at 50¼d. per ounce.

LONDON, Oct. 29—4:15 p.m.—U. S. bonds, New fives, 105⅝; 1867s, 107¾; Erie Railway shares, 17½; Illinois Central, 80½. Paris advices quote five per cent rentes at 112 francs 55 centimes for the account.

LONDON, Oct. 29—5 p. m.—U. S. bonds, four and a half per cents, 105⅝; 1867s, 107¾; New fives, 106; Erie Railway shares, preferred, 28⅝; New-Jersey Central consols, 82⅛.

PARIS, Oct. 29.—Exchange on London, 25 francs 32 centimes for short sight.

THE BRITISH CORN TRADE.

LONDON, Oct. 29.—*The Mark Lane Express*, in its review of the British Corn Trade for the past week, says: "The supplies of English Wheat were fair. There was some improvement in the condition of the offerings, although it has been slight. Values have probably touched the lowest point. The imports of foreign Wheat into London were more moderate than of late, although fully sufficient for our requirements. The supplies were insufficient to exercise a depressing influence on prices, but the week's business has been meagre. Indian Wheats are beginning to arrive more freely, for which there has been some Continental inquiry, but not much from English millers."
