SUFFRAGISTS PLAN UNION FOR BATTLE

Organization of National Body for Legislative Program Will Be Discussed at St. Louis.

MRS. CATT TELLS PURPOSE

President Reaches City for Convention Which Will Open Convention Monday.

ST. LOUIS, March 21.—Organization of a union of national scope which will unite the women of the country for effective action in carrying out legislative programs in the interests of women will be the important work of the jubilee convention of the national women's suffrage convention which opens here Monday.

This announcement was made by Mrs. Carrie Chapman Catt, president, who arrived with the vanguard of the convention today.

"It is all hypothetical as yet," Mrs. Catt said, "but one idea is to pattern it out after our own form of government with two houses, the upper and lower, the higher house to be composed of delegates who have full suffrage powers, the lower of those who have no suffrage powers. The status of delegates from partial suffrage states will be disposed of later.

"This organization would concentrate its attention upon congress, state legislatures and boards of aldermen for these are the law making bodies. The purpose would be to sweep out of the way certain relics of antiquity, neglected details in the laws which, while they do not oppress women as a whole, do injustice to a minority unable to defend themselves.

"For example there are laws such as one in Florida making the age of consent 10 years, which ought to be revised upward more nearly to approximate that of Wyoming where it is 18 years; and in Louisiana a mother has no claim upon her children, while in Illinois she is equal guardian.

"It is believed that a national organization of voting women co-operating with non-voting women would produce a force whose pressure could be brought effectively to bear upon measures affecting women and their interests anywhere."

Mrs. Catt bitterly denounced United States Senator James A. Reed for his opposition to the proposed league of nations.

"Senator Reed's opposition to the league is a strong argument that it should be adopted," she said. "His influence is almost limited to his own vote."

Others who denounced Reed were Dr. Anna Howard Shaw, and Miss Mary Garrett Hay, second vice president of the association.
