The Western Petroleum Refiners' association held a meeting yesterday at Kansas City, an unusually large number attending. IS THERE NO RELIEF FROM SKIN TORTURE?

Must I Continue to Suffer the Unbearable Itching?

Your hopeless discouragement doubtless comes from the fact that you have tried so many local remedies that gave only temporary relief. After their effect wore off, you found the disease more aggravated than ever.

But there is no reason to despair. There is real rational relief from terrifying, burning skin diseases, a treatment that does give results by going down deep to the very source of the trouble and attacking the disease where it originates.

No matter how many different kinds of salves, lotions, ointments, washes or other local remedies you have tried, you find that such treatment has made no progress whatever toward curing the trouble and you must realize that it never will.

You must realize that the fiery, burning irritations on the surface of the skin are only symptoms of the disease. Local treatment applied to these irritations can only alleviate the itching—but cannot possibly stop what causes the itching and the disease will remain with you in all of its severity with all of its fiery, flaming torture until the cause is located and removed.

The skin is fed by the blood, and as long as the blood is absolutely free from impurities the skin will remain clear and healthy. Any skin disorder therefore, has its origin in the blood and the only successful treatment must be through the blood.

If you will waste no further time on local treatment, but will treat the disease at its source—where it starts—you will soon find that you can be rid of the pain and torture and have a complexion that is ruddy and reflects the glow of a perfectly healthy skin.

S. S. S., the reliable old blood remedy has always given splendid results in the treatment of skin diseases, because it so thoroughly cleans the blood that every trace of impurity is removed and the blood supply is kept pure and healthy. You can confidently rely upon S. S. S. for any manner of skin disease, for it has been used for more than fifty years.

S. S. S. is sold by all druggists and is known to be thoroughly reliable and honest remedy. Get a bottle and begin taking it today, and if you wish any special instructions about your individual case, you can get full advice free by writing to Chief Medical Adviser, 80 Swift Laboratory, Atlanta, Ga.—Adv.
