WEDNESDAY, April 2—P. M.

In reply to numerous inquiries, what is or will be the total debt and capital of the New-York, Lake Erie and Western Railroad Company when its organization is completed, the following statement is compiled from President Jewett's report of December 19, 1878:

Old bonds, consisting of 1st, 2d, 3d, 4th, 5th mortgages and Buffalo Branch bonds, all bearing 7 per cent interest	$13,338,100
First consolidated mortgage 7s	16,656,000
Prior lien bonds that are secured by the first consolidated mortgage and bear 7 per cent interest	2,500,000
Funded coupon first consolidated 7s	3,615,444
Second consolidated 7s	24,180,000
Funded coupon second consolidated, interest at 5 per cent from June 1, 1878, and at 6 per cent after June 1, 1883	8,520,651
Income 6s, due accumulation	508,0 8
Total debt	$69,318,203
Preferred stock	8,146,700
Total before the common stock	$77,464,903
Common stock	77,107,700
Total capitalization	$154,572,603

In addition to the foregoing, the company holds and may sell 3,902 shares of preferred and 8,923 shares of common stock that was unassented, and $820,000 second consolidated mortgage bonds, which, when disposed of, will increase the debt and share capitals by the amounts named. The first consolidated bonds bear full interest after March, 1879. The first consolidated funded coupons bear full interest after September, 1878. The second consolidated bonds bear interest from December 1, 1879, the first coupon being payable June 1, 1880, while the second consolidated funded, as above stated, bear interest from June 1, 1878, at 5 per cent until June 1, 1883, after which they bear 6 per cent interest. The prior lien bonds, which are secured by the first consolidated mortgage, bear interest from date of issue, as they are issued to meet the expenses, payments and indebtedness of the receiver and the reorganization expenses here and in London.

The annual report of Receiver J. H. Devereux, of the business of the Atlantic and Great Western Railroad for the year ending December 31, is of such a doleful character that comments are out of order. The grand result is given as follows:

Gross earnings from road	$5,745,296
Earnings from other sources	12,352
Total earnings	$5,757,649
Operating expenses	2,972,858
Net earnings	$784,791
Deduct—	
Rental of equipment $356,194	
Rental of leased lines 212,373	
General expenses and taxes 156,094	
	804,661
Deficit	$19,899
Add expenditures for additions	108,261
Total deficiency	$128,161

The results of the operations of the road under the receivership during the period from December 10, 1874, to December 31, 1878, were as follows:

Gross earnings from operations	$15,372,819
Gross earnings from other sources	40,373
Total earnings	$15,413,192
Operating expenses	11,985,277
Net earnings	$3,427,915
The fixed charges for the same time were:	
Rental of equipment	$1,255,375
Rental of leased lines	1,287,163
General expenses and taxes	52,329
	3,071,168
Net income during receivership	$356,747
The amount expended for additions and betterments, which the report says are strictly chargeable to capital account, was	362,943
Net deficit for four years and twenty days	$6,196

The foregoing figures include no charges for interest on the general debt of the Atlantic and Great Western Company. The receiver, in addition to operating the road of the company, paid certain preferred claims against the company, so that his account as receiver on December 31, 1878, stood as follows:

The receiver owed	$1,494,561 88
From which deduct his "live assets"	495,374 99
Leaving to be provided for	$998,186 89
The receiver has paid liabilities of the A. & G. W. R. R. Company amounting to	$1,389,945 02
He has received from the assets of that company, cash only	319,334 27
Cash paid for the "liabilities of the A. & G. W. R. R. Company" over and above the cash collected from the assets of that company, and which it repaid, would enable the receiver to pay his entire indebtedness	$1,070,620 75

Our weekly summary of the movement of grains at the principal points for the week ended April 1, that are printed below, possess more than usual interest. For the week, as compared with the same week of 1878, Baltimore shows increased receipts of 578,762 bushels, Philadelphia 184,200 bushels, and Boston 138,022 bushels; total increase at the three points 801,022 bushels, while New-York declines 187,060 bushels. The total receipts for the week of this year at the three ports were 2,836,536 bushels, against 1,619,929 bushels at New-York. The total receipts since January 1, 1879, at New-York, have been 19,937,550 bushels, against 25,166,444 bushels at the other three ports, New-York being 5,228,894 bushels behind the other ports; while for the same time in 1878 the receipts at New-York were 460,400 bushels in excess of the total receipts at the other ports, as follows: New-York 26,275,839 bushels, and Baltimore, Philadelphia and Boston 19,815,439 bushels. At Chicago and Milwaukee the receipts did not materially vary from the receipts of preceding weeks of this year, but as compared with 1878, when the receipts at this season were extraordinary, the decline is large.

A restricted business and a feverish tone is the general record of to-day's stock market. The total transactions amounted to only 111,500 shares, against 145,832 shares yesterday and 175,068 shares on Monday. There were, however, some exceptions to the general tone of the market, among which was Central of New-Jersey stock, which rose to 40 on an unusual amount of business. Regarding the stock much stress was laid upon a dispatch published to-day that the Lehigh and Wilkesbarre Coal Company was about to increase its output of coal. This, it was argued, would add to the tonnage of the Central Road. But this reasoning omitted to take into the calculation the fact that tolls on coal are graduated according to the price of coal; hence a low price per ton means low tolls, although it may mean a greater quantity. The other coal stocks did not sympathize with the movement of Central of New-Jersey, but were heavy from the opening to the end, although closing at a fractional recovery from the lowest prices. The general market, after a slow decline, made a vigorous rally when money became easy, but it did not hold to the end, and at the close the tone was weak.

RANGE OF THE STOCK MARKET.

As reported by the Gold and Stock Telegraph Company.

Tennessee 6s, old bonds, were firm at 37½, and Louisiana consols steady at 49½.

A large business was done in railroad bonds at firm prices for all the leading varieties. The Erie consolidated seconds were conspicuous for large dealings again at an advance to 68½. They are sold on seller's option, as the bonds are not yet ready for delivery, and interest on the options is settled by agreement at 4 per cent. Old seconds sold at 102½, and Long Dock at 114. Jersey Centrals were firm, consols at 84¾, convertibles at 84½, and Lehigh consols at 50. Chicago and Northwest gold consols were up to 108⅜, and St. Paul sinking funds steady at 102⅞. Morris and Essex 7s of 1871 selling at 101½. Delaware and Hudson 1891s at 98¾. Albany and Susquehanna seconds at 102½. Denver and Rio Grande firsts at 89⅝, and Hannibal and St. Joseph convertible 8s at 105⅞. The bonds of the elevated roads were strong, Metropolitan at 96⅜@96½, and New-York at 106. Central Pacific plain bonds were firm at 109⅞, San Joaquin branch at 96¼@96, and Union firsts at 109¼. South Pacific first fetching 94⅞. Kansas Pacific incomes No. 16 fell to 38½, Denver extension trust receipts being up to 106⅞.

Money on call was again active and stringent today, and on miscellaneous collateral there was nothing, save in an exceptional way, done below 7 per cent. The rate was 7 to 1-32 and interest; late the rate declined to 5 per cent. On United States bonds the rate was 4, and on time 6@6½. Discount of prime paper was quoted at 6@6½. The United States Treasurer at Washington to-day received $100,000 in National bank notes for redemption. The customs receipts were $500,000, and the internal revenue receipts $220,000. The following is the Clearing-House statement to-day: Currency exchanges, $68,271,374; currency balances, $8,922,372.

Foreign exchange was dull and about steady. We annex current closing quotations:

In London, consols advanced to 97⅝c. United States bonds were firm: 1867s at 104½, new 5s at 106⅝, new 4½s at 107⅝, new 4s at 101½, and 10-40s at 104½. In American railway securities, Erie fell to 25⅝, and preferred to 46½, closing at 47½. Jersey Central 39¾, and consolidated bonds 80½. Illinois Central remained firm at 84. The sum of £112,000 bullion went into the Bank of England "on balance" to-day, making a total in that way of £80,000 in six days. In Paris rentes closed at 114.62½; exchange on London being 25.27.

Attention is directed to an advertisement in another column addressed to the holders of the equipment bonds of the Toledo, Wabash and Western Railroad Company.

The following is the statement of liabilities and assets of the Treasury of the United States as of April 1, 1879, from latest returns received.
