The Standard Mining Company has declared a dividend of 50 cents per share for May.

Government bonds to-day were more active, particularly the new 4 per cents, which sold at 102¾@103 to 102⅞ for coupons, and 102 for registered. Other issues were quiet and steady at quotations. District of Columbia 3-65s recovered to 88 sales on the announcement that the Governor had signed the bill permitting investments by trust companies and savings banks in the bonds. Annexed are the closing quotations:

In State bonds, a fair amount of business was done in Louisiana consols from 46 up to 42. South Carolina 6s non-fundable sold at 2⅞, other issues being neglected.

Of city bank stocks, the day's sales covered Marine (50) at 100¾, and Park (5) at 99½.

The feature of the railroad bond market was the active speculation in the new issues of Erie at declining prices. Second consols opened at 72½, fell to 71⅞, recovered to 72¼, and then dropped to 71⅛. The reported sales of this issue amounted to $561,000. Less was done in the funded 5s at 72¾@72⅞. Central of New-Jerseys were irregular, selling at 93¾@94¾@94⅛, while Lehigh and Wilkesbarre consols rose to 64¾@64½. Missouri, Kansas and Texas bonds were better at 66⅝@66 for consols and at 31⅞@31¾ for seconds. C., C. and I. C. firsts also advanced 1¾ per cent to 71¼, and seconds 2 per cent to 24. Burlington, Cedar Rapids and Northern were ¼ lower at 69, and Hannibal and St. Joseph 8s ¼ at 107¾. The Elevated roads were steady at 108@108⅞ for Metropolitan firsts, and strong for New-Yorks at 116½@116¾. Canada Southern guaranteed yielded ¼ to 83¾. We note sales of Michigan Central sinking fund 8s at 109¼, and 7s at 117½. Pittsburg, Fort Wayne and Chicago firsts at 125½, Chicago and Alton incomes at 101½ for a small amount, Houston and Great Northern purchasing committee's receipts at 85, and International purchasing committee's receipts at 86. The Pacific issues were steady with hardly any business done.

The money market continues to be active, the range of rates at the Stock Exchange to-day having been 5 to 7 per cent, with 4 per cent quoted as the closing rate after all the loans had been made. On Governments the ruling rate was 3 per cent. No change is noted in rates for discounts nor for domestic exchange on New-York. The United States Treasurer at Washington to-day received $660,000 in National bank notes for redemption. The customs receipts were $640,000, and the internal revenue receipts $210,000. The following is the Clearing-House statement to-day: Clearances, $80,747,004; balances, $2,726,340. The business at the Sub-Treasury to-day covered: Receipts, $2,726,340; payments, $2,073,096; currency balance, $41,170,-160; coin balance, $123,971,015.

Foreign exchange was dull, but rates remain firm at the annexed quotations:

In London to-day, British consols declined ⅛ to 98 1/16, and United States bonds were lower, new 4s declining ⅜ to 105⅛, and 4½s and 5s each ⅛ to 108⅝ and 105⅝ respectively. American railways were irregular, Erie falling from 28⅝ to 27¾, preferred from 53¾ to 52½, and second consols from 74 9/16 to 73½. Central of New-Jersey opened up at 53 and declined to 51½@51¾, consols advancing ½ to 96½. Illinois Central fell 1 per cent to 88, Pennsylvania being steady at 38¼, and Reading rising to 20¾. Bar silver advanced to 52½d. per ounce. English standard. In Paris, French rentes opened at 116.30 and declined to 116.10, against 115.77½, the closing price of Saturday.

Messrs. Moller & Co. announce by advertisement that they will buy and sell small quantities of the stocks and bonds of the several elevated railroad companies of New-York.

The following table shows the comparative total receipts of flour and grain, and the routes that delivered them, at New-York in the months of May, 1878 and 1879. A portion of the total decline in the receipts of grain this year, amounting to 4,743,-607 bushels, and of the loss of 7,343,290 bushels to the water routes, may be set down to the fact that the canals this year did not open until May 8, while in 1878 they were opened on April 15. But the gains made by the railroads are due to the fact that they are carrying the grain at less than water rates:
