Let This Pump Furnish "Slush" To Your Drills

"Santa Maria" pumps were especially designed for service in connection with rotary drill outfits. You can depend on them for this and other similar severe service under high pressure.

These slush pumps have semi-circular cross section cradles which permit easy access to gland studs and stuffing boxes. There are no ribs in the valve seats—means a free passage for the liquid pumped—less friction—increased efficiency—longer life.

A full line of "Santa Maria" Pumps—both steam and power—and their renewal parts are kept ready for immediate delivery by our distributors near your wells. REMEMBER—they are guaranteed by Fairbanks-Morse Quality.
