Shore stock, which, after opening at 90⅜, fell to 89¾, but closed at 91⅛, against 90 last night. Michigan Central fell from 83½ to 81¾ and only recovered to 82¾. Canada Southern fluctuated ½ per cent, closing unchanged from yesterday at 62½. Erie was opened up ⅜ per cent at 27, fell to 26½, rallied to 27⅛, and closed at 26⅞, the preferred stock selling at 50½@50⅝@49¾@50½.

The grangers in the early dealings were heavy; Northwest common declining from 81 to 79⅞, later selling at 81¼, and St. Paul common fell from 66½ to 64¾, recovering to 66¼. The preferred stocks of both companies, however, were higher; that of Northwest rising to 100½, and of St. Paul to 98. Chicago, St. Paul and Minneapolis declined ¾ per cent, and did not recover. Keokuk and Des Moines preferred was 1½ per cent higher on a sale of 50 shares, with no following quotations. The shares of the Southwestern railroads after several fluctuations finally closed with losses ranging from ¼ to 1 per cent. The latest fancies hardly held their own, although Missouri Pacific again rose to 10@9¾. There was one more resurrection to-day. The common stock of Toledo, Peoria and Warsaw was brought to the surface, and a sale of it reported at 5, and afterward at 8½ bid. As this probably is the forerunner of some active quotations for the stock, the present is an opportune moment for a résumé of the latest information there is about the property.

The Toledo, Peoria and Warsaw Company defaulted in the payment of its interest December, 1875, and since has been operated by Mr. A. L. Hopkins, general manager of the Wabash Railroad, as receiver. The latest financial statement issued—June, 1874—was as follows: Funded debt, $6,450,000; floating debt, $1,095,178; first preferred stock, $1,700,000; second preferred stock, $1,000,000; common stock, $3,000,000; total debt $7,345,178, and total stocks $5,700,000. The company's business for the year ended December 31, 1878, was as follows:

Gross earnings	$1,352,200
Operating expenses	880,078
Net earnings	$472,211

The gross earnings of the company from January 1 to September 7 this year were $55,845 less than for the same time in 1878.

The coal stocks vibrated between the opinions, favorable and adverse, of something being done at the meeting of coal presidents that rumor-mongers had appointed for to-day. There was no meeting, in the sense the term implies, and the prospects of one seem to grow less with each passing day; and the prospects of anything being accomplished, if there should be a meeting, are still less. It is now so well understood by each of the companies that any agreement for the benefit of all, to be of service to one, must be such as will give it an advantage over the others, that each strives to tie the others while maintaining a degree of independence for itself. Excepting New-Jersey Central, which closed with a gain of ¼, the coal stocks finally closed with losses ranging from ⅛ to ⅜ per cent. The telegraph stocks were dull but lower; Western Union losing ⅞, Atlantic and Pacific and American District each ½ per cent. Pacific Mail sold between 21¾ and 21¼, finally closing at 21⅜, the same as yesterday.

Among the mining stocks, the features were the Quicksilver shares. The common stock fell from 14¾ to 13¾, rallied to 16 and closed at 14, the preferred selling at 46½@53½@49¾. The cause of this "great commotion" was the decision of the Court of Appeals in the long-pending suit between the common and preferred stockholders, the particulars of which will be found in our local columns. If we are correctly informed, the Court of Appeals is the last court of resort, and its decision in favor of the preferred stockholders is final. Under the decision, it is claimed that there is due to the preferred stockholders about 35 per cent on their stock of accumulated dividends.

The market at the close was neither strong nor weak, but feverish.

Governments again were dull but steady as to prices. The total business at the Boards amounted only to $103,000, as follows: $45,000 coupon 5s at 102⅝, $50,000 coupon 4s at 102 and $3,000 registered at 101. There was a small sale of District of Columbia 3-65s at 85, an advance of ¼ per cent over the last previous sale. The market closed firm at unnexed quotations:

The business in State bonds amounted only to $2,000: Louisiana consols at 38, and Alabama 8s, Ala. and Chat. Railroad, at 13.

Of city bank stocks, the only sales were 28 shares of Metropolitan at 129.

The business done in railroad bonds was not large, and prices generally were a trifle lower. Among the speculative kinds, Texas Pacific land grants were the most active, selling at 40 @43¾@40¼@45¼, against 39 yesterday. Erie seconds were irregular, first declining to 73⅝, then rising to 74½, and finally closing at 74, against 74⅛ last night. Burlington, Cedar Rapids and Northern 5s were ¾. C., C. and I. C. firsts assented ¾. Chesapeake and Ohio firsts class B ¼, and Missouri, Kansas and Texas seconds ⅜ per cent lower. New-Jersey consols sold at 99, convertibles at 98½, and Lehigh and Wilkesbarre consols at 79⅞. The St. Louis and Iron Mountain varieties continued strong for all except plain seconds, which fell 1 and later recovered ½ per cent. Canada Southern guaranteed were ¾ higher at 87, and Ohio and Mississippi seconds ½ at 99½. St. Paul sinking funds yielded ½ per cent to 107. Wabash was dull, but strong, and Pannibal and St. Joseph convertibles steady. The issues of the Pacific roads were firm, and where changed prices were ¼@½ per cent higher.

The Sub-Treasury to-day lost $813,978 on balance, made up by a loss of $1,145,066 currency, less a gain of $331,088 coin, making a loss since Friday of $6,001,380. In explanation of yesterday's large disbursements of $4,992,479 currency, it is learned that the amount included $2,000,000 of large legal-tender notes sent to Washington to be exchanged for small notes, so that the actual payments—currency and coin—in this market in excess of receipts were only $3,000,000, instead of $5,081,038. European steamers have arrived with $3,980,400 gold from abroad, principally in 20-franc pieces. This makes the total receipts since last Friday $4,420,400. Money to-day worked closer, the rate for call loans advancing from 6 at the opening to 7 per cent at the close. The domestic exchanges again are more against New-York, being quoted at the places mentioned as follows: Savannah, ⅜@¼ discount; Charleston, ⅛ discount to ¼ premium; New-Orleans, commercial ¼ and bank ½ discount; St. Louis, 50 cents discount; Chicago, 1/10 discount to 1/10 premium; Boston, 25 cents discount. The Treasurer at Washington to-day received $258,000 in National bank notes for redemption. The customs receipts were $393,000, and the internal revenue receipts were $252,000. The following is the Clearing-House statement to-day: Exchanges, $83,124,821; balances, $3,841,435. The business at the Sub-Treasury covered: Receipts, $1,505,452; payments, $2,319,429; currency balance, $30,799,866; coin balance, $141,171,324.

Foreign exchange was firmer, and rates were advanced fully ½ cent to the £, actual business following up. A scarcity of commercial bills is mentioned as the reason for the advance. The following are the revised quotations:

In London British consols are quoted ⅛ lower, at 97 9/16 for both money and account, while United States 5 and 4 per cent bonds are quoted ½ higher, the 4½ per cents being unchanged. In American railways the Eries all closed higher; common stock, ¼, preferred, 1, second consols ⅜, and funded 5s ¼ per cent. Illinois Central recovered ½ per cent to 94½, Pennsylvania fell ⅛ and New-Jersey Central ¼ per cent, and Reading, at 18½, was 1 lower than last previous quotations. The Bank of England gained £38,000 on balance, making £242,000 in that way in five days. In Paris the French 3 per cents sold ex interest at 83.70@83.67½, against 84.40 yesterday; slight exchange on London rising to 25.3 1/2 francs to the £.
