DULLNESS GRIPS STOCKS MARKET

No Stimulus Is Forthcoming After Short Active Period

NEW YORK, April 20.—Lacking stimulus or initiative from any responsible quarter, the stock market today lapsed into a state of dullness and irregularity, after an early period of activity and higher prices for speculative favorites, notably the oils. Steels, equipment and various other industries which move in their wake were sluggish at reactions of 1 to 2 points, while local tractions weakened in connection with prospective readjustments or cancellation of existing leases.

The course of negotiations between the American Ship Owners association and its employes occasioned some pressure against marine issues and reacted moderately upon rails. Sales 480,000 shares.

British and continental rates of exchange strengthened perceptibly in response to latest reparations developments but the German rate showed corresponding depression. Weakness in the Greek rate was attributed to that country's military reserves.

The bond market was fairly active but mainly at the expense of values. Liberty issues were lower, local utilities reflecting coming reorganization plans and rails of the convertible type were again adversely affected. Total sales, par value, $19,450,000.

WHEAT REGAINS YESTERDAY'S LOSS

Bullish Indian Advices and Deterioration Reports Figure

CHICAGO, April 20.—Wheat took a decided upward swing in price today after a new decline in which the July delivery touched the lowest point yet this season. Extremely bullish crop advices from India, together with scattered reports of domestic crop deterioration were factors. The close was strong, 2¾ to 4c net higher with May $1.25½ to ¾ and July $1.05¼ to ½. Corn gained 2⅛ to 3¼c, and oats 1⅝ to 2c. In provisions the outcome varied from 5c decline to 20c advance. Estimates were current that the wheat crop of India this season would be 100,000,000 bushels less than last year's total, and that the country would be an importer instead of an exporter.

Domestic crop deterioration reports came from the west and southwest and were contrary to the government weekly report which said freezing temperatures had done but little damage. Strength in the corn market tended also to stimulate active buying which had been notably absent during the first part of the day.

Persistent export demand gave independent strength to the corn market. Oats were firm in sympathy.

Provisions rallied with grain after being depressed by lower quotations on hogs.

GUARANTY TRUST COMPANY OF NEW YORK, TRUSTEE

We call attention to a letter from E. W. Marland, Esq., President of the Corporation, which he has briefly summarized as follows:

Business: The Marland Oil Company owns substantially all of the Capital Stocks of Marland Refining Company and Kay County Gas Company, both incorporated in Oklahoma, and through the latter company, a large majority of the Capital Stock of the Marland Oil Company of Mexico. The operating companies in Oklahoma constitute a complete unit in the oil industry, producing, transporting, refining and marketing petroleum and its products and also producing, transporting and marketing natural gas.

Property: The Marland Refining Company owns in whole or in part 105,174 acres of active and undeveloped oil leases, chiefly in Oklahoma. It owns a complete refinery having a daily capacity of 6,000 barrels of oil. The Kay County Gas Company owns 231 miles of oil pipe lines serving the Marland refinery and also owns 345,937 acres of gas leases. The Companies' properties yielded 2,280,000 barrels in 1920 of which their net interest, after deducting royalties and partnership interests, was in excess of 1,360,000 barrels.

Assets: Based upon a recent independent appraisal, combined net assets are in excess of $51,000,000. Consolidated Balance Sheet as at December 31, 1920, adjusted to give effect to the present financing, shows net current assets of $5,016,668 which must be maintained at not less than $4,000,000 during the life of these bonds.

Earnings: Net earnings of the Company and its subsidiaries for the year ended December 31, 1920, available for interest charges and reserves, and after provision for Federal Taxes amounted to $5,524,157.78. Upon the same basis, earnings for the three years ended December 31, 1920, amounted to $9,913,338.33 or an average of $3,304,446.11 a year.

Sinking Fund: A quarterly Sinking Fund of $100,000 (first payment October 1, 1921), should retire practically all bonds before maturity.

Participating Privilege: In addition to the interest of 8% per annum, Series "A" Bonds will receive $10 per $1,000 bond for each dollar per share per annum declared in dividends upon the Capital Stock of the Marland Oil Company, up to $4 a share so declared.

Subscription Rights: Each Series "A" Bond will carry a detachable warrant entitling the holder thereof to subscribe on or before April 1, 1931, to 25 shares of stock of Marland Oil Company at $40 per share.

All legal details concerning the validity of these bonds will be passed upon by Messrs. Cottingham, Hayes, Green & McInnis, Attorneys for the Company, and by Messrs. Crocker, Johnson & Shotes, Attorneys for the Bankers. The accounts of the Company have been audited by W. O. Ligon Company, Certified Public Accountants, for the Company, and have been checked by Messrs. Arthur Young & Company, Certified Public Accountants, for the Bankers. If, as and when issued and received by us, temporary bonds, exchangeable for definitive bonds will be delivered.
