Government bonds have been firm during the week, but with only a moderate amount of business, the total transactions having amounted to $2,260,000. To-day the full prices were hardly sustained, and the market was dull, the sales covering $20,000 coupon 6s of 1881 at 105⅜, $20,000 coupon 5s at 103¼, $10,000 registered at 102¼, $80,000 coupon 4s at 102¼@102, and $6,000 registered at 102⅜. The following are the highest and lowest prices of bonds for the week, and the closing sales to-day and a week ago:

The Sub-Treasury to-day lost $371,355 on balance, made up by a currency loss of $414,552, less a coin gain of $43,197. The local money market is now more stringent than for any preceding to-day, was more stringent than for any preceding day recently; the rates on call for loans secured by pledge of the usual Stock Exchange collateral running from 7 per cent to that rate with ¼ per cent commission added. At the close of the Stock Exchange considerable amounts were still wanted, which later had to be sought at the banks. There are are no noteworthy changes in the rates of domestic exchange on New-York, all points being still at a discount. The Treasurer at Washington to-day received $150,000 in National bank notes for redemption. The customs receipts were $620,000, and the internal revenue receipts were $220,000. The following is the Clearing House statement to-day: Awing to the Clearing House, $141,620,115; balances, $5,521,220. The business at the Sub-Treasury covered: Receipts, $1,706,924; payments, $2,138,280; currency balance, $15,561,882; coin balance, $131,805,915.

Foreign exchanges during the week continued dull, with very light transactions. No changes were made in rates, although toward the close a firmer feeling was shown. The following are the nominal quotations:

In London early in the week British consols declined to 97 11/16, but later recovered to and closed at 98. United States bonds fluctuated within a range of 1/16@¼ per cent, closing at the same figures as a week ago, except the new 4s which are ¼ per cent higher. American railroad securities generally followed the New-York quotations, and consequently show a material advance over the prices of a week ago. Particularly is this the case with New-Jersey Central stock and consolidated bonds, and with Reading. At yesterday's regular weekly meeting of the directors of the Bank of England the rate of interest was maintained at 2 per cent, against 1⅛ per cent, the rate at which three-months bank bills are discounted in the open market. The following are the highest and lowest prices of securities for the week, and the closing sales to-day and a week ago:

The business in State bonds was unusually active the sales, principally of Southern bonds, amounting to $467,000. Louisiana consols fluctuated between 46½ and 44, closing at the lowest price; Tennessee 6s, old, new and new series, all ruled higher. There were also active dealings in Alabamas and the Arkansas railroad issues. To-day's business included sales of Louisiana consols at 44¼@44; Georgia 7s, new, at 110¾; Tennessee 6s old at 38½, new at 33½ and new series at 33¾; Virginia 6s old at 30, and North Carolina, special tax, class 3, at 5.

Bank stocks were dealt in to an unusual extent at full figures, the transactions for the week amounting to 978 shares. To-day Merchants, sold (10) at 127, Republic (10) at 103, Manhattan (30) at 140, Phenix (88) at 84, Metropolitan (10) at 135⅛, and Continental (120) at 105.

The speculation in railroad bonds for the week was, in some instances, as rampant as the share speculation. This was particularly the case with the issues of the Missouri, Kansas and Texas Road, which at one time showed an advance of about 10 per cent; Mobile and Ohio first defaulters, which rose from 53 to 64⅝@62½, and Chesapeake and Ohio firsts, series B, that advanced to 57¾. To-day, however, the market generally sympathized with the decline in the prices of stocks. Erie second consols after rising to 87 fell to 84⅞@83¾, funded 6s selling at 82¾@82. Lehigh and Wilkesbarre consols fell from 93½ to 91, Rome, Watertown and Ogdensburg firsts to 67½, Boston, Hartford and Erie bonds to 43½, and C., C., C. and I. C. firsts to 79, the seconds ascertain selling at 50½. Lake Erie and Western income bonds advanced from 59¾ to 61. Canada Southern first guaranteed bonds were 1 per cent lower at 80. The market closed feverish and irregular. The following are the highest and lowest prices of the principal representative railroad bonds during the week, and the closing sales to-day and a week ago:
