RAILROAD SALES BOLSTER STOCKS

But Few Exceptions to Active and General Strong Market

NEW YORK, Jan. 16.—Purchases of railroad shares on a comprehensive scale and at gross gains of 1 to 3 points furnished a firm foundation for today's active and generally strong stock market.

There were several exceptions to the advance, mainly among stocks in which the short interest continued dominant. Crucible Steel, International Paper, National Enameling and several obscure specialties were conspicuous examples at reductions of one to three points.

Equipments, motors, several of the independent steels as well as coppers, utilities, textiles and miscellaneous specialties were sustained by the demand for rails. Heatiness was shown by oils during the greater part of the session but that group came forward in the final hour with Mexican Petroleum as the central feature. Sales 800,000 shares.

For the most part closing prices were irregularly under maximum quotations, extensive realizing being provoked by the steady advance of money rates. Call loans opened at 2½ per cent, but rose gradually to 6 per cent just before the end. The firmer money rates were attributed to withdrawal of federal deposits from local banks.

Foreign affairs made little impression on the money market. A canvass of conditions in the middle-west confirmed recent advices of prospective revival in many lines of manufacture.

The bond market movement contrary to the tone of stock, prices in that quarter showing considerable confusion which extended to liberty issues, all of that series closing at moderate recessions.

It Started Something

"Your medicine is the talk of the town since pulling me from the grave. I have told dozens about it and I know of at least ten who are now taking Mayr's Wonderful Remedy, all with good results. I never saw anything like it. One man who had been operated on for gall stones and had them come back, took it and says his symptoms are all gone now and he swears he is cured." It is a simple, harmless preparation that removes the catarrhal mucus from the intestinal tract and allays the inflammation which causes practically all stomach, liver and intestinal ailments, including appendicitis. One dose will convince or money refunded. For sale by all druggists.—Advertisement.

HE DARKENED HIS GRAY HAIR

Tells How He Did It.

Mr. J. A. McCrea, a well known resident of California, who was called Daddy and Grandpa on account of his white hair, and who darkened it with a home-made mixture, recently made the following statement:

"Anyone can prepare a simple mixture at home that will darken gray hair, and make it soft and glossy. To a half pint of water add 1 ounce of bay rum, a small box of Barbo Compound and ¼ ounce of glycerine.

These ingredients can be bought at any drug store at very little cost. Apply to the hair twice a week until the desired shade is obtained. It does not color the scalp, is not sticky or greasy and does not rub off."—Advertisement.

PRICE OF WHEAT TENDS TO SLUMP

Competition From South and Broker's Failure Are Influences

CHICAGO, Jan. 16.—Wheat had a tendency to sag in price today owing more or less to competition from the southern hemisphere and to a failure of a brokerage house in New York. The close, however, was steady at the same as Saturday's finish to 1-4c lower, with May $1.11 3-8 to $1.11 1-2 and July $1 to $1.00 1-8. Corn gained a shade to 1-8c; oats lost 1-8c to 1-8@1-4c; and provisions finished unchanged to 22c higher.

With reports current of enlarged offerings of the new crop in Australia and Argentina, the wheat market here showed an absence of aggressive buying at the outset. After midday, however, buyers displayed a little more confidence and the market rallied somewhat. Russian relief purchases were helpful as a stimulus at this juncture, and so too, was announcement of a decrease in the United States visible supply total.

Renewal of export inquiry together with a visible supply decrease gave firmness to the corn market. Oats prices declined in the absence of any special demand.

Increased shipments of lard helped to lift provision values despite lower quotations on hogs.

KEEP URIC ACID OUT OF JOINTS

Tells Rheumatism Sufferers Eat Less Meat and Take Salts

Rheumatism is easier to avoid than to cure, states a well known authority. We are advised to dress warmly; keep the feet dry; avoid exposure; eat less meat, but drink plenty of good water.

Rheumatism is a direct result of eating too much meat and other rich foods that produce uric acid which is absorbed into the blood. It is the function of the kidneys to filter this acid from the blood and cast it out in the urine; the pores of the skin are also a means of freeing the blood of this impurity. In damp and chilly cold weather the skin pores are closed thus forcing the kidneys to do double work; they become weak and sluggish and fail to eliminate the uric acid which keeps accumulating and circulating through the system, eventually settling in the joints and muscles causing stiffness, soreness and pain called rheumatism.

At the first twinge of rheumatism get from any pharmacy about four ounces of Jad Salts; put a tablespoonful in a glass of water and drink before breakfast each morning for a week. This is said to eliminate uric acid by stimulating the kidneys to normal action, thus ridding the blood of these impurities.

Jad Salts is inexpensive, harmless and is made from the acid of grapes and lemon juice, combined with lithia and is used with excellent results by thousands of folks who are subject to rheumatism.—Advertisement.
