The Legislature of this year enacted a law, entitled "An Act to Preserve the Purity of Elections," which will go into effect at the election on Tuesday. It does away with the engraved and colored ballots in use in the State for many years. The ballot must be of plain white paper, in weight equal to ordinary printing paper, without any device or mark of distinguishment, except the names and residences of candidates, the titles of the offices to be filled, and words at the head of the ballot, all of which must be printed or written in black ink, and if printed the names of candidates must be in letters of uniform size. When there are three names of candidates on the ballot, it must be 4½ inches wide, a variation of one-fourth of an inch being allowed, and in length it must be 12 inches, a variation of one-half of an inch only being permissible. It is unlawful to mark any ballot or to deliver any marked ballot to a voter for the purpose of ascertaining how he shall vote. The "scratching" of ballot is allowed, and every ballot after it has been once placed in the ballot-box must be counted, even if every provision of law is violated, except that no ballot can be counted if the name of any candidate is printed in letters less than one-half the size in which a majority of the names on the ballot are printed. The old practice of making ballots unmistakably distinctive by the means of red, blue, green and other colored backs, and also by use of engraved head-pieces, had its advantages, but it was carried to an excess. Year by year the devices for ballots grew more elaborate, and the resources of the engraver's art were brought into use to prevent counterfeiting. One result of all this was to make Boston the headquarters for ballot-printing. The country printers found their occupation at election time nearly gone, and when a move was made in the Legislature for uniform ballots, they joined with those who favored a plain white ballot.

MISSISSIPPI.

In Mississippi about one-half the State Senators and a full House of Representatives will be elected and the people will vote upon a proposed Amendment to the State Constitution. The object of the Constitutional Amendment is to secure biennial sessions of the Legislature and to change the time of holding general elections from the odd to the even years. No provision, however, is made as to the length of the sessions of the Legislature, and, although it is required to meet biennially, there is nothing to prevent its following the example set by the Legislature of Ohio, which holds "adjourned sessions," practically amounting to annual meetings.

The proposed Amendment substitutes two new sections in place of Sections 6 and 7 of Article IV. These sections now provide that the political year shall begin on the first Monday of January; that the Legislature shall meet annually on the first Tuesday after the first Monday in January, unless sooner convened by the Governor; that all general elections shall be by ballot, and shall be held every two years on the first Tuesday after the first Monday in November, and that electors shall be privileged from arrest during attendance at elections, except for treason, felony and breach of the peace. The proposed sections were passed by the Legislature in 1878, and read as follows:

SECTION 6. The political year shall being on the first Monday in January; the Legislature shall meet at the seat of Government on the first Tuesday after the first Monday in January, A.D. 1882, also on the first Tuesday after the first Monday in January, 1883, and biennially thereafter, unless sooner convened by the Governor. The time and place of meeting may be altered by law.

SEC. 7. A general election, by ballot, shall be held on the first Tuesday after the first Monday in November, A.D. 1880, and biennially thereafter. All officers who go into office on the first Monday in January, 1882, shall be elected at the general election in 1880. All officers who go into office on the first Monday in January, 1880, and all officers who go into office on the first Monday in January, 1882, shall hold their respective offices for three years, but the Constitutional terms of their successors shall not be hereby affected. Electors in all cases, except in cases of treason, felony and breach of the peace, shall be privileged from arrest during their attendance at elections, and the going to and returning therefrom.

The Legislature to be chosen at this election will meet next January, and will elect a United States Senator to succeed Blanche K. Bruce (Rep.), whose term will expire in March, 1881. The last Legislature was overwhelmingly Democratic. The Senators from thirteen districts, and one each from two other districts, hold over. There are Republican, Democratic and Greenback candidates in the field. In some of the Sen te and Representative Districts the Democrats have made no nominations, but have left the field open for Independent Democratic candidates.

NEBRASKA.

In Nebraska the people will elect a Judge of the Supreme Court, two Regents of the State University, judges in the several Judicial Districts, and County officers. The candidates before the people are named below:

	Republican.	Democratic.

In 1876 the Republicans carried two of the districts named below, and the Democrats four. Of the fifteen Senators holding over, nine are Republicans, five Democrats, and one an Independent Democrat. The Senators elected this year will take part in the choice of a United States Senator in 1881 to succeed Theodore F. Randolph (Dem.) The Tammany Democracy, after the bolt at Syracuse, nominated John Kelly for Governor in place of Governor Robinson, but supported the remainder of the Syracuse ticket. The Workingmen's Central Union in this city has indorsed the Greenback ticket, with the exception of the candidate for Governor, whose name has been replaced by that of John Kelly.
